| 1  | CHAIRMAN O'BRIEN: I will convene the   | 1  | the context of water being of the upmost importance  |
| 2  | regular meeting of the planning board at 7:05 p.m.   | 2  | CHAIRMAN O'BRIEN: Sir, we will hear from   |
| 3  | Cindy, excuse me.  | 3  | you when we get the public comments on that item.  |
| 4  | This is to advise that notice of the   | 4  | ZACK WEALE: I didn't expect that water   |
| 5  | time, date, location, and to the extent known, the   | 5  | specifically was going to be on the agenda, but it is?   |
| б  | agenda of the subject meeting was prominently posted   | 6  | CHAIRMAN O'BRIEN: Water's not on the   |
| 7  | in a public space reserved for such or similar   | 7  | agenda. The Princeton Junction redevelopment at the  |
| 8  | announcements, transmitted to the Times of Trenton,  | 8  | train station is on the agenda.  |
| 9  | the Princeton Packet, and the West Windsor and   | 9  | ZACK WEALE: So you asked for any items   |
| 10   | Plainsboro News, and filed with the township clerk on  | 10   | that weren't on the agenda, which is what I tried to   |
| 11   | September 24th.  | 11   | address. Thank you.  |
| 12   | Cindy, please call the roll.   | 12   | CHAIRMAN O'BRIEN: Hang on. Are you   |
| 13   | MS. DZIURA: Mr. Joseph? Ms. Bahree?  | 13   | talking about water on 571 caused by rain storms or  |
| 14   | Mr. Schectel? Mr. Pankove? Mr. Hoberman?   | 14   | something not related I'm not trying to cut you  |
| 15   | MR. HOBERMAN: Here.  | 15   | off, but we expect to be talking about stormwater  |
| 16   | MS. DZIURA: Ms. Geevers?   | 16   | management.  |
| 17   | MS. GEEVERS: Here.   | 17   | ZACK WEALE: This is directly related   |
| 18   | MS. DZIURA: Mr. Baig? Ms. Appelget?  | 18   | directly related to the development. And, I mean, all  |
| 19   | Mayor Marathe?   | 19   | you have to do is look at the number of  |
| 20   | MR. MARATHE: Yes.  | 20   | CHAIRMAN O'BRIEN: So, please   |
| 21   | MS. DZIURA: Vice Chairman Karp?  | 21   | ZACK WEALE: alerts.  |
| 22   | MR. KARP: Here.  | 22   | CHAIRMAN O'BRIEN: We will get to you   |
| 23   | MS. DZIURA: Chairman O'Brien?  | 23   | when we get to public comment about the application.   |
| 24   | CHAIRMAN O'BRIEN: Yes.   | 24   | ZACK WEALE: Well, it's going to get to   |
| 25   | Martina Baillie is serving as the Board's  | 25   | be 10:00 we're going to cut it off.  |
|  |  |  |  |

|--|---|--|---|
| 1  | to the general concerns about Covid that still plague   | 1  | My concerns about the lack of a remote link for the   |
| 2  | us.   | 2  | planning board date back to the proceedings that  |
| 3  | And I think what I just wanted to point   | 3  | occurred last year. During the heart of the pandemic,   |
| 4  | out was because the Covid concerns are still here,  | 4  | when none of us were vaccinated, and I raised the   |
| 5  | there might actually be people who didn't attend  | 5  | issue of lack of a Zoom link or remote link with  |
| 6  | tonight, despite our excellent mask compliance,   | 6  | council, and did not get a satisfactory response.   |
| 7  | because of Covid. And Covid would be the only reason  | 7  | And I want to note that Counsel for   |
| 8  | that they were not here in the room in person tonight.  | 8  | Avalon Bay at the last meeting remarked that there was  |
| 9  | Such people are not allowed to speak here at the  | 9  | no Zoom link. So I think that this is irregular, and  |
| 10   | meeting, like I'm going to speak right now, because   | 10   | I have serious concerns about it.   |
| 11   | there is no interactive remote link to participate in   | 11   | And I trust in the good faith of the  |
| 12   | this meeting. There's only a read-only YouTube  | 12   | planning board, and I hope you will revisit this going  |
| 13   | meeting.  | 13   | forward. Thank you.   |
| 14   | I believe that not providing that link  | 14   | CHAIRMAN O'BRIEN: Our ranks are   |
| 15   | limits the public participation in the input from the   | 15   | swelling.   |
| 16   | community into this meeting, and I believe that the   | 16   | Does anyone else wish to make an comment  |
| 17   | planning board deliberately does not provide that link  | 17   | that does not pertain to an agenda item?  |
| 18   | so as to limit public participation that they don't   | 18   | All right. Then we will go to the   |
| 19   | want to hear in opposition to the project, or just in   | 19   | application. Before we do that, I want to indicate  |
| 20   | general. And I feel that our township could do better   | 20   | that I made a bad mistake at the last meeting. In the   |
| 21   | to solicit opinions. Or not even solicit. Just even   | 21   | beginning of the hearing for the application I stated,  |
| 22   | allow people to come who are concerned about Covid.   | 22   | for those watching on YouTube, we will entertain any  |
| 23   | Come virtually to give their opinions.  | 23   | comments or questions that you'd like to submit after   |
| 24   | Ideal case, the planning board would  | 24   | tonight's meeting.  |
| 25   | actually proactively solicit opinions, but I will   | 25   | Our attorney, Mr. Muller, provided the  |
|  | Page 7  |  |   |
|  | rage /  |  | Page 9  |
| 1  | never call it out for that.   | 1  | planning board provided me with a memorandum that   |

|  | Page 10   |  | Page 12  |
|--|---|--|--|
| 1  |   | 1  | MR. O'BRIEN: Kenneth O'Brien.  |
|  | of Bisgaier & Hoff on behalf of the Applicant, Avalon   |  | BY MR. HOFF:   |
| 2  | Bay Communities, Inc.   | 3  | Q Mr. O'Brien, if you could for the Board  |
|  | As the Board and members of the public,   | 4  | provide your educational and professional background?  |
| 4  | previously on September 22nd we presented the   | 5  |  |
| 5  | testimony of our civil engineer, as well as the   |  |  |
| 6  | architectural testimony, or what we are refer to as   | 6  | of New Jersey. I have a Bachelor's of Architecture   |
| 7  | the Pulte section of the project, and the   | 7  | from Virginia Tech. I've been licensed in the state  |
| 8  | architectural testimony with respect to the Atria   | 8  | for 14 years now, and presented at planning boards all   |
| 9  | section of the project.   | 9  | over the state.  |
| 10   | Tonight we have our final three   | 10   | Q And qualified by those boards?   |
| 11   | witnesses. We're going to start with Mr. Ken O'Brien.   | 11   | A Yes. Correct.  |
| 12   | Mr. O'Brien is going to provide testimony relative to   | 12   | MR. HOFF: Mr. Chairman, I'd offer Mr.  |
| 13   | the Avalon Bay architecture within the project.   | 13   | O'Brien qualified to testify in the field of   |
| 14   | For the record, Mr. Chairman, as was  | 14   | architecture.  |
| 15   | marked at the last hearing A-1, we have a slide show  | 15   | CHAIRMAN O'BRIEN: Does anybody object to   |
| 16   | presentation that's been collectively marked. And as  | 16   | this witness being considered expert? So be it.  |
| 17   | we did at the last hearing, we will continue this   | 17   | MR. HOFF: Thank you, Mr. Chairman.   |
| 18   | meeting. It's 72 separate sheets. Each of the   | 18   | BY MR. HOFF:   |
| 19   | witnesses has designated portions of that presentation  | 19   | Q Mr. O'Brien, as indicated, we're going to  |
| 20   | that they're going to walk through. As they walk  | 20   | work through this slide show that we've done with  |
| 21   | through it, they'll direct everyone's attention to the  | 21   | prior witnesses. I believe you're going to start at  |
| 22   | page that they're on so that the record is clear. And   | 22   | page 21; is that correct? We moved on to 22, so why  |
| 23   | we'll proceed in the same manner as we did at the last  |  | don't we start with where just give because, you   |
| 24   | meeting.  | 24   | know, we're starting it new today, why don't we just   |
| 25   | CHAIRMAN O'BRIEN: Excuse me just a  | 25   | reorient the Board members, the members of the public,   |
|  | Page 11   |  | Page 13  |
| 1  | minute, please.   | 1  | and then focus on your area of the architectural   |
| 2  | MR. HOFF: Sure.   | 2  | aspect?  |
| 3  | CHAIRMAN O'BRIEN: I'm sorry for the   | 3  | A Yes. Absolutely. Thank you.  |
| 4  | interruption. The only screen that will display the   | 4  | So we're looking at Exhibit Sheet 22   |
| 5  | presentation material and/or Mr. Lange, who's not able  | 5  | right now. In the middle of the page, between the two  |
| 6  | to be here tonight because of a Covid situation. So   | 6  | blue blocks here, you see the promenade, which splits  |
| 7  | if anybody in the audience wants to turn their chair  | 7  | the project in half. And north is up to the top  |
| 8  | so they're facing the screen to my left, please feel  | 8  | right. And you see to the east side the bigger blue  |
| 9  | free to do so. It will be easier on your torso to be  | 9  | block is the east what we refer to as Avalon East.   |
| 10   | comfortable.  | 10   | And to the left of the promenade is what we'll refer   |
| 11   | MS. BAILLIE: I'm just going to point out  | 11   | to as Avalon West.   |
| 12   | for a second that we've had some additional Board   | 12   | CHAIRMAN O'BRIEN: Excuse me, Mr. Hoff.   |
|  |   | 13   | Why did you turn off these lights?   |
| 13   | members have joined the quorum. We have a quorum now.   | -  |  |
| 13<br>14   |   | 14   | MR. HOFF: It's easier for people to see  |

| 1  | pointers with the red dot, so if you're talking about   | 1  | If you can go the next slide that you'll   |
| 2  | a certain area you can, you know, point to it?  | 2  | see is from the corner of so this is sheet 24 of   |
| 3  | MR. O'BRIEN: It's not working right now.  | 3  | the exhibit. This is the view from Washington Road as  |
| 4  | MS. GEEVERS: It's not working?  | 4  | you at the corner of Road B. So Road B is  |
| 5  | MR. O'BRIEN: To the top of the left side  | 5  | you're looking south southwest here coming in off  |
| 6  | of the Avalon West building is the Atria Senior Living  | 6  | of Washington. This is the corner of the building  |
| 7  | portion. Along the central spine of the promenade is  | 7  | that you'll first see entering the site from   |
| 8  | the Pulte condo building. And then you see the  | 8  | Washington Road. See the breakdown in massing. The   |
| 9  | townhomes to the top right.   | 9  | townhomes are directly to your the right side of   |
| 10   | You can go to the next slide, I believe.  | 10   | this image.  |
| 11   | Yes. So this is slide sheet 23. Here you see in a   | 11   | So we're trying to break down the massing  |
| 12   | little more detail the Avalon West and Avalon East  | 12   | into three-story elements. Break it down into smaller  |
| 13   | buildings. To the left of the promenade on the top is   | 13   | elements to coordinate with the townhomes.   |
| 14   | the Avalon West building. 159 units. 126 are market   | 14   | We worked collaboratively with the other   |
| 15   | rate and 33 are affordable. It's about 205,000 square   | 15   | architects to pick up different materials that carry   |
| 16   | feet. There's three market rate studios. Sixty-one  | 16   | throughout the throughout the development, and   |
| 17   | one-bedrooms. Of those, 58 are market rate and four   | 17   | different scaler elements that relate to each other.   |
| 18   | are affordable. Seventy-seven two-bedrooms.   | 18   | SPEAKER: Excuse me. Is this the view   |
| 19   | Fifty-six are market rate and 21 affordable. Eighteen   | 19   | from the circle?   |
| 20   | three-bedrooms. Ten market rate and eight affordable.   | 20   | MR. O'BRIEN: This is after you come out  |
| 21   | See the West garage that is to the top of   | 21<br>22   | of the circle and coming down to that the  |
| 22   | the page? There's an entrance from Road B to the  |  | intersection.  |
| 23   | Avalon West garage. That garage houses 309 parking  | 23<br>24   | SPEAKER: So is the intersection in   |
| 24<br>25   | spaces. There are 50 EV charging spaces in that.  | 24   | relationship to this, where's the circle?  |
| 25   | That is a shared parking garage between senior living   | 25   | MR. LADELL: Who is this, Mr. Chairman?   |
|  |   |  | D 10   |
|  | Page 15   |  | Page 17  |
| 1  | and the Avalon residence. It's 81 parking spaces for  | 1  | MR. O'BRIEN: I'm sorry. I can't  |

| 1   | there's a nonresidential retail portion to the left of   | 1  | CHAIRMAN O'BRIEN: Who would have access   |
| 2   | that building, which you'll see in one of the views.   | 2  | to that deck?   |
| 3   | As we come around the promenade you see  | 3  | MR. O'BRIEN: The residents of the Avalon  |
| 4   | we have anchoring the Avalon East Building is the  | 4  | buildings.  |
| 5   | retail retail portion of the building. Large   | 5  | CHAIRMAN O'BRIEN: Any resident?   |
| 6   | retail portion. And then we have amenity space for   | 6  | MR. O'BRIEN: Yes.   |
| 7   | the Avalon Avalon residents. And this is shared.   | 7  | CHAIRMAN O'BRIEN: And it's just, what?  |
| 8   | Both of these amenity spaces on both sides are shared  | 8  | A seating area or something like that?  |
| 9   | between the residents of both buildings.   | 9  | MR. O'BRIEN: It's not fully programmed  |
| 10  | MR. HOBERMAN: Ken, now that you have a   | 10   | yet, but, yes; seating areas and lounge space.  |
| 11  | pointer I think you have a pointer.  | 11   | CHAIRMAN O'BRIEN: Thank you.  |
| 12  | MR. O'BRIEN: Yes.  | 12   | MR. O'BRIEN: Go to the next slide. Here   |
| 13  | MR. HOBERMAN: I'd like to ask I'm  | 13   | we're looking from the train station parking lot view.  |
| 14  | asking all presenters that, as you use your pointer  | 14   | Sorry. This is sheet 27 of the exhibit. We're   |
| 15  | tonight on the display, please be more descriptive for   | 15   | looking at the Avalon West building. Again, this is a   |
| 16  | those that are watching on YouTube and cannot see the  | 16   | mixture of fiber cement lap siding, panel siding, and   |
| 17  | screen. They might be able to see the presentation by  | 17   | some wood look some wood look fiber cement siding   |
| 18  | reference to page number, but they cannot see as you   | 18   | and siding as well. Vinyl windows, storefront on the  |
| 19  | point to a particular item upon the screen. Makes  | 19   | ground floor, retail areas.   |
| 20  | sense?   | 20   | There are canopies and awning awnings   |
| 21  | MR. O'BRIEN: Absolutely.   | 21   | along the retail frontage on both of the buildings  |
| 22  | CHAIRMAN O'BRIEN: Ken, might I impose on   | 22   | that are compatible with the buildings. And here  |
| 23  | you to go back to Page 23 or slide 23 and help us with   | 23<br>24   | we're really trying to make a landmark.   |
| 24<br>25  | the orientation?<br>MR. O'BRIEN: Yes.  | 24   | You also notice on the towards the  |
| 25  |  | 25   | right-hand side of this image that you can see the  |
|   | Page 19  |  | Page 21   |
| 1   | So as you come out of the circle on  | 1  | pavilion in the promenade in this image. There's an   |
| 2   | Washington Road and you come down here, that view that   | 2  | open-air pavilion that has electric and water service,  |
| 3   | you are looking at on page 24 is at this intersection  | 3  | and really anchors this end of the pavilion.  |
| 4   | facing facing this corner of the building.   | 45   | I believe last time you talked about how  |
| 5   | CHAIRMAN O'BRIEN: Thank you.   | 1 h  |   |
| 6   |  |  | this end of the promenade can be closed off to  |
| 7<br>8  | MR. O'BRIEN: Thank you.  | 6  | traffic, and this can be used as an event space.  |
|   | Go to the next sheet. So now we're   | 6<br>7   | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public  |
|   | Go to the next sheet. So now we're looking at page 26. This is the north end of the  | 6<br>7<br>8  | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public<br>bathroom anywhere there? Because you mentioned about  |
| 9   | Go to the next sheet. So now we're<br>looking at page 26. This is the north end of the<br>promenade. Here you see the angles on the corner of  | 6<br>7<br>8<br>9   | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public<br>bathroom anywhere there? Because you mentioned about<br>having concerts and different things. That promenade  |
| 9<br>10   | Go to the next sheet. So now we're<br>looking at page 26. This is the north end of the<br>promenade. Here you see the angles on the corner of<br>the building, as the buildings angle away at the  | 6<br>7<br>8<br>9<br>10   | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public<br>bathroom anywhere there? Because you mentioned about<br>having concerts and different things. That promenade<br>not is not just for the people living there, but  |
| 9<br>10<br>11   | Go to the next sheet. So now we're<br>looking at page 26. This is the north end of the<br>promenade. Here you see the angles on the corner of<br>the building, as the buildings angle away at the<br>corners and have recessed entries. The entry to the   | 6<br>7<br>8<br>9<br>10<br>11   | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public<br>bathroom anywhere there? Because you mentioned about<br>having concerts and different things. That promenade<br>not is not just for the people living there, but<br>for the, you know, general public, West Windsor   |
| 9<br>10<br>11<br>12   | Go to the next sheet. So now we're<br>looking at page 26. This is the north end of the<br>promenade. Here you see the angles on the corner of<br>the building, as the buildings angle away at the<br>corners and have recessed entries. The entry to the<br>left here is the amenity entry to the Avalon East  | 6<br>7<br>8<br>9<br>10<br>11<br>12   | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public<br>bathroom anywhere there? Because you mentioned about<br>having concerts and different things. That promenade<br>not is not just for the people living there, but<br>for the, you know, general public, West Windsor<br>residents, especially.   |
| 9<br>10<br>11<br>12<br>13   | Go to the next sheet. So now we're<br>looking at page 26. This is the north end of the<br>promenade. Here you see the angles on the corner of<br>the building, as the buildings angle away at the<br>corners and have recessed entries. The entry to the<br>left here is the amenity entry to the Avalon East<br>Building. There's a large bay announcing that amenity   | 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | traffic, and this can be used as an event space.<br>MS. GEEVERS: Is there any public<br>bathroom anywhere there? Because you mentioned about<br>having concerts and different things. That promenade<br>not is not just for the people living there, but<br>for the, you know, general public, West Windsor<br>residents, especially.<br>MR. O'BRIEN: There's not a restroom, a   |
| 9<br>10<br>11<br>12<br>13<br>14   | Go to the next sheet. So now we're<br>looking at page 26. This is the north end of the<br>promenade. Here you see the angles on the corner of<br>the building, as the buildings angle away at the<br>corners and have recessed entries. The entry to the<br>left here is the amenity entry to the Avalon East<br>Building. There's a large bay announcing that amenity<br>corner. This is similar materials to the rest of the   | 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | traffic, and this can be used as an event space.<br>MS. |   | Page 22  |   | Page 24  |
|---|--|---|--|
| 1   | you're having nice concerts, and that's all good for   | 1   | I'm a licensed landscape architect here in New Jersey.   |
| 2   | the community and people living there. I mean, it's  | 2   | I've been a graduate from Rutgers University with a  |
| 3   | just something that I would want addressed. People   | 3   | degree in landscape architecture, 1994, licensed in  |
| 4   | supposed to go into a restaurant if there's a  | 4   | 1997. I've appeared before numerous boards on similar  |
| 5   | restaurant there?  | 5   | applications, and I did have the pleasure of appearing   |
| 6   | MR. O'BRIEN: There are. There will be  | 6   | before this Board about a year ago on an application.  |
| 7   | retail, you know, components here and  | 7   | CHAIRMAN O'BRIEN: Anyone object to this  |
| 8   | MS. GEEVERS: But will they be open late  | 8   | witness being considered expert? So be it.   |
| 9   | enough?  | 9   | MR. HOFF: Thank you, Mr. Chairman.   |
| 10  | MR. O'BRIEN: We don't know what they're  | 10  | BY MR. HOFF:   |
| 11  | going to be yet.   | 11  | Q Mr. Carman, same presentation format.  |
| 12  | MS. GEEVERS: It's hard to tell. I'm  | 12  | You're going to start on slide 45, and you'll walk us  |
| 13  | just saying, if you're going to be doing this, then  | 13  | through your presentation.   |
| 14  | you got to think about how that's going to work.   | 14  | A Great. Thank you.  |
| 15  | MR. SCHECTEL: I'd like to follow up on   | 15  | So if we can move to the next slide, this  |
| 16  | Linda's question with regard to the utilization of   | 16  | is a slide we're looking at slide 46. This is an   |
| 17  | that space.  | 17  | image that everybody has seen in the past. It's the  |
| 18  | CHAIRMAN O'BRIEN: Allen, can you use the   | 18  | overall rendered site plan. And I'm going to stay on   |
| 19  | mike? Get a little closer, please. Thank you.  | 19  | this plan for a little bit, as I just give a bit of an   |
| 20  | MR. SCHECTEL: Okay. So with regard to  | 20  | overview related to the landscape architectural  |
| 21  | the open space that we have to the public, are you   | 21  | portions, and then I will make my way through. I'll  |
| 22  | going to put in any kind of framework infrastructures  | 22  | touch on lighting, and then I will also discuss the  |
| 23  | so that if you had bands playing, you know, they would   | 23  | recreational amenities for the residential the   |
| 24  | have something to plug into? Are you thinking of   | 24  | various residential buildings. And then, lastly, I   |
| 25  | doing anything of that nature? Any lighting for the  | 25  | will discuss the promenade.  |
|   | Page 23  |   | Page 25  |
| 1   | area if there's going to be evening concerts?  | 1   | So we have a very richly detailed  |
| 2   | MR. O'BRIEN: Yeah. The landscape   | 2   | landscape plan that includes a very diverse and hardy  |
| 3<br>4  | architect, I believe, will address the promenade   | 3   | palette of plant material, both ornamental and native  |
| 5   | layout in a little more detail.  |   | plant material along the street frontages the  |
| 5   | MD SCHECTEL: Okay  |   | plant material, along the street frontages, the  |
| 6   | MR. SCHECTEL: Okay.<br>CHAIPMAN O'BPIEN: Apything else for this  | 5   | building facades, as well as the promenade stormwater  |
| 6<br>7  | CHAIRMAN O'BRIEN: Anything else for this   | 5<br>6  | building facades, as well as the promenade stormwater<br>basins and the amenity spaces. Deciduous shade trees  |
| 7   | CHAIRMAN O'BRIEN: Anything else for this witness?  | 5   | building facades, as well as the promenade stormwater<br>basins and the amenity spaces. Deciduous shade trees<br>are located throughout, and they're a mix of maple,   |
| 7<br>8  | CHAIRMAN O'BRIEN: Anything else for this<br>witness?<br>Thank you, Ken.  | 5<br>6<br>7   | building facades, as well as the promenade stormwater<br>basins and the amenity spaces. Deciduous shade trees  |
| 7   | CHAIRMAN O'BRIEN: Anything else for this<br>witness?<br>Thank you, Ken.<br>MR. O'BRIEN: Great. Thank you.  | 5<br>6<br>7<br>8  | building facades, as well as the promenade stormwater<br>basins and the amenity spaces. |          |  | 1        |  |
|----------|--|----------|--|
|          | Page 26  |          | Page 28  |
| 1        | buildings. It's somewhat unkept today, but, again,   | 1        | And then as we move more towards the   |
| 2        | that that landscape includes some invasive material  | 2        | promenade, we have some other more decorative  |
| 3        | as well, some ornamental material, as well as some   | 3        | fixtures. And I'll show an image of that in a little   |
| 4        | natives.   | 4        | bit.   |
| 5        | So there's approximately 380 trees on the  | 5        | So if I could now we're going to move  |
| 6        | site that are going to be removed. There's a bit   | 6        | to some of the amenity slides. What we've done is  |
| 7        | over, approximately 460 trees that are proposed,   | 7        | created a very comprehensive package of amenities for  |
| 8        | within the landscape plan.   | 8        | the residents. What I'm going to do is I'm going to  |
| 9        | Along with the trees there's detailed  | 9        | walk you through a few plans that identify the areas,  |
| 10       | foundation building planting that's proposed along the   | 10       | such as this plan, which is sheet 47. That indicates   |
| 11       | Avalon buildings, the Atria buildings, as well as  | 11       | Atria North courtyard and the Atria West courtyard.  |
| 12       | typical unit foundation plants for the various   | 12       | And then what I will do is I'll show you a couple of   |
| 13       | townhomes.   | 13       | 3-D views as we move through.  |
| 14       | All the planting includes some evergreen   | 14       | So moving to slide 48 here, this is a 3-D  |
| 15       | shrubs, deciduous shrubs, all to kind of accent the  | 15       | view of the Atria North courtyard. What we're seeing   |
| 16       | architecture, as well as a mix of ornamental grasses   | 16       | in the foreground is some table and chair seating, a   |
| 17       | and perennials.  | 17       | nice garden wall, and in the background a shade  |
| 18<br>19 | Native and adaptive plants are being used  | 18<br>19 | structure.<br>And then associated with the   |
| 20       | to really reduce the irrigation requirements, and<br>seasonal planting to provide some good accent and       | 20       | architecture, you see a fireplace with some lounge   |
| 20       | texture.   | 20       | seating there. This image and you're going to see  |
| 21       | Lighting. If I can now talk about  | 22       | it in all the other 3-D images. We've got about half   |
| 23       | lighting a bit, using the same the same slide.   | 23       | a dozen images that I'll be showing you. You're going  |
| 24       | We've provided a series of lighting plans within the   | 24       | to see the architecture. We've turned the materials  |
| 25       | submitted landscape and lighting sheets. There's over  | 25       | off, right? And we've turned the colors of the   |
|          | Page 27  |          | Page 29  |
| 1        | 5  | 1        | _  |
| 1<br>2   | four sheets, I think, dedicated just to the lighting.<br>And we indicate on there a table that shows that we |          | architecture off. So, really, it's just the landscape architecture that is being focused in these views. |
| 3        | meet all the ordinance requirements or exceed those  | 2        | CHAIRMAN O'BRIEN: With regard to the   |
| 4        | requirements. There is one item that we are exceeding  | 4        | fireplace, what's the source of energy?  |
| 5        | in that it's ordinance section 231.K4, which requires  | 5        | MR. CARMAN: It's a natural gas   |
| 6        | an average of .6 foot candles in residential areas.  | 6        | fireplace. All the fireplaces include emergency  |
| 7        | And our average is a little bit above that. We are   | 7        | shutoffs, code compliant shutoffs, and such.   |
| 8        | actually at .8.  | 8        | CHAIRMAN O'BRIEN: Thank you.   |
| 9        | So and the reason that we are we're  | 9        | MR. CARMAN: Moving to the next slide   |
| 10       | exceeding that .6 is because the ordinance does not  | 10       | here, we're at 49. This is a view of the west  |
| 11       | have a minimum requirement. So what we've done is  | 11       | courtyard of the Atria building. And in the  |
| 12       | we've established .2 as a minimum. And the .2 is the   | 12       | foreground we see a long panel that's used for things  |
| 13       | Illuminating Engineering Society's guideline for that.   | 13       | such as chair yoga. And then a little bit more of an   |
| 14       | Essentially, once we establish that minimum, kind of   | 14       | intimate garden seating space towards the background.  |
| 15       | drives up our average a bit.   | 15       | There's also some garden space associated  |
| 16       | So we feel it's really a prudent approach  | 16       | with it, such as for growing some vegetables or  |
| 17       | not to go down to, like, a zero, but to provide that   | 17       | flowers.   |
| 18       | minimum of .2, which has elevated our average up to  | 18       | Next slide. Slide number 50. So this   |
| 19       | .8.  | 19       | indicates the various courtyard spaces, part of the  |
| 20       | We have a very compatible palette of   | 20       | Avalon West Building, as well as the East Building.  |
| 21       | lights. We've really worked to select light fixtures   | 21       | And it ranged from on the West or the East   |
| 22       | that work throughout, whether it's using the county  | 22       | Building, on the north side the children's play area.  |
| 23       | kind of standard over at the roundabout, or the  | 23       | On the east side towards the south where there's a dog   |
| 24       | Princeton Junction-style fixture that comes in along   | 24       | run.   |
| 25       | Road A and is used all within the townhome portion.  | 25       | What I'll do is I'll take you through a  |

|  | Page 30  |  | Page 32   |
|--|--|--|---|
| 1  | few of these 3-D views, starting on the West Building.   | 1  | 3-D view of that on slide 56. So here again we're   |
| 2  | Slide number 51, please. So this is  | 2  | seeing some different opportunities for residents. A  |
| 3  | highlighting Avalon West courtyard. And then we'll   | 3  | shade trellis, the fire pit below. There's some   |
| 4  | see a 3-D view on sheet 52.  | 4  | outdoor gaming associated with this one, some string  |
| 5  | So looking into this space on the  | 5  | lights to just provide some ambiance out there.   |
| 6  | foreground, we see barbecue grills, nice open lawn   | 6  | And the last courtyard that we're going   |
| 7  | area, raised seating node with tables and chairs.  | 7  | to look at is on sheet 57. So this is the courtyard   |
| 8  | Various seating opportunities throughout.  | 8  | that opens up to Washington Road. Here's the 3-D  |
| 9  | Slide number 53. We'll jump over to the  | 9  | view.   |
| 10   | West courtyard. And we're going to focus on the pool   | 10   | Sheet 58 where in the foreground we're  |
| 11   | courtyard here, which is 3-D view on slide 54. Here a  | 11   | seeing barbecue grilling, central fire pit area, a  |
| 12   | bird's eye view looking at the pool. It's a  | 12   | lawn panel. Then you also see ringing this towards  |
| 13   | multi-level terrace. So within the brown tone, that's  | 13   | the building. And most of the courtyards have   |
| 14   | the upper deck area where there's some barbecue  | 14   | residential terraces. So any of the units that face   |
| 15   | grills, some seating spaces.   | 15   | these courtyards, some of them may have a private   |
| 16   | And then we have a code compliant pool   | 16   | patio that would come out to it.  |
| 17   | fence that encloses the whole pool area where you  | 17   | All the spaces are ADA compliant, include   |
| 18   | could then step down with an ADA ramp, bringing you  | 18   | lush planting, just creating some really welcoming  |
| 19   | down to the pool area. A sun shelf associated with   | 19   | environments.   |
| 20   | the pool, which has a shallow depth of water, and then   | 20   | MS. GEEVERS: Where is the lighting  |
| 21<br>22   | a pool which is more traditional depth.  | 21<br>22   | the lighting poles around?  |
| 22   | CHAIRMAN O'BRIEN: Is this the only pool  | 22   | MR. CARMAN: The light poles are shown on  |
| 23<br>24   | in the entire tract?<br>MR. CARMAN: This is.   | 24   | the lighting plan. In this image there are bollard  |
| 24   | MS. GEEVERS: How many units does that  | 24   | lights. They're not depicted in this 3-D kind of artist's interpretation.   |

CARMAN: There is a lifeguard, and we<br>have worked on a number of Avalon Bay communities<br>throughout New Jersey. And, really, the program that<br>they have developed is a really superior program where<br>the residents they offer great amenities for the<br>various residents, and really have related to the<br>number of units right down to the amount of chaise  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21             | Now we'll go to slide 59. Slide 59, this<br>is another this is we're just keying in the<br>promenade. And I think you've seen this this<br>exhibit in the past during the civil engineer's<br>testimony. But central central to the overall<br>redevelopment is the promenade. It's really a<br>significant amenity. We just spoken about all the<br>various amenities, but this is really the greatest<br>amenity for the residents, as well as the general<br>public.<br>If we could so this is an enlargement<br>of it. We're on slide 60. And so this is the<br>beauty of the promenade, the way it's designed, is,<br>really, to create some flexibility. The flexibility<br>is created through designing multiple spaces within<br>the overall space.<br>And then further the flexibility that's<br>achieved by being able to limit vehicular circulation<br>around that. So on a typical day cars can come in off<br>of Road B and circulate around the promenade clockwise<br>along Road D down and around, 360 degrees back out  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | pool serve?<br>MR. CARMAN: This pool would serve all of<br>the Avalon Bay residents. Offhand I do not recall the<br>exact unit number. I can excuse me.<br>MR. LADELL: 535.<br>MR. CARMAN: 535.<br>CHAIRMAN O'BRIEN: So this is just for<br>the apartments?<br>MR. CARMAN: That is correct. That is<br>correct.<br>MR. HOBERMAN: Avalon Bay pool locations,<br>maybe at other Avalon Bay locations, is it typical for<br>it to be swim at your own risk or does Avalon Bay use<br>lifeguards?<br>MR. CARMAN: There is a lifeguard, and we<br>have worked on a number of Avalon Bay communities<br>throughout New Jersey. And, really, the program that<br>they have developed is a really superior program where<br>the residents they offer great amenities for the<br>various residents, and really have related to the<br>number of units right down to the amount of chaise<br>lounges and things like that that they have surveyed  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | Now we'll go to slide 59. Slide 59, this<br>is another this is we're just keying in the<br>promenade. And I think you've seen this this<br>exhibit in the past during the civil engineer's<br>testimony. But central central to the overall<br>redevelopment is the promenade. It's really a<br>significant amenity. We just spoken about all the<br>various amenities, but this is really the greatest<br>amenity for the residents, as well as the general<br>public.<br>If we could so this is an enlargement<br>of it. So on a typical day cars can come in off<br>of Road B and circulate around the promenade clockwise<br>along Road D down and around, 360 degrees back out<br>along Road E, parallel parking along there.   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22<br>23 | pool serve?<br>MR. CARMAN: This pool would serve all of<br>the Avalon Bay residents. Offhand I do not recall the<br>exact unit number. I can excuse me.<br>MR. LADELL: 535.<br>MR. CARMAN: 535.<br>CHAIRMAN O'BRIEN: So this is just for<br>the apartments?<br>MR. CARMAN: That is correct. That is<br>correct.<br>MR. HOBERMAN: Avalon Bay pool locations,<br>maybe at other Avalon Bay locations, is it typical for<br>it to be swim at your own risk or does Avalon Bay use<br>lifeguards?<br>MR. CARMAN: There is a lifeguard, and we<br>have worked on a number of Avalon Bay communities<br>throughout New Jersey. And, really, the program that<br>they have developed is a really superior program where<br>the residents they offer great amenities for the<br>various residents, and really have related to the<br>number of units right down to the amount of chaise<br>lounges and things like that that they have surveyed<br>across their various portfolio of properties. | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22<br>23 | Now we'll go to slide 59. Slide 59, this<br>is another this is we're just keying in the<br>promenade. And I think you've seen this this<br>exhibit in the past during the civil engineer's<br>testimony. But central central to the overall<br>redevelopment is the promenade. It's really a<br>significant amenity. We just spoken about all the<br>various amenities, but this is really the greatest<br>amenity for the residents, as well as the general<br>public.<br>If we could so this is an enlargement<br>of it. We're on slide 60. And so this is the<br>beauty of the promenade, the way it's designed, is,<br>really, to create some flexibility. The flexibility<br>is created through designing multiple spaces within<br>the overall space.<br>And then further the flexibility that's<br>achieved by being able to limit vehicular circulation<br>around that. So on a typical day cars can come in off<br>of Road B and circulate around the promenade clockwise<br>along Road D down and around, 360 degrees back out<br>along Road E, parallel parking along there.<br>But during times where maybe there's |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | pool serve?<br>MR. CARMAN: This pool would serve all of<br>the Avalon Bay residents. Offhand I do not recall the<br>exact unit number. I can excuse me.<br>MR. LADELL: 535.<br>MR. CARMAN: 535.<br>CHAIRMAN O'BRIEN: So this is just for<br>the apartments?<br>MR. CARMAN: That is correct. That is<br>correct.<br>MR. HOBERMAN: Avalon Bay pool locations,<br>maybe at other Avalon Bay locations, is it typical for<br>it to be swim at your own risk or does Avalon Bay use<br>lifeguards?<br>MR. CARMAN: There is a lifeguard, and we<br>have worked on a number of Avalon Bay communities<br>throughout New Jersey. And, really, the program that<br>they have developed is a really superior program where<br>the residents they offer great amenities for the<br>various residents, and really have related to the<br>number of units right down to the amount of chaise<br>lounges and things like that that they have surveyed  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | Now we'll go to slide 59. Slide 59, this<br>is another this is we're just keying in the<br>promenade. And I think you've seen this this<br>exhibit in the past during the civil engineer's<br>testimony. But central central to the overall<br>redevelopment is the promenade. It's really a<br>significant amenity. We just spoken about all the<br>various amenities, but this is really the greatest<br>amenity for the residents, as well as the general<br>public.<br>If we could so this is an enlargement<br>of it. We're on slide 60. And so this is the<br>beauty of the promenade, the way it's designed, is,<br>really, to create some flexibility. The flexibility<br>is created through designing multiple spaces within<br>the overall space.<br>And then further the flexibility that's<br>achieved by being able to limit vehicular circulation<br>around that. So on a typical day cars can come in off<br>of Road B and circulate around the promenade clockwise<br>along Road D down and around, 360 degrees back out<br>along Road E, parallel parking along there.   |

|  | Page 34   |  | Page 36  |
|--|---|--|--|
| 1  | cars can continue to circulate up and down on this  | 1  | And then next to that is a larger lawn   |
| 2  | slide at Road B, but would not be able to come in.  | 2  | panel.   |
| 3  | So from Avalon West to Avalon East, and   | 3  | And then finally we have a what we   |
| 4  | from Road B to the transit parking lot, that whole  | 4  | called a north plaza. And in the 3-D views provided  |
| 5  | zone can totally become a pedestrian area.  | 5  | by the architect earlier you saw that north plaza.   |
| 6  | We also have created the ability to do a  | 6  | If I could now, let's move to slide 61.  |
| 7  | hybrid solution. So just about centered of this space   | 7  | So here we have the amphitheater area, the sitting   |
| 8  | is an opportunity where a couple of bollards could be   | 8  | steps. Our back is directly to the train station   |
| 9  | removed and cars could make their way through. So now   | 9  | parking. You can see how people can sit on these   |
| 10   | we're able to close about a half almost a third of  | 10   | steps during an event. They could also set up chairs   |
| 11   | the promenade and leave the left half or the left   | 11   | on the on the lawn there.  |
| 12   | two-thirds of it open, purely to pedestrian   | 12   | And then the pavement that defines the   |
| 13   | circulation.  | 13   | vehicular area, defines the pedestrian zone, kind of   |
| 14   | CHAIRMAN O'BRIEN: What's the  | 14   | blurs the line of a shared space, having the ability   |
| 15   | significance of the color coding?   | 15   | to put a stage out there as well. And then we're   |
| 16   |   | 16   | seeing the open air pavilion in the background.  |
| 17   | MR. CARMAN: The color coding of the   | 17   |  |
| 18   | trees?<br>CHAIRMAN O'BRIEN: Yeah.   | 18   | Next, moving to slide 62, now we're down at grade. In the same looking north, again, we're   |
| 19   | MR. CARMAN: Just we have some we  | 19   |  |
| 20   |   | 20   | down you see the way the pavement defines the area?  |
| 20   | have a variety of different tree types, and these are   | 20   | Defines that south plaza space? Defines the area   |
| 21   | some that are accented that would be a flowering tree.  | 22   | where the pavilion is then where the sidewalk would  |
| 22   | So now within this space there's also, as   | 22   | be.  |
| 23<br>24   | I mentioned, there's multiple spaces within the   | 23   | There was a question earlier related to  |
| 24   | greater overall promenade design.   | 24   | lighting. And you see the column lights that are a very decorative element located right in front of the   |
| 2.5  | So starting on the left-hand side where   | 2.5  |  |
|  |   |  |  |
| 1  | Page 35   | 1  | Page 37  |
| 1  | the train station parking lot is, we have an ample  | 1  | pavilion.  |
| 2  | the train station parking lot is, we have an ample theater type of seating element. So it's about six   | 2  | pavilion.<br>And in terms of electric and water, yes,  |
| 2<br>3   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being   | 2<br>3   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the  |
| 2<br>3<br>4  | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.   | 2<br>3<br>4  | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the  |
| 2<br>3<br>4<br>5   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white  | 2<br>3<br>4<br>5   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to   |
| 2<br>3<br>4<br>5<br>6  | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped  | 2<br>3<br>4<br>5<br>6  | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.   |
| 2<br>3<br>4<br>5<br>6<br>7   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails   | 2<br>3<br>4<br>5<br>6<br>7   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8  | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the   | 2<br>3<br>4<br>5<br>6<br>7<br>8  | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long<br>treads that step down. So we would be able to sit   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within<br>the pavilion or within the seat wall there, we will   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long<br>treads that step down. So we would be able to sit<br>there on a great day or set up a stage down on the   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within<br>the pavilion or within the seat wall there, we will<br>provide that electrical connection.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long<br>treads that step down. So we would be able to sit<br>there on a great day or set up a stage down on the<br>lower portion down on the road.  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within<br>the pavilion or within the seat wall there, we will<br>provide that electrical connection.<br>MS. GEEVERS: Is that in the plans now?  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long<br>treads that step down. So we would be able to sit<br>there on a great day or set up a stage down on the<br>lower portion down on the road.<br>So as we move further there's the the   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within<br>the pavilion or within the seat wall there, we will<br>provide that electrical connection.<br>MS. GEEVERS: Is that in the plans now?<br>MR. CARMAN: It's noted in the plans.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16   | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long<br>treads that step down. So we would be able to sit<br>there on a great day or set up a stage down on the<br>lower portion down on the road.<br>So as we move further there's the the<br>open air pavilion, which the architect just previous   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16   | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within<br>the pavilion or within the seat wall there, we will<br>provide that electrical connection.<br>MS. GEEVERS: Is that in the plans now?<br>MR. CARMAN: It's noted in the plans.<br>The exact location is not shown.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                                     | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. Train station parking being<br>higher than the promenade.<br>So the sidewalk that's in the white<br>meandering configuration, that's handicapped<br>accessible route. It doesn't even require handrails<br>in that. It's just a sloped walkway that meets the<br>compliance for ADA access.<br>And then there are four different<br>terraced seating opportunities. They have these long<br>treads that step down. So we would be able to sit<br>there on a great day or set up a stage down on the<br>lower portion down on the road.<br>So as we move further there's the the<br>open air pavilion, which the architect just previous<br>before me had provided some testimony on. And I'll   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                                     | pavilion.<br>And in terms of electric and water, yes,<br>that is something that would be brought to the<br>pavilion. That is something that's part of the<br>redevelopment plan that we are certainly going to<br>provide.<br>MS. GEEVERS: So the lights will have<br>outlets, a couple of outlets, so if the band wants to<br>hook up?<br>MR. CARMAN: Yeah. So whether whether<br>the lights themselves have an outlet to it or within<br>the pavilion or within the seat wall there, we will<br>provide that electrical connection.<br>MS. GEEVERS: Is that in the plans now?<br>MR. CARMAN: It's noted in the plans.<br>The exact location is not shown.<br>MR. SCHECTEL: What about water  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18                               | the train station parking lot is, we have an ample<br>theater type of seating element. So it's about six<br>foot of grade change. |        | Page 38  |         | Page 40   |
|--------|--|---------|---|
| 1      | be an amenity that people would use.   | 1       | knowledge related to programming for residents.   |
| 2      | MR. CARMAN: I'm sure that's something  | 2       | And so in looking at the courtyards and   |
| 3      | that we could incorporate.   | 3       | identifying where the best locations would be for   |
| 4      | The next view would be slide 63. So here   | 4       | that, collectively work through them, and, yeah, that                                     |
| 5      | we're seeing now we've switched around all the way   | 5       | seems to be a good location. It's   |
| 6      | at the end of this towards the top of this view.   | 6       | MR. SCHECTEL: Well, where you located   |
| 7      | That's where the train station parking is. So, you   | 7       | it, they're I think they're good. I thought it  |
| 8      | know, we're looking south. And the synthetic turf  | 8       | would be nice to have distributed them throughout the                                     |
| 9      | lawn panel right in the foreground. And then that  | 9       | community.  |
| 10     | plaza space with the deck jets coming out of it.   | 10      | MR. CARMAN: I see, yeah. So the amount  |
| 11     | All right. So synthetic turf panel, the  | 11      | of it, again, that goes to just our experience, as  |
| 12     | deck jet, the fountain, great amenity for people of  | 12      | well as their experience, with communities like this.                                     |
| 13     | all ages, but certainly something that children would  | 13      | MR. SCHECTEL: So, essentially, you're   |
| 14     | like as well.  | 14      | saying that two tot lots that you're showing, that's                                      |
| 15     | During a previous I think during the   | 15      | it for this size community?   |
| 16     | last meeting there was a question posed to the other   | 16      | MR. CARMAN: That's correct. It's  |
| 17     | architect of the townhomes, whether there was a play   | 17      | actually just the one tot lot on the on that East   |
| 18     | area associated with the townhomes. And to clarify,  | 18      | Building of Avalon Bay.   |
| 19     | there is not a specific play area at the townhome  | 19      | MR. SCHECTEL: Right. And in terms of  |
| 20     | portion. But certainly all the residents throughout  | 20      | the swimming pool, what standards did you rely upon                                       |
| 21     | this redevelopment have access to the promenade, which   | 21      | to, basically, size the swimming pool? 530 units.   |
| 22     | is, really, the we feel is the greatest amenity.   | 22      | And also what percentage of the day will  |
| 23     | Really unique opportunity.   | 23      | that pool be, basically, in shade, because it is the                                      |
| 24     | Some of the residents of this overall  | 24      | north side of your building.  |
| 25     | development, I'm sure that they will visit West  | 25      | MR. CARMAN: Right. It is. So the way  |
|        | Page 39  |         | Page 41   |
| 1      | Windsor's community parks. I'm sure that some of the   | 1       | we've designed that space is that we provided the   |
| 2      | greater West Windsor public will come and visit this   | 2       | seating as on the northern side the best that we could                                    |
| 3      | promenade.   | 3       | so it would get some southern exposure. But   |
| 4      | MS. GEEVERS: So the children will be   | 4       | certainly, yes, the pool itself is in is in shade a                                       |
| 5      | able to run through the water during the summer? It's  | 5       | decent amount of the time.  |
| 6      | not just an architectural type of  | 67      | MR. SCHECTEL: Yeah. Most of the time.   |
| 7      | MR. CARMAN: Right. So what it what   | 8       | MR. CARMAN: Yes.  |
| 8<br>9 | it is is it's flush pavement. So during if there's<br>an event where, let's say, it's an arts and crafts |         | MR. SCHECTEL: And in terms of sizing the  |
| 10     | event, I'm just speculating something, and they set up   | 9<br>10 | pool, did you rely upon any state or national standard, recreational standards, for that? |
| 11     | some tents along there. This fountain has the ability  | 11      | MR. CARMAN: We did not rely on national   |
| 12     | to be turned off and be no water. You could just walk  | 12      | standards for we relied on standards that we have   |
| 13     | along the pavement. When the fountain is turned on,  | 13      | worked through with our clients and their and our   |
| 14     | the water comes out of the pavement so a child could   | 14      | experience.   |
| 15     | play in that water that disappears right into the  | 15      | MR. SCHECTEL: Thank you.  |
| 16     | pavement.  | 16      | MS. GEEVERS: Maybe one of our   |
| 17     | MR. SCHECTEL: In terms of the  | 17      | professionals could just comment on that later, if  |
| 18     | recreational amenities for children, you touched on  | 18      | it's township code you have so many units, the pool                                       |
| 19     | the I noticed that the only tot lots you had were  | 19      | has to be so many square footage.   |
| 20     | around the East Building. Nothing around the West.   | 20      | MR. CARMAN: So if I could now move to   |
| 21     | Is there a reason for that?  | 21      | the next slide, which is we're at 64. And this is   |
| 22     | MR. CARMAN: No. As we as I   | 22      | a view of the promenade. We are at the north plaza  |
| 23     | mentioned, we when we work on a project with Avalon  | 23      | looking towards the south, and we're seeing an arcade                                     |
|        | Day, we would through come an aific pressure close at  | 24      | structure that takes off on the same kind of elements                                     |
| 24     | Bay, we work through some specific program elements  | 24      | that are in the pavilion.   |

Pages 38 to 41

|   | Page 42  |   | Page 44  |
|---|--|---|--|
| 1   |  | 1   |  |
| 2   | The column light we're seeing right in   | 2   | seeing street lights. There's bike racks, benches,   |
| 3   | the foreground here, which is a bit of a more  | 3   | seat walls, that further layering; elements to enhance<br>the pedestrian experience. The multiple spaces within  |
| 4   | architectural light, and then some seating opportunities within that space. Sidewalk moving off  | 4   | the promenade are defined by the trees by various  |
| 5   | to the to the left, and then that synthetic lawn   | 5   | paving patterns, as well as the arcade structure and   |
| 6   | space.   | 6   | the pavilion itself.   |
| 7   | The next slide is slide 65, which on the   | 7   | So we're really excited about the overall  |
| 8   | top we're seeing the various types of furniture that   | 8   | promenade, the project in general. We think that it's  |
| 9   | are proposed within the promenade. A picnic table,   | 9   | that it would be a great addition for the  |
| 10  | movable tables, and chairs. Some lounge kind of  | 10  | residents, as well as the general public, coming to  |
| 11  | seating, as well as some a bench that comes in   | 11  | the space.   |
| 12  | multiple configurations, right? It could be way back   | 12  | MR. HOBERMAN: Tom, looking at slide  |
| 13  | without a back, depending upon where it is located   | 13  | 66   |
| 14  | within the promenade.  | 14  | MR. CARMAN: Yes?   |
| 15  | And then on the bottom, the bottom row   | 15  | MR. HOBERMAN: the planting slope,  |
| 16  | we're seeing the the various types of light  | 16  | pretty well developed. How developed are they at the   |
| 17  | fixtures. So I referenced the column light in the  | 17  | time of initial planting compared to the view that   |
| 18  | previous slide, and that is the first one on the left  | 18  | we're looking at?  |
| 19  | with a compatible bollard.   | 19  | MR. CARMAN: Right. So the the trees  |
| 20  | And then we have what's called the   | 20  | that we're looking at over here, you're almost seeing  |
| 21  | millennial post fixture, which is in the middle, and   | 21  | that it's that it's my gut feeling is those  |
| 22  | that's a bit more of an architectural fixture. So  | 22  | trees are shown at about 20 a little over 20 feet  |
| 23  | that's located around the Avalon Bay building.   | 23  | in this image. And, really, when they go in they'll  |
| 24  | And then the last one, which is the  | 24  | be more in the range of 14 to 15 feet, so they'll be a   |
| 25  | Princeton Junction's style light, which comes in if we   | 25  | bit smaller. But it's a three and a half three to  |
|   | Page 43  |   | Page 45  |
| 1   | come in off of the roundabout, that and that   | 1   | three and a half caliper tree which will come in at  |
| 2   | happens within the townhome as well.   | 2   | about that 14, 15.   |
| 3   | CHAIRMAN O'BRIEN: Tom, who maintains the   | 3   | CHAIRMAN O'BRIEN: Tom, did you say that  |
| 4   | furniture and lighting?  | 4   | it's expected that the vehicular movement in Roads D   |
| 5   | MR. CARMAN: Within within the  | 5   | and E will be in one direction only?   |
| 6   | promenade and along the street, that is Avalon Bay or  | 6   |  |
| 7   |  | Ŭ   | MR. CARMAN: Yes. Yes.  |
| 8   | the Applicant.   | 7   | MR. CARMAN: Yes. Yes.<br>CHAIRMAN O'BRIEN: Clockwise, I think I  |
|   | CHAIRMAN O'BRIEN: Thank you.   | 7<br>8  | CHAIRMAN O'BRIEN: Clockwise, I think I heard?  |
| 9   | CHAIRMAN O'BRIEN: Thank you.<br>MS. GEEVERS: The furniture looks a   | 7<br>8<br>9   | CHAIRMAN O'BRIEN: Clockwise, I think I<br>heard?<br>MR. CARMAN: That's correct.  |
| 9<br>10   | CHAIRMAN O'BRIEN: Thank you.<br>MS. GEEVERS: The furniture looks a<br>little bit light in terms of weight. You know, we get  | 7<br>8<br>9<br>10   | CHAIRMAN O'BRIEN: Clockwise, I think I<br>heard?<br>MR. CARMAN: That's correct.<br>MR. HOBERMAN: Actually,   |
| 9<br>10<br>11   | CHAIRMAN O'BRIEN: Thank you.<br>MS. GEEVERS: The furniture looks a<br>little bit light in terms of weight. You know, we get<br>a lot of rainstorms.  | 7<br>8<br>9<br>10<br>11   | CHAIRMAN O'BRIEN: Clockwise, I think I<br>heard?<br>MR. CARMAN: That's correct.<br>MR. HOBERMAN: Actually,<br>counterclockwise.  |
| 9<br>10<br>11<br>12   | CHAIRMAN O'BRIEN: Thank you.<br>MS. GEEVERS: The furniture looks a<br>little bit light in terms of weight. You know, we get<br>a lot of rainstorms.<br>MR. | 1  | within the community.   | 1  | complete?  |
| 2  | MR. SCHECTEL: So will somebody be   | 2  | MR. CARMAN: That does conclude my  |
| 3  | responsible for planning the use of the promenade over  | 3  | , testimony. Thank you.  |
| 4  | time, over the year, for example, X, Y, Z, or could   | 4  | CHAIRMAN O'BRIEN: Any other questions  |
| 5  | have concerts in the park? You're going to have an  | 5  | for this witness at this time?   |
| 6  | art show or craft show, whatever?   | 6  | Thank you, sir.  |
| 7  | MR. HOFF: We don't know. I mean, part   | 7  | MR. CARMAN: Thank you.   |
| 8  | of the agreement between the parties is to work   | 8  | MR. HOFF: Thank you, Mr. Chairman. And   |
| 9  | towards that. Right now we don't have the programming   | 9  | our final affirmative witness, Mr. Maurice Rached.   |
| 10   | yet, but that's certainly the intention to allow for  | 10   | He's our traffic engineer.   |
| 11   | different activities that would benefit different   | 11   | MS. BAILLIE: Good evening, Mr. Rached.   |
| 12   | sectors of the community to use the promenade.  | 12   | MR. RACHED: Good evening.  |
| 13   | MS. GEEVERS: We should have something in  | 13   | MS. BAILLIE: Please raise your right   |
| 14   | writing. I know it's not worked out yet, but I  | 14   | hand when you have a second. Do you swear or affirm  |
| 15   | thought years ago maybe we discussed that there would   | 15   | that the testimony you're about to give will be the  |
| 16   | be some kind of agreement at some point on how this is  | 16   | truth?   |
| 17   | going to work.  | 17   | MR. RACHED: I do.  |
| 18   | MR. HOFF: No. There is a redevelopment  | 18   | MS. BAILLIE: Thank you. Please state   |
| 19   | agreement that calls exactly for that. But,   | 19   | and spell your name, please.   |
| 20   | obviously, for the same thing that we're struggling   | 20   | MR. RACHED: Maurice Rached. That's   |
| 21   | with now as to what it might be, we don't know yet.   | 21   | R-A-C-H-E-D.   |
| 22   | Just like when we entered the agreement we didn't know  | 22   | BY MR. HOFF:   |
| 23   | then. We just made it the acknowledgement between the   | 23   | Q Mr. Rached, if you could for the Board,  |
| 24   | parties that, yes, it would be public space. I  | 24   | your educational and professional qualifications,  |
| 25   | remember back in the day we talked about a farmers  | 25   | please?  |

But you recall Mr. Lange sort of gave<br>us some background as to the area we're dealing with<br>from a traffic perspective. I thought it would also  |

|          | Page 50  |       | Page 52   |
|----------|--|-------|---|
| 1        | the area functions right now.  | 1     | And what I mean by that, not only access  |
| 2        | A Very well.   | 2     | to this development that you have before you tonight,   |
| 3        | Q Just make reference to the slide numbers   | 3     | but access to future development that may happen to   |
| 4        | as we go through.  | 4     | the right of the roundabout, as you see it on the   |
| 5        | A We're looking at slide number 68. And on   | 5     | sheet. And we worked with the county very closely on  |
| 6        | that slide you see the development itself, and it's  | 6     | finalizing the design.  |
| 7        | highlighted in yellow. And if you look to the right  | 7     | One of the very important elements that   |
| 8        | of the yellow markings you will see the outline of   | 8     | we included in the design is connectivity for   |
| 9        | Route 571.   | 9     | pedestrians and connectivity for bicycle traffic.   |
| 10       | And then moving up on that slide you will  | 10    | And on future slides you will see a   |
| 11       | see the alignment of Washington Road.  | 11    | closeup where we can talk about some more details, as   |
| 12       | In general, the access for this  | 12    | far as bicycle lanes and pedestrian sidewalks.  |
| 13       | development is through a combination of traffic coming   | 13    | So if we can go to the next slide. So   |
| 14       | from Route 571, Princeton-Hightstown Road, and   | 14    | this slide is to demonstrate some of the improvements   |
| 15       | Washington Road, and then it filters in through a  | 15    | that we're achieving. To orient you, I'm pointing now   |
| 16       | couple of access points, which we will show on a on  | 16    | to the existing site, which is pretty much the lower  |
| 17       | the next slide.  | 17    | half of that aerial shot that you see on the screen.  |
| 18       | If we can go to the next slide. On this  | 18    | And above it there's a building. This is known as the   |
| 19       | slide you could you see the development a little   | 19    | AI building.  |
| 20       | bit closer. And to orient you one more time, I'm   | 20    | And there are seven driveways along   |
| 21       | pointing now on this slide all the way to the right of   | 21    | Washington Road which we're consolidating into two,   |
| 22       | the slide. You see the alignment of the  | 22    | and some of the driveways, like the driveway that   |
| 23       | Princeton-Hightstown Road, which is also Route 571.  | 23    | currently services AI, and that is that the one   |
| 24       | And today it actually curves and meets Washington Road   | 24    | next to it that also services our site do not have the  |
| 25       | somewhere in this location. So that is being   | 25    | proper sight distance.  |
|          | Page 51  |       | Page 53   |
| 1        | eliminated for the purpose of realigning the roadway,  | 1     | And this exhibit is to show you how it  |
| 2        | improving it, improving capacity, and building a   | 2     | doesn't have the proper sight distance. But resolving   |
| 3        | roundabout.  | 3     | all these issues, and with the introduction of the  |
| 4        | So this is an effort that's been in the  | 4     | roundabout, sight distance is restored, and the whole   |
| 5        | works for a few years now. We've worked with the   | 5     | road will operate very efficiently and safer than   |
| 6        | township, with the county, and with the state on   | 6     | existing.   |
| 7        | developing this plan.  | 7     | We can go to the next slide. And I think  |
| 8        | Before we started our traffic study with   | 8     | on this slide we'll spend most of the time. It has  |
| 9        | the township, we provided the township with our intent   | 9     | most of the details.  |
| 10       | in terms of what we studying and how we're doing it.   | 10    | So this is a closeup of the roundabout,   |
| 11       | The township professionals gave approval to the intent   | 11    | the alignment. To orient you again, this is the   |
| 12<br>13 | of the study, which we called the scope of study, and<br>then we preceded forward. We conducted the applysic | 12    | bridge over the rail right here. Just to reference,   |
| 14       | then we proceeded forward. We conducted the analysis,<br>the daily collection, and we finalized a traffic    | 13    | this part of the roadway belongs to NJDOT. And then   |
| 14       | report, and then we worked with the county on  | 15    | the rest belongs to the county. And then moving to  |
| 16       | reconfiguring and redesigning 571 and Washington Road.   | 16    | the west, it becomes a municipal roadway. And,<br>therefore, we had to work with the DOT and the county |
| 17       | We went through a variety of analyses.   | 17    | and, of course, with the town to finalize this  |
| 18       | We looked at placing a traffic signal. We looked at  | 18    | alignment and finalize all the details specifically   |
| 19       | changing the geometry and keeping it unsignalized, and   | 19    | when it comes to pedestrian connectivity and bike   |
| 20       | we looked at, as you see before you, the installation  | 20    | path.   |
| 20       | of a roundabout.   | 20    | So in terms of the bicycle routes, we   |
| 22       | The county was very strongly in favor of   | 22    | worked with the county on developing seven-foot   |
| 23       | the installation of the roundabout for a variety of  | 23    | shoulders on both sides of the roadway throughout the   |
| 24       | reasons. It improves capacity greatly, it provides   | 24    | project limit, which would be appropriate for bicycle   |
| 25       | the community for better access.   | 25    | traffic. This is a solution that we found to be the   |
| 20       |  | 1 2 2 |   |

Pages 50 to 53

|  | Page 54  |  | Page 56  |
|--|--|--|--|
| 1  | most appropriate, and it's a solution that the county  | 1  | Then there is a crossing across one of the legs of the   |
| 2  | also recommended, and we followed their  | 2  | roundabout, and then we pick it up right here with   |
| 3  | recommendation.  | 3  | another sidewalk and a crossing here, and then we meet   |
| 4  | MR. HOBERMAN: Maurice?   | 4  | the existing sidewalk system.  |
| 5  | MR. RACHED: Yes?   | 5  | On the other side of the roundabout we   |
| 6  | MR. HOBERMAN: I really do like the   | 6  | have a wider area, which is about eight to 10 feet,  |
| 7  | indication in this graphic of bike lanes. And even   | 7  | which is appropriate for bicycle traffic. So bicycle   |
| 8  | though it's only a small portion, this is an element   | 8  | traffic will be using the shoulder, but then they will   |
| 9  | of our this is a part of our circulation element   | 9  | merge into this area around the roundabout, and then   |
| 10   | that we do want to have bicycle connectivity between   | 10   | continue into the shoulder on their way.   |
| 11   | Penns Neck and other parts of the West Windsor   | 11   | CHAIRMAN O'BRIEN: So page 46 of the  |
| 12   | Township on the other side of the Northeast Corridor   | 12   | Maser submission appears to show crosswalks on either  |
| 13   | train line.  | 13   | side of the roundabout; is that true?  |
| 14   | However, I do note in the engineering  | 14   | MR. RACHED: Yes. There will be   |
| 15   | documents, the Maser Engineering documents, pages 45   | 15   | crosswalks across the three there will be a  |
| 16   | through 47, on traffic signing and striping plans that   | 16   | crosswalk across the side of the length of the   |
| 17   | there are no indications of bicycle lanes or bicycle   | 17   | roundabout that actually goes towards the train  |
| 18   | path. And these documents also indicate a six-foot   | 18   | station.   |
| 19   | shoulder. And you have testified there would be a  | 19   | CHAIRMAN O'BRIEN: So what sort of  |
| 20   | seven-foot shoulder.   | 20   | controls will be used at those crosswalks so that  |
| 21   | Can you clarify, please?   | 21   | pedestrians can get across?  |
| 22   | MR. RACHED: Yes. Thank you for the   | 22   | MR. RACHED: There will be a yield sign   |
| 23   | question and thank you for reviewing the plans with  | 23   | and there will be pavered markings, which are  |
| 24   | such detail.   | 24   | standard. You can find these on traffic control  |
| 25   | The original design was six-foot lanes   | 25   | devices in the MUTCD, which stands for Manual on   |
|  | Page 55  |  | Page 57  |
|  |  |  |  |
| 1  | and 12-foot I'm sorry. Six-foot shoulders and  | 1  | Uniform Traffic Control Devices. And you see them  |
| 2  | 12-foot lanes.   | 2  | around the state and around the nation.  |
| 2<br>3   | 12-foot lanes.<br>But then, in discussing the design with  | 23   | around the state and around the nation.<br>So, again, there will be yield signs and  |
| 2<br>3<br>4  | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen   | 2<br>3<br>4  | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where  |
| 2<br>3<br>4<br>5   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate   | 2<br>3<br>4<br>5   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be  |
| 2<br>3<br>4<br>5<br>6  | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are  | 2<br>3<br>4<br>5<br>6  | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.  |
| 2<br>3<br>4<br>5<br>6<br>7   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.  | 2<br>3<br>4<br>5<br>6<br>7   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8  | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.<br>MR. HOBERMAN: So you would say then   | 2<br>3<br>4<br>5<br>6<br>7<br>8  | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing<br>signals that the pedestrians can activate?  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.<br>MR. HOBERMAN: So you would say then<br>right now the Maser documents are lacking with that  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing<br>signals that the pedestrians can activate?<br>MR. RACHED: No.   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.<br>MR. HOBERMAN: So you would say then<br>right now the Maser documents are lacking with that<br>level of the development?   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing<br>signals that the pedestrians can activate?<br>MR. RACHED: No.<br>CHAIRMAN O'BRIEN: Why not?   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.<br>MR. HOBERMAN: So you would say then<br>right now the Maser documents are lacking with that<br>level of the development?<br>MR. RACHED: There will be revised plans.   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing<br>signals that the pedestrians can activate?<br>MR. RACHED: No.<br>CHAIRMAN O'BRIEN: Why not?<br>MR. RACHED: Because there is no need at  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.<br>MR. HOBERMAN: So you would say then<br>right now the Maser documents are lacking with that<br>level of the development?<br>MR. RACHED: There will be revised plans.<br>MR. HOBERMAN: That will reflect what   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing<br>signals that the pedestrians can activate?<br>MR. RACHED: No.<br>CHAIRMAN O'BRIEN: Why not?<br>MR. RACHED: Because there is no need at<br>this point. And that's really the reason for putting  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | 12-foot lanes.<br>But then, in discussing the design with<br>the county, we mutually agreed that we should widen<br>the shoulder to seven feet to make it more appropriate<br>for bicycling traffic, and add whatever signs are<br>necessary to indicate that this is a bicycle lane.<br>MR. HOBERMAN: So you would say then<br>right now the Maser documents are lacking with that<br>level of the development?<br>MR. RACHED: There will be revised plans.<br>MR. HOBERMAN: That will reflect what<br>you're saying?   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | around the state and around the nation.<br>So, again, there will be yield signs and<br>there will be pavement markings to delineate where<br>pedestrians are to cross and delineate where cars be<br>to to are to stop.<br>CHAIRMAN O'BRIEN: Will there be flashing<br>signals that the pedestrians can activate?<br>MR. RACHED: No.<br>CHAIRMAN O'BRIEN: Why not?<br>MR. RACHED: Because there is no need at<br>this point. And that's really the reason for putting<br>a roundabout, is that a traffic signal or other type  |

| 1  | Page 58  |  | Page 60  |
|--|--|--|--|
| 1  | roundabout that they are able to be looking directly   | 1  | you know, it's very, very bright and you cannot miss   |
| 2  | at the crosswalk. I'm concerned that there's not   | 2  | it.  |
| 3  | enough time, perhaps, for a vehicle's operator to  | 3  | MR. SCHECTEL: There will be bike paths   |
| 4  | react to an elderly person negotiating the crosswalk.  | 4  | on both sides of the road or just on one?  |
| 5  | MR. RACHED: Actually, if you I'm sure  | 5  | MR. RACHED: Yes. On both sides of the  |
| 6  | you've been, Mr. Chairman, through many roundabouts.   | 6  | road, yes.   |
| 7  | So when you get close to the roundabout, you will see  | 7  | MR. SCHECTEL: So that's it will be   |
| 8  | an island, which tells you that the roundabout is  | 8  | two seven-foot shoulders then?   |
| 9  | coming, and you can make a turn into it. And then in   | 9  | MR. RACHED: That's correct, yup.   |
| 10   | the middle of that island there's the crossing. Prior  | 10   | MR. SCHECTEL: Okay.  |
| 11   | to that crossing, there's the yield sign. And at the   | 11   | MS. GEEVERS: When we get big rainstorms  |
| 12   | crossing on the pavement there's the pavement  | 12   | or tropical storm or hurricane, this area floods. How  |
| 13   | markings. It is unmistakable.  | 13   | is that going to work with the roundabout and anything   |
| 14   | So there's few things that happen here.  | 14   | elevated, or where is the water going to go so people  |
| 15   | Number one, unlike a regular crossing, let's say that  | 15   | can get in and out of there?   |
| 16   | is mid block or is unsignalized, what happens here is  | 16   | MR. RACHED: I'm sorry. This, again, is   |
| 17   | traffic must slow down because of the geometry of the  | 17   | a question not within my expertise. That's a question  |
| 18   | of the roundabout. And that's why roundabouts have   | 18   | for the site engineer.   |
| 19   | been popular in the last 10, 20 years in New Jersey  | 19   | But being a traffic engineer and knowing   |
| 20   | and other states, and they've been popular in Europe   | 20   | roadway design, I could tell you that the primary  |
| 21   | for many more decades, specifically because they are   | 21   | consideration, when designing a roadway, is drainage.  |
| 22   | safer for pedestrians. And the key is visibility and   | 22   | It's the primary consideration. If it doesn't drain,   |
| 23   | reduced speed. You combine these two elements and  | 23   | the design is not acceptable. So drainage is primary.  |
| 24   | that's safety for pedestrians.   | 24   | And and I believe that this area is actually   |
| 25   | MS. GEEVERS: What about the lighting   | 25   | slightly elevated. So I would not be concerned at all  |
|  | Page 59  |  | Page 61  |
| 1  | around the roundabout?   | 1  | about drainage at the roundabout.  |
| 2  | MR. RACHED: Well, that's something   | 2  | Remember that this is a roundabout that  |
| 3  | that's addressed by the landscape architect or the   | 3  |  |
| 4  |  |  | also is being reviewed by the county and by the state.   |
| 1 -  | site engineer. Unfortunately, it's not within my   | 4  | So you have too many eyes looking at drainage and  |
| 5  | expertise to talk about lighting.  | 4<br>5   | So you have too many eyes looking at drainage and safety. So I can assure you, there should be no issue  |
| б  | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're  | 4<br>5<br>6  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.  |
| 6<br>7   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to   | 4<br>5<br>6<br>7   | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a   |
| 6<br>7<br>8  | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.   | 4<br>5<br>6<br>7<br>8  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?   |
| 6<br>7<br>8<br>9   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are   | 4<br>5<br>6<br>7<br>8<br>9   | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks  |
| 6<br>7<br>8<br>9<br>10   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that   | 4<br>5<br>7<br>8<br>9<br>10  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,   |
| 6<br>7<br>8<br>9<br>10<br>11   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're   | 4<br>5<br>7<br>8<br>9<br>10<br>11  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the  | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would   |
| 6<br>7<br>8<br>9<br>10<br>11<br>12   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.   |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.   |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16                                     | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16  | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                               | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?<br>MR. RACHED: Yes.   | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                                     | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept<br>that exactly that area. It's a county-maintained  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18                         | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?<br>MR. RACHED: Yes.<br>MR. SCHECTEL: Okay. I think I'm just   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18                                    | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept<br>that exactly that area. It's a county-maintained<br>basin for the purpose of the roadway improvement.   |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19                   | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?<br>MR. RACHED: Yes.<br>MR. SCHECTEL: Okay. I think I'm just<br>comparing this to the one in Princeton on Alexander  | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19                         | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept<br>that exactly that area. It's a county-maintained<br>basin for the purpose of the roadway improvement.<br>CHAIRMAN O'BRIEN: It's Basin F.  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22 | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?<br>MR. RACHED: Yes.<br>MR. SCHECTEL: Okay. I think I'm just<br>comparing this to the one in Princeton on Alexander<br>Street near the McCarter Theater. They don't have any   | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept<br>that exactly that area. It's a county-maintained<br>basin for the purpose of the roadway improvement.<br>CHAIRMAN O'BRIEN: It's Basin F.<br>MR. KARP: Yup.  |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21       | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?<br>MR. RACHED: Yes.<br>MR. SCHECTEL: Okay. I think I'm just<br>comparing this to the one in Princeton on Alexander<br>Street near the McCarter Theater. They don't have any<br>lighting for the pedestrians, but they do have a lot<br>of signage, so it is very evident.<br>MR. RACHED: Yeah. The signage at night | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22<br>23 | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept<br>that exactly that area. It's a county-maintained<br>basin for the purpose of the roadway improvement.<br>CHAIRMAN O'BRIEN: It's Basin F.<br>MR. KARP: Yup.<br>MR. HOBERMAN: Okay. So our circulation<br>element<br>MR. RACHED: Yes? |
| 6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22 | expertise to talk about lighting.<br>MS. GEEVERS: Well, you have you're<br>going to have pedestrians and cars. You're going to<br>need a nice a decent amount of lighting.<br>MR. RACHED: Yeah. These issues are<br>usually addressed by the site engineer. But now that<br>you asked the question, I'll make sure they're<br>addressed as we work the plans with the NJDOT and the<br>county.<br>MR. SCHECTEL: Maurice, will you be<br>providing pedestrian crossing signs prior to getting<br>to that pedestrian crossing?<br>MR. RACHED: Yes.<br>MR. SCHECTEL: Okay. I think I'm just<br>comparing this to the one in Princeton on Alexander<br>Street near the McCarter Theater. They don't have any<br>lighting for the pedestrians, but they do have a lot<br>of signage, so it is very evident.   | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | So you have too many eyes looking at drainage and<br>safety. So I can assure you, there should be no issue<br>with drainage at all.<br>MR. KARP: Isn't this brown area a<br>retention basin?<br>MR. RACHED: That I'm not sure. It looks<br>like a retention basin looking at the slide. But,<br>again, I would hate to opine on things that are not<br>within my expertise.<br>MR. KARP: I think all the water would<br>run off of there, I guess, or somehow get there.<br>MR. HOFF: As Mr. Lange testified during<br>the first hearing, the county has agreed to accept<br>that exactly that area. It's a county-maintained<br>basin for the purpose of the roadway improvement.<br>CHAIRMAN O'BRIEN: It's Basin F.<br>MR. KARP: Yup.<br>MR. HOBERMAN: Okay. So our circulation<br>element                     |

| Page | 6 |

|      |    |

|  | Page 62  |  | Page 64  |
|--|--|--|--|
| 1  | that would connect somewhere around Harrison Street  | 1  | connect Washington Road to Alexander Road  |
| 2  | and U.S. Route 1, and connect to on this side of   | 2  | MR. RACHED: Yes.   |
| 3  | the Northeast Corridor to, you know, 571/526/64. You   | 3  | MR. HOBERMAN: that's part of our   |
| 4  | know, they all merge together at that point.   | 4  | circulation element  |
| 5  | So my question is: Mr. Lange did at the  | 5  | MR. RACHED: Yes.   |
| 6  | last hearing mention that that such arterial would,  | 6  | MR. HOBERMAN: would that those   |
| 7  | question mark, connect at the circle at the rotary.  | 7  | prescriptions be reexamined if that became the case?   |
| 8  | But my question is: Does the rotary have   | 8  | MR. RACHED: They may be. They may be   |
| 9  | the capacity to take additional traffic coming off a   | 9  | eliminated if we find from experience that that's not  |
| 10   | principal a secondary arterial road that might come  | 10   | an issue, or they may be expanded.   |
| 11   | into the rotary from as we look at the screen, from  | 11   | So this is a public road, and the town   |
| 12   | the right side?  | 12   | has the prerogative to implement traffic control as  |
| 13   | MR. RACHED: Yes, it does. And that was   | 13   | they wish. But at this point this is the best we   |
| 14   | the primary reason why we and the county chose to do a   | 14   | could see for safety and efficiency.   |
| 15   | roundabout. Because of capacity.   | 15   | MR. MARATHE: So those hi. So those   |
| 16   | MR. HOBERMAN: So the whole idea with the   | 16   | no left turns will be enforced by West Windsor Police?   |
| 17   | second right arterial coming into this area would be   | 17   | MR. RACHED: Yes.   |
| 18   | at the roundabout and not at the what might become   | 18   | MR. MARATHE: So that's   |
| 19   | the future Vaughn Drive, which is whatever that road   | 19   | MR. HOFF: Mr. Rached, it's me back here.   |
| 20   | at the top of the plan, Road A?  | 20   | And to your earlier point, you're able to allow for  |
| 21   | MR. RACHED: Well, either way Road A was  | 21   | the prohibitions because you have the capacity to  |
| 22   | designed for such future construction, and that's  | 22   | direct everybody to the roundabout, right?   |
| 23   | built into the plan in terms of how Road A is done and   | 23   | MR. RACHED: Yes, of course. So the   |
| 24   | how it connects to the rest of the system. And if  | 24   | prohibition doesn't mean that if you need to go  |
| 25   | there is another means of connecting that arterial to  | 25   | westbound on Washington you go to Route 1. You can't   |
|  |  |  |  |
|  | Page 63  |  | Page 65  |
| 1  | 571, the roundabout has plenty of capacity to absorb   | 1  | anymore. What you do is make a right and go around   |

|  | -  |
|  | kay. So we're looking at   |
| 2 designed to accommodate school buses, garbage trucks, 2 slide 72. And toward the to  |  |
| 3 you know, vehicles of all sizes?       3 see Road A, and it's designation of the second and it's designatis'' designation of the second and it's desi | -  |
| 4 MR. RACHED: Yes. These are roadways 4 existing the existing cond   |  |
| 5 that are compliant with the residential site 5 access, pretty much, where  |  |
| 6 improvement standards. Like any development in the<br>7 state, they're designed to accommodate the traffic<br>7 the slide there is an existing   | -  |
|  |  |
|  | aving some technical   |
|  |  |
|  |  |
| 11can turn on Road A at any time of day?11without the I'll try to be r12MR. RACHED: Yes, that is correct. So12So there is an exi   | -  |
| 12       Init is correct. So       12       So there is an exit         13       that's the left in, you mean?       13       approximately 26 feet in with  | -  |
| 1313approximately 20 feet in within14MR. MARATHE: Yes, left in.1414building. So in lieu of that  | -  |
|  | g access to AI from Road A.  |
| 16 left in to the development is not prohibited at any 16 And we're providing a 43-fc  | -  |
| 17 time. And the reason for that that's why we put a 17 that to accommodate differ   |  |
| 18 storage bay on Washington Avenue to provide for a safe 18 But having said a   |  |
| 19area for a car to wait.19there's been meetings that  | -  |
| 20 MR. MARATHE: And how many cars will fit 20 with AI to try to resolve that   | -  |
|  | EN: So you leave us  |
| 22 MR. RACHED: You could fit about five 22 hanging? You don't know?  |  |
|  | have to leave you hanging,   |
| 24 have more than the need. So when we did the model, we 24 Mr. Chairman, because I do   |  |
| 25 calculated and estimated how many cars may wait when 25 out of this meeting. Maybe  | •  |
| Page 67  | Page 69  |
| 1 there's traffic on Washington, and the model told us 1 some guidance. But all I co   |  |
| 2 two, but we provided storage for more than two. 2 parties are talking to each of   | -  |
| 3 CHAIRMAN O'BRIEN: Maurice? 3 discussing various solutions  |  |
|  | EN: What can you tell us   |
| 5 CHAIRMAN O'BRIEN: Let's have you talk 5 about traffic control devices  | •  |
| 6 about the intersection of Road C, Road A, and the 6 that four-way intersection?  |  |
|  | that is a that is a  |
| 8 MR. RACHED: Okay. So I think if we go 8 stop intersection. Anyone t  |  |
| 9 back to the previous slide, it will be more 9 Road A will have a stop sign   | •  |
| 10 appropriate. Yeah. Maybe slide 70. 10 However, traffic on Road A  | -  |
|  | EN: Is there consideration   |
| 12 MR. RACHED: Maybe 71 then. Okay. I 12 for putting a stop sign when  |  |
| 13 think this is the best one to answer your question, 13 heading toward Route 571   |  |
| 14 Mr. Chairman. 14 coming out of AI's property  | -  |
| 15 CHAIRMAN O'BRIEN: Well, 69 it's clearly 15 out?   |  |
| 16 shown 16 MR. HOFF: I'm s  | orry, Mr. Chairman. I'm  |
| 17 MR. RACHED: Okay. 17 dealing with technical issue   | S.   |
| 18 CHAIRMAN O'BRIEN: at the top. 18 Where would the  | stop sign go?  |
| 19MR. RACHED: Okay. We can go to 69 if19CHAIRMAN O'BRI   |  |
| 20 MR. HOFF: It's the same one, 72 72 20 MR. RACHED: Ri  |  |
|  | ght here.  |
| 21 and 69, I think, are the same. 21 CHAIRMAN O'BRI  | ght here.<br>EN: the northbound side   |
| 21and 69, I think, are the same.21CHAIRMAN O'BRI22MR. RACHED: You prefer this slide, Mr.22of Road A, yes, crossing the   | EN: the northbound side  |
| 22 MR. RACHED: You prefer this slide, Mr. 22 of Road A, yes, crossing the  | EN: the northbound side  |
| 22 MR. RACHED: You prefer this slide, Mr. 22 of Road A, yes, crossing the  | EN: the northbound side<br>e roadway with that.<br>o, Mr. Chairman, that's a<br>nfair for me and for the |

|  | Page 70  |  | Page 72  |
|--|--|--|--|
| 1  | four-way stops you have to comply with national  | 1  | we collected data, and from memory I could tell you in   |
| 2  | standards.   | 2  | the half an hour, approximately about 30 trips. But I  |
| 3  | CHAIRMAN O'BRIEN: I'm not asking for a   | 3  | can go to my records and give you an exact number.   |
| 4  | four-way stop. I'm asking for a three-way stop.  | 4  | But  |
| 5  | MR. RACHED: Or a three-way stop.   | 5  | Q And that's total trips, not truck trips?   |
| б  | Anything more than a two-way stop. Let's say a   | 6  | A That's total trips, yes.   |
| 7  | multi-way stop, and that these requirements are  | 7  | Q Right. And   |
| 8  | published in the Manual on Uniform Traffic Control   | 8  | CHAIRMAN O'BRIEN: That was per hour,   |
| 9  | Devices, and it sets specific criteria as to when a  | 9  | right?   |
| 10   | three-way or a four-way stop can be implemented.   | 10   | MR. HOFF: I'm sorry?   |
| 11   | There is a this criteria has to do   | 11   | CHAIRMAN O'BRIEN: It was per hour?   |
| 12   | with volumes, with volume distribution, and other  | 12   | MR. RACHED: Yes.   |
| 13   | factors.   | 13   | BY MR. HOFF:   |
| 14   | So it would be unfair for me to give you   | 14   | Q No. Per day.   |
| 15   | an opinion without looking at the numbers and doing  | 15   | A Let me double-check. Give me one moment.   |
| 16   | analysis.  | 16   | MR. HOFF: While he's checking that, Mr.  |
| 17   | What I could tell you is we can look at  | 17   | Chairman, you know, if, to the extent that Road A  |
| 18   | the numbers and do the analysis and respond to the   | 18   | becomes a public road, which would be anticipated, the   |
| 19   | town.  | 19<br>20   | decisions on where to put stop signs and restrictions  |
| 20<br>21   | CHAIRMAN O'BRIEN: Well, my concern is  | 20   | goes up to the Township of West Windsor. So, you know, Mr. Rached is correct. Whether you make it a  |
| 22   | that I mean, we've had correspondence from an attorney representing the AI Technology folks, and   | 22   | two or four is usually dictated by the amount of   |
| 23   | there's been no testimony here or no public comment by   | 23   | volumes coming in certain directions.  |
| 24   | the party, but we do have correspondence from them,  | 24   | So I would be shocked I'm a traffic  |
| 25   | and this driveway is going to be their sole  | 25   | engineer. I would be shocked that he would have  |
|  |  |  | -  |
|  | Page 71  |  | Page 73  |
| 1  |  | 1  |  |
| 1  | ingress/egress for trucks that they need to come to  | 1  | sufficient traffic coming from either our development  |
| 2  | their property. Cars have a little better  | 2  | or the AI property to warrant a four-way stop, such  |
| 2<br>3   | their property. Cars have a little better acceleration and ability to get out to Road A.   | 23   | or the AI property to warrant a four-way stop, such that the traffic that's flowing back and forth on Road   |
| 2  | their property. Cars have a little better<br>acceleration and ability to get out to Road A.<br>MR. RACHED: Understood.   | 2<br>3<br>4  | or the AI property to warrant a four-way stop, such<br>that the traffic that's flowing back and forth on Road<br>A is interrupted.   |
| 2<br>3<br>4<br>5   | their property. Cars have a little better<br>acceleration and ability to get out to Road A.<br>MR. RACHED: Understood.<br>CHAIRMAN O'BRIEN: But a large truck is   | 2<br>3<br>4<br>5   | or the AI property to warrant a four-way stop, such<br>that the traffic that's flowing back and forth on Road<br>A is interrupted.<br>But, again, that will be something that  |
| 2<br>3<br>4  | their property. Cars have a little better<br>acceleration and ability to get out to Road A.<br>MR. RACHED: Understood.<br>CHAIRMAN O'BRIEN: But a large truck is<br>going to have to be very deliberate in how it does it.   | 2<br>3<br>4  | or the AI property to warrant a four-way stop, such<br>that the traffic that's flowing back and forth on Road<br>A is interrupted.<br>But, again, that will be something that<br>someone will study. And if it's warranted, West   |
| 2<br>3<br>4<br>5<br>6  | their property. Cars have a little better<br>acceleration and ability to get out to Road A.<br>MR. RACHED: Understood.<br>CHAIRMAN O'BRIEN: But a large truck is<br>going to have to be very deliberate in how it does it.<br>That's why I'm concerned for   | 2<br>3<br>4<br>5<br>6  | or the AI property to warrant a four-way stop, such<br>that the traffic that's flowing back and forth on Road<br>A is interrupted.<br>But, again, that will be something that<br>someone will study. And if it's warranted, West<br>Windsor can make the decision to put up a stop sign.   |
| 2<br>3<br>4<br>5<br>6<br>7   | their property. Cars have a little better<br>acceleration and ability to get out to Road A.<br>MR. RACHED: Understood.<br>CHAIRMAN O'BRIEN: But a large truck is<br>going to have to be very deliberate in how it does it.   | 2<br>3<br>4<br>5<br>6<br>7   | or the AI property to warrant a four-way stop, such<br>that the traffic that's flowing back and forth on Road<br>A is interrupted.<br>But, again, that will be something that<br>someone will study. And if it's warranted, West<br>Windsor can make the decision to put up a stop sign.<br>CHAIRMAN O'BRIEN: Well, right now Avalon   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8  | their property. Cars have a little better<br>acceleration and ability to get out to Road A.<br>MR. RACHED: Understood.<br>CHAIRMAN O'BRIEN: But a large truck is<br>going to have to be very deliberate in how it does it.<br>That's why I'm concerned for<br>MR. RACHED: So my opinion in that  | 2<br>3<br>4<br>5<br>6<br>7<br>8  | or the AI property to warrant a four-way stop, such<br>that the traffic that's flowing back and forth on Road<br>A is interrupted.<br>But, again, that will be something that<br>someone will study. |   | Page 74   |  | Page 76   |
|---|---|--|---|
| 1   |   | 1  |   |
| 1<br>2  | MR. RACHED: For the a.m.  |  | plan we show an extension of Vaughn Drive coming  |
|   | CHAIRMAN O'BRIEN: Which was considered  | 2  | through the parking lot. It's undetermined area.  |
| 3   | the peak a.m.?  | 3  | From my perspective the most logical place would be   |
| 4   | MR. RACHED: 7:00 to 8:00 p.m.   | 4  | where there's an existing crossing, a rail crossing,  |
| 5   | CHAIRMAN O'BRIEN: A.m.?   | 5  | so as to avoid putting in another crossing.   |
| 6   | MR. RACHED: A.m., correct.  | 6  | So does that what you're showing up   |
| 7   | CHAIRMAN O'BRIEN: And the other set of  | 7  | there, does that line up with the rail crossing?  |
| 8   | numbers was for what?   | -  | MR. RACHED: Well, that's I think  |
| 9   | MR. RACHED: For the whole day.  | 9  | that's a whole different discussion, Mr. Schectel. Do   |
| 10  | SPEAKER: Do you have p.m. peak?   | 10   | we want to move the crossing up? Do we want to I  |
| 11  | MR. RACHED: Actually, for the p.m. peak   | 11   | don't know. This is this is a situation, an   |
| 12  | this is all entering for the p.m. peak, there was   | 12   | analysis, a design, for another team in the future to   |
| 13  | zero entering trips. Zero for cars and zero for   | 13   | look at and do.   |
| 14<br>15  | trucks.   | 14   | But in terms of how this is designed, in  |
|   | But for the exiting, there was 28 exiting   | 15   | terms of how it's connected, it was done envisioning  |
| 16  | vehicles, cars, that is, and zero single-unit trucks  | 16   | that it may be connected in the future.   |
| 17  | and zero tractor-trailers in the p.m. peak.   | 17   | MR. SCHECTEL: Okay.   |
| 18  | CHAIRMAN O'BRIEN: Which was 4:00 to   | 18<br>19   | BY MR. HOFF:  |
| 19<br>20  | 5:00? 5:00 to 6:00?   |  | Q Mr. Rached, if I could go back to one   |
| 20  | MR. RACHED: Yeah. 4:00 to 5:00, yup.  | 20   | point it's me back here. If I could go back to one  |
| 21  | MS. GEEVERS: Is that roundabout designed  | 21<br>22   | point about the AI driveway, the relocation of  |
| 22  | for tractor-trailers?   | 22   | Washington Road is happening. That was a county and a   |
| 23<br>24  | MR. RACHED: Yes, it is.   | 23   | state as you had testified to, that was a decision  |
| 24  | CHAIRMAN O'BRIEN: All right. We'll defer any further questions on the subject till we   | 25   | made collaboratively. It makes more sense to relocate<br>Washington Road, correct?  |
| 23  | Page 75   | 25   | Page 77   |
| 7   |   | 1  |   |
| 1   | hear from our traffic engineer.   | 1  | A In my opinion this design is final, as  |
| 2   | MR. RACHED: Okay.   | 2  | far as the county. The state has seen it and they   |
| 4   | MR. HOBERMAN: I want to ask one more  | 4  | gave us some comments on it. They accepted the general design. So all the agencies on the outside   |
| -<br>5  | question on that, the left turn restriction from Road<br>A to northbound of Washington Road. What's the timing  | - T  | general design. So all the agencies on the outside  |
| 6   | A to northbound of washington Road. What's the tinning  | 5  | sees this design as the best and very appropriate   |
|   | on that again?  | 5  | 5 ,   |
|   | on that again?<br>MR_RACHED: It is from 7:00 to 9:00 a m  | 6  | Q So with the relocation of Washington  |
| 7   | MR. RACHED: It is from 7:00 to 9:00 a.m.  | 6<br>7   | Q So with the relocation of Washington<br>Road, as a matter of just fact, the existing AI   |
| 7<br>8  | MR. RACHED: It is from 7:00 to 9:00 a.m. and from 4:00 to 6:00 p.m.   | 6<br>7<br>8  | Q So with the relocation of Washington<br>Road, as a matter of just fact, the existing AI<br>driveway cannot function, correct?   |
| 7<br>8<br>9   | MR. RACHED: It is from 7:00 to 9:00 a.m.<br>and from 4:00 to 6:00 p.m.<br>MR. HOBERMAN: So is my understanding  | 6<br>7<br>8<br>9   | <ul> <li>Q So with the relocation of Washington</li> <li>Road, as a matter of just fact, the existing AI</li> <li>driveway cannot function, correct?</li> <li>A That will be my opinion, yes.</li> </ul>  |
| 7<br>8  | MR. RACHED: It is from 7:00 to 9:00 a.m.<br>and from 4:00 to 6:00 p.m.<br>MR. | 1  | finishes his testimony.   | 1  | MR. FORNARO: Make sure we swear Mr. Hoff  |
| 2  | MR. FORNARO: Because I have some  | 2  | in before we leave.   |
| 3  | questions I'd like to ask Mr. Rached, and I'm trying  | 3  | CHAIRMAN O'BRIEN: Sorry?  |
| 4  | to get an idea if it's tonight after your   | 4  | MR. FORNARO: Make sure you swear Mr.  |
| 5  | professionals are done, or at some other hearing.   | 5  | Hoff in before we leave.  |
| 6  | CHAIRMAN O'BRIEN: No. No. We'll give  | 6  | MR. HOFF: I always tell the truth.  |
| 7  | you a chance to ask your questions since you were here  | 7  | CHAIRMAN O'BRIEN: Well, let me ask  |
| 8  | previously at a meeting that needed to be annuled.  | 8  | MR. FORNARO: No. I'm just joking. I   |
| 9  | So have you finished your testimony?  | 9  | don't object.   |
| 10   | MR. RACHED: Yes, sir, I have.   | 10   | CHAIRMAN O'BRIEN: Martina, do you swear   |
| 11   | BY MR. HOFF:  | 11   | attorneys or can they speak without being sworn?  |
| 12   | Q I have one last follow-up on that point.  | 12   | MS. BAILLIE: We typically don't swear   |
| 13   | With respect to the roadway   | 13   | attorneys. If you have a witness this evening, we'll  |
| 14   | configurations throughout the project, Mr. Rached,  | 14   | swear your witness. But if you're do you have a   |
| 15   | including the relocation of the AI driveway, from a   | 15   | witness this evening?   |
| 16   | traffic safety perspective, anything about the  | 16   | MR. FORNARO: No.  |
| 17   | geometry that gives you any pause?  | 17   | MS. BAILLIE: You don't? I think for the   |
| 18   | A Not at all.   | 18   | record, since you're providing comments, we'll swear  |
| 19   | Q And that's from a traffic safety, as well   | 19   | you in just so that we are on the side of caution.  |
| 20   | as just internal circulation?   | 20   | MR. FORNARO: Fair enough. But I just  |
| 21   | A And I'm not answering lightly. We did a   | 21   | have questions for this witness, but I'll be glad to  |
| 22   | safety analysis. We looked at a site distance of  | 22   | be sworn in. My name is Rich Fornaro, and I'll put my   |
| 23   | every point. We did truck simulation analysis. And I  | 23   | appearance on the record.   |
| 24   | could tell you that the geometry is very suitable for   | 24   | MS. BAILLIE: Sure. Do you swear or  |
| 25   | the traffic that is expected.   | 25   | affirm that the comments you're going to provide are  |
|  |   |  |   |
|  | Page 79   |  | Page 81   |

I have some questions for the witness.   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | the truth?<br>MR. FORNARO: I do.<br>MS. BAILLIE: Go ahead.<br>CHAIRMAN O'BRIEN: Thanks, Mr. Fornaro.<br>MR. FORNARO: Thanks. Mr. Chairman,<br>members of the Board, my name is Rich Fornaro. I'm<br>from the firm of Fornaro & Francioso, LLC. We<br>represent AI Technology.<br>Since I've been sworn, I could make<br>maybe I'll make some statements to try to move this<br>ahead. What I will represent on the record is, first,<br>AI Technology is not an applicant in this in this<br>proceeding. They have not consented to this<br>application. And I will represent to you, and I said<br>this the first night in that proceeding that had to be<br>redone, they have not consented or entered into any<br>agreement to have their property impacted, accessed,<br>touched, or changed by the Avalon Bay application,<br>okay? So I just want to make that clear. On the<br>first night and I don't know if you redid it at the<br>last hearing. So I wasn't here.<br>MR. MARATHE: Can you just stay close to   |

|    | Page 82   |    | Page 84  |
|----|---|----|--|
| 1  |   | 1  |  |
| 1  | jurisdiction. Mr. Muller had an opinion about that.   | 12 | and Washington Road, but for the Avalon Bay            |
| 2  | I respectfully disagree with his opinion. And I will  | 3  | development, would there have been any modifications   |
| 3  | again tell you, I don't believe the Board has         |    | to that that origins of the new roadway design?        |
| 4  | jurisdiction as it relates to the application to make | 4  | A Yes. Actually, it's a good question.                 |
| 5  | a decision that affects the AI property. Which        | 5  | So these modifications are consistent with the master  |
| 6  | which, you know, if you extrapolate that a bit, that  | 6  | plan. The existing intersection of 571 and Washington  |
| 7  | has a big impact on that whole Road A portion of the  | 7  | is a T intersection. We all know it. The road          |
| 8  | application.  | 8  | curves. You go down, you make a right or you make a    |
| 9  | So I'm just again, for the purpose of                 | 9  | left. Currently, without this development as it        |
| 10 | the record, I'm telling the Board, notwithstanding    | 10 | operates today, it's a failing intersection. One       |
| 11 | what Mr. Muller said, I don't believe you have        | 11 | approach has about 104 seconds of delay in the p.m.    |
| 12 | jurisdiction. And, frankly, I don't believe you're    | 12 | peak, another approach has over 120 seconds of delay,  |
| 13 | confined to what the opinion is that your attorney    | 13 | which far exceeds the threshold for failure at an      |
| 14 | offers you.   | 14 | intersection.  |
| 15 | I mean, how many applications have you                | 15 | So something needs to be done today. I                 |
| 16 | had come before you involving properties where        | 16 | think something needed to be done years ago. And this  |
| 17 | development approvals are sought, but the owner of    | 17 | development, it it's just a catalyst. It's the         |
| 18 | that property hasn't consented to that development    | 18 | opportunity to get this improvement done, which, in my |
| 19 | approval? I think that's a valid point. I think it's  | 19 | opinion, needs to be done anyway.                      |
| 20 | something that you have to resolve as a Board. And I  | 20 | Q Okay. And just to follow up on that, so              |
| 21 | frankly don't see how they're here without my client  | 21 | but for this development there is no changes,          |
| 22 | signing off on it, because that is a major and        | 22 | reconfiguration projects on the books to address the   |
| 23 | significant element to making this whole development  | 23 | concerns that you just outlined, to the best of your   |
| 24 | work.   | 24 | knowledge?   |
| 25 | So, anyway, that's our position related               | 25 | A Well, the master plan does talk about                |
|    | Page 83   |    | Page 85  |
| 1  | to the application. And I do have some questions for  | 1  | area alignment in this area. They don't have the       |
| 2  | Mr. Rached. So if I may?                              | 2  | exact design, but they recognize the issue. And the    |
| 3  | BY MR. FORNARO:                                       | 3  | community has always recognized the poor traffic       |
| 4  | Q You indicated that there had been                   | 4  | operations at the intersection that's described.       |
| 5  | extensive meetings and conversations with the county. | 5  | So, again, I think this is a project that              |
| 6  | CHAIRMAN O'BRIEN: Rich. I'm sorry. Use                | 6  | the county and the state are looking at it as a public |
| 7  | the microphone just to be sure.                       | 7  | infrastructure improvement project.                    |
| 8  | MR. FORNARO: I'm sorry.                               | 8  | Q To the best of your knowledge, had the               |
| 9  | MR. FORNARO:  | 9  | county or West Windsor Township or the state           |
| 10 | Q You Mr. Rached, you testified that                  | 10 | established a funding to do this project without the   |
| 11 | there were extensive meetings with Mercer County and  | 11 | involvement of Avalon Bay?                             |
| 12 | West Windsor Township related to the road             | 12 | A I have no knowledge of funding at all.               |
| 13 | configuration; is that correct?                       | 13 | Q Can we go to I believe it's slide 68.                |
| 14 | This gentleman doesn't have a microphone,             | 14 | I'm not sure if that's it. The next one. No. I'm       |
| 15 | so it's little bit awkward, but                       | 15 | sorry. Maybe slide 70. Back. That one. It shows        |
| 16 | A Yes.  | 16 | existing condition. Thank you.                         |
| 17 | Q At any point in time was any                        | 17 | Mr. Rached, the driveway for AI                        |
| 18 | representative of AI Technology involved in any of    | 18 | Technology is being eliminated because of where Avalon |
| 19 | those discussions?                                    | 19 | Bay engineered Road A for its project; is that         |
| 20 | A I don't know.                                       | 20 | correct?   |
| 21 | Q With any of the meetings that you were              | 21 | A Not necessarily. If any engineer is                  |
| 22 | involved in, was any representative of AI Technology  | 22 | looking to realign this roadway and provide access,    |
| 23 | present?  | 23 | there is no way, in my opinion, that you can have two  |
| 24 | A No.   | 24 | access points in proximity of each other in that       |
| 25 | Q Do you know, the reconfiguration of 571             | 25 | location. So it's an engineering matter that one       |
|    |   | 1  |  |

| 1   | Page 86  |  | Page 88  |
|---|--|--|--|
| 1   | access point has to service two sites.   | 1  | Q All right. So and I appreciate the   |
| 2   | Q Okay. And I'm not sure exactly what  | 2  | fact that you're not going to waiver on that point.  |
| 3   | slide we should go to. Maybe slide, I don't know, 71   | 3  | But Road A does not have to be part of this project,   |
| 4   | just to show the proposed Avalon Bay. Okay. Maybe  | 4  | does it? You could move the housing elements all the   |
| 5   | that's not a good one. 72? I apologize.  | 5  | way up to where Road A   |
| 6   | Okay. Now, Mr. Rached, if Road A does  | 6  | CHAIRMAN O'BRIEN: Mr. Fornaro, I think   |
| 7   | not have to be located in that in that specific  | 7  | he answered that question already.   |
| 8   | location, right? It could have been dropped down, the  | 8  | MR. FORNARO: I don't think he did answer   |
| 9   | best way to describe it, so it would intersect at a  | 9  | that question, frankly. That's what I'm trying to get  |
| 10  | different location on Washington Road; isn't that  | 10   | at.  |
| 11  | correct? I mean, this that location was picked to  | 11   | CHAIRMAN O'BRIEN: Well, I think he   |
| 12  | accommodate maximize this development; is that   | 12   | answered the question, so move on to another question,   |
| 13  | correct?   | 13   | please.  |
| 14  | A Actually, that is not correct. The   | 14   | MR. FORNARO: Okay.   |
| 15  | spacing is totally needed for to reduce proximity  | 15   | BY MR. FORNARO:  |
| 16  | to the roundabout and to provide for a left turn   | 16   | Q Mr. Rached, was this roadway   |
| 17  | storage lane. As you could see, you finish the   | 17   | configuration worked out in advance of the application   |
| 18  | roundabout and you start the storage lane. If you  | 18   | with West Windsor Township?  |
| 19  | move it any closer, you would compromise the storage   | 19   | A I don't know.  |
| 20  | lane, which would give you a deficient design.   | 20   | Q Were you in any meetings with West   |
| 21  | Q Okay. Would it be possible to have moved   | 21   | Windsor Township officials that requested that   |
| 22  | Road A to the middle of the project and have it access   | 22   | where it was decided that Road A would go in that  |
| 23  | the roundabout in a different location, and push   | 23   | location?  |
| 24  | and push the buildings, the structures, out more   | 24   | A I was not.   |
| 25  | towards Road A?  | 25   | Q Do you know if anybody from your office  |
|   | Page 87  |  | Page 89  |
| 1   | A No, that wouldn't work.  | 1  | was in those kind of meetings where there was a  |
| 2   | Q Tell me why it wouldn't work.  | 2  | determination made where Road A would be placed  |
|   | <b>4 1 1 1 1 1 1 1 1 1 1</b>   |  |  |
| 3   | A Because if you move it closer, then you  | 3  | collaboratively with West Windsor Township officials?  |
|   |  | 3<br>4   | collaboratively with West Windsor Township officials?<br><b>A</b> I cannot opine on meetings I didn't  |
| 3<br>4  | interfere with the other access that is needed for the   |  | A I cannot opine on meetings I didn't  |
| 3   | interfere with the other access that is needed for the community and for other uses. So you need the   | 4  |  |
| 3<br>4<br>5   | interfere with the other access that is needed for the<br>community and for other uses. So you need the<br>separation. And this is the minimum separation, as I  | 4<br>5   | A I cannot opine on meetings I didn't<br>attend. I'd be guessing. So I would tell you, I<br>don't know.  |
| 3<br>4<br>5<br>6  | interfere with the other access that is needed for the<br>community and for other uses. So you need the<br>separation. And this is the minimum separation, as I<br>explained, because of the left turn and safety  | 4<br>5<br>6  | <ul> <li>A I cannot opine on meetings I didn't</li> <li>attend. I'd be guessing. So I would tell you, I</li> <li>don't know.</li> <li>Q Okay. Same question for Mercer County</li> </ul>   |
| 3<br>4<br>5<br>6<br>7   | interfere with the other access that is needed for the<br>community and for other uses. So you need the<br>separation. And this is the minimum separation, as I<br>explained, because of the left turn and safety<br>factors, and maintaining also the distance between the  | 4<br>5<br>6<br>7   | AI cannot opine on meetings I didn'tattend.I'd be guessing. So I would tell you, Idon't know.QQOkay. Same question for Mercer Countyofficials.Were you ever in a meeting with Mercer   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9   | interfere with the other access that is needed for the<br>community and for other uses. So you need the<br>separation. And this is the minimum separation, as I<br>explained, because of the left turn and safety<br>factors, and maintaining also the distance between the<br>two intersections.  | 4<br>5<br>6<br>7<br>8  | <ul> <li>A I cannot opine on meetings I didn't attend. I'd be guessing. So I would tell you, I don't know.</li> <li>Q Okay. Same question for Mercer County officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> </ul>   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | interfere with the other access that is needed for the<br>community and for other uses. So you need the<br>separation. And this is the minimum separation, as I<br>explained, because of the left turn and safety<br>factors, and maintaining also the distance between the<br>two intersections.<br>Q Okay. But, again, you could have you  | 4<br>5<br>6<br>7<br>8<br>9   | AI cannot opine on meetings I didn'tattend.I'd be guessing. So I would tell you, Idon't know.QQOkay. Same question for Mercer Countyofficials.Were you ever in a meeting with Mercer   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9   | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into   | 4<br>5<br>7<br>8<br>9<br>10  | <ul> <li>A I cannot opine on meetings I didn't</li> <li>attend. I'd be guessing. So I would tell you, I</li> <li>don't know.</li> <li>Q Okay. Same question for Mercer County</li> <li>officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> <li>Road A would be placed in that location?</li> <li>A No. But I read in the record and that</li> </ul>   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's  | 4<br>5<br>7<br>8<br>9<br>10<br>11  | AI cannot opine on meetings I didn'tattend.I'd be guessing. So I would tell you, Idon't know.QOkay. Same question for Mercer Countyofficials.Were you ever in a meeting with MercerCounty officials where a determination was made thatRoad A would be placed in that location?ANo. But I read in the record and thatMercer County and I saw review letters where Mercer   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12  | <ul> <li>A I cannot opine on meetings I didn't<br/>attend. I'd be guessing. So I would tell you, I<br/>don't know.</li> <li>Q Okay. Same question for Mercer County<br/>officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> <li>Road A would be placed in that location?</li> <li>A No. But I read in the record and that</li> <li>Mercer County and I saw review letters where Mercer</li> <li>County recommended this design and adopted it and they</li> </ul>   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's better stated this way: There's another traffic   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13  | AI cannot opine on meetings I didn'tattend.I'd be guessing. So I would tell you, Idon't know.QOkay. Same question for Mercer Countyofficials.Were you ever in a meeting with MercerCounty officials where a determination was made thatRoad A would be placed in that location?ANo. But I read in the record and thatMercer County and I saw review letters where Mercer   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's better stated this way: There's another traffic engineering solution other than placing Road A in that  | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14  | <ul> <li>A I cannot opine on meetings I didn't attend. I'd be guessing. So I would tell you, I don't know.</li> <li>Q Okay. Same question for Mercer County officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> <li>Road A would be placed in that location?</li> <li>A No. But I read in the record and that</li> <li>Mercer County and I saw review letters where Mercer</li> <li>County recommended this design and adopted it and they approved it, as we all know, I believe, on August 24th.</li> </ul>   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's better stated this way: There's another traffic engineering solution other than placing Road A in that location; is that correct?   | 4<br>5<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15  | <ul> <li>A I cannot opine on meetings I didn't attend. I'd be guessing. So I would tell you, I don't know.</li> <li>Q Okay. Same question for Mercer County officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> <li>Road A would be placed in that location?</li> <li>A No. But I read in the record and that</li> <li>Mercer County and I saw review letters where Mercer</li> <li>County recommended this design and adopted it and they approved it, as we all know, I believe, on August 24th.</li> </ul>   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16                                     | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections.<br>Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's better stated this way: There's another traffic engineering solution other than placing Road A in that  | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16                                     | <ul> <li>A I cannot opine on meetings I didn't attend. I'd be guessing. So I would tell you, I don't know.</li> <li>Q Okay. Same question for Mercer County officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> <li>Road A would be placed in that location?</li> <li>A No. But I read in the record and that</li> <li>Mercer County and I saw review letters where Mercer</li> <li>County recommended this design and adopted it and they approved it, as we all know, I believe, on August 24th.</li> <li>Q Okay. Thank you very much. I don't have</li> </ul>  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                               | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections. Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's better stated this way: There's another traffic engineering solution other than placing Road A in that location; is that correct? A No, that's not correct. And I answered   | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                               | <ul> <li>A I cannot opine on meetings I didn't attend. I'd be guessing. So I would tell you, I don't know.</li> <li>Q Okay. Same question for Mercer County officials. Were you ever in a meeting with Mercer</li> <li>County officials where a determination was made that</li> <li>Road A would be placed in that location?</li> <li>A No. But I read in the record and that</li> <li>Mercer County and I saw review letters where Mercer</li> <li>County recommended this design and adopted it and they approved it, as we all know, I believe, on August 24th.</li> <li>Q Okay. Thank you very much. I don't have any further questions.</li> </ul>   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18                         | interfere with the other access that is needed for the community and for other uses. So you need the separation. And this is the minimum separation, as I explained, because of the left turn and safety factors, and maintaining also the distance between the two intersections. Q Okay. But, again, you could have you can relocate that other access point that enters into the roundabout and readjust the way that project's laid out? There's another maybe the question's better stated this way: There's another traffic engineering solution other than placing Road A in that location; is that correct? A No, that's not correct. And I answered the question and I explained to you, from an  | 4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18                         | <ul> <li>A I cannot opine on meetings I didn't attend. I'd be guessing. So I would tell you, I don't know.</li> <li>Q Okay. Same question for Mercer County officials. I don't have any further questions.</li> <li>A Thank you.</li> <li>CHAIRMAN O'BRIEN: Now that we've heard more comments from this particular witness, does the Board have any follow-up questions or any comments? MR. KARP: I have a question.</li> </ul> |

|   | Page 90   |   | Page 92  |
|---|---|---|--|
|   |   |   |  |
| 1   | MR. KARP: From AI Technology. That road   |   | Alexander Road through the parking lot.  |
| 2   | that's labeled "driveway," it goes right into   | 2   | MR. FORNARO: Yes. If you're very   |
| 3   | Washington Road. Who's the owner of that property?  | 3   | familiar with the parking lot, yes. Yes. Yup.  |
| 4   | MR. RACHED: So are you referring to the   | 4   | CHAIRMAN O'BRIEN: Mr. Hoff, does that  |
| 5   | driveway that exists?   | 5   | complete your  |
| 6   | MR. MARATHE: Go to 70.  | 6   | MR. HOFF: I have nothing further for Mr.   |
| 7   | MR. KARP: I'm sorry. Page 70.   | 7   | Rached, and he is our final witness.   |
| 8   | MR. MARATHE: Go to 70.  | 8   | CHAIRMAN O'BRIEN: All right. Ma'am, I'm  |
| 9   | MR. KARP: And the word "driveway" is  | 9   | sorry, but our custom is to hear reports from our  |
| 10  | right there coming from AI Property onto Washington   | 10  | professionals before we open the meeting to the  |
| 11  | Road. That piece of roadway, who owns that?   | 11  | public, in general. We may or may not get to that  |
| 12  | MR. FORNARO: I would have to  | 12  | tonight.   |
| 13  | MR. KARP: Is it county? Is it township?   | 13  | SPEAKER: I didn't know that the  |
| 14  | Is it AI's property? Is it part   | 14  | professionals had not  |
| 15  | MR. FORNARO: Are you referring to this  | 15  | CHAIRMAN O'BRIEN: No, they haven't made  |
| 16  | driveway here?  | 16  | their offer yet.   |
| 17  | MR. KARP: That word "driveway" and that   | 17  | At this point, notwithstanding any cause   |
| 18  | road underneath the word.   | 18  | of angst to anybody in the room, I'm going to declare  |
| 19  | MR. FORNARO: I believe that's owned by  | 19  | a 10-minute recess, if for no other reason but in  |
| 20  | AI.   | 20  | consideration of the stenographer, who is working  |
| 21  | MR. KARP: Okay. Thank you.  | 21  | diligently here in front of the Chair's seat. So   |
| 22  | MR. FORNARO: Sure.  | 22  | stretch for 10 minutes, please, and then we will go to   |
| 23  | MR. HOFF: Mr. Chairman, can I ask one   | 23  | our professionals.   |
| 24  | follow-up question on the subject?  | 24  | (Short recess was held.)   |
| 25  | CHAIRMAN O'BRIEN: Sure.   | 25  | CHAIRMAN O'BRIEN: All right. Martina,  |
|   | Page 91   |   | Page 93  |
| 1   | BY MR. HOFF:  | 1   | our witnesses, I don't believe, were sworn last week,  |
|   |   |   |  |
| 2   | Q Mr. Rached, with respect to the Road A  | 2   | our experts.   |
| 2<br>3  | Q Mr. Rached, with respect to the Road A<br>and why it is where it is, are you familiar with the  | 2<br>3  |  |
|   |   |   | our experts.   |
| 3   | and why it is where it is, are you familiar with the  | 3   | our experts.<br>MS. BAILLIE: Remind you  |
| 3   | and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?          A       Yes.         Q       And the location of Road A, as it relates  | 3<br>4  | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.   |
| 3<br>4<br>5   | and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension? <b>A</b> Yes.  | 3<br>4<br>5   | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.  |
| 3<br>4<br>5<br>6<br>7<br>8  | <ul> <li>and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?</li> <li>A Yes.</li> <li>Q And the location of Road A, as it relates to that future potential roadway improvement</li> <li>A It does.</li> </ul>  | 3<br>4<br>5<br>6  | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.<br>CHAIRMAN O'BRIEN: All right. So we will   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9   | <ul> <li>and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?</li> <li>A Yes.</li> <li>Q And the location of Road A, as it relates</li> <li>to that future potential roadway improvement</li> <li>A It does.</li> <li>Q is that in line where it would</li> </ul>   | 3<br>4<br>5<br>6<br>7<br>8<br>9   | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.<br>CHAIRMAN O'BRIEN: All right. So we will<br>begin with our professional planner, Mr. Novak.  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?  A Yes. Q And the location of Road A, as it relates to that future potential roadway improvement A It does. Q is that in line where it would logically be?   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.<br>CHAIRMAN O'BRIEN: All right. So we will<br>begin with our professional planner, Mr. Novak.<br>David?  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?  A Yes. Q And the location of Road A, as it relates to that future potential roadway improvement A It does. Q is that in line where it would logically be? A It does. And that goes back to what I   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.<br>CHAIRMAN O'BRIEN: All right. So we will<br>begin with our professional planner, Mr. Novak.<br>David?<br>MR. NOVAK: Mr. Chairman. Hello,   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?  A Yes. Q And the location of Road A, as it relates to that future potential roadway improvement A It does. Q is that in line where it would logically be? A It does. And that goes back to what I was explaining. The capacity of left turn, the  | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.<br>CHAIRMAN O'BRIEN: All right. So we will<br>begin with our professional planner, Mr. Novak.<br>David?<br>MR. NOVAK: Mr. Chairman. Hello,<br>everybody. Just for the record, again, my name is  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | and why it is where it is, are you familiar with the master planning for the Vaughn Drive extension?  A Yes. Q And the location of Road A, as it relates to that future potential roadway improvement A It does. Q is that in line where it would logically be? A It does. And that goes back to what I was explaining. The capacity of left turn, the spacing, and the safety of the intersection. Where it  | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | our experts.<br>MS. BAILLIE: Remind you<br>MR. SURTEES: We were two weeks ago.<br>CHAIRMAN O'BRIEN: You were? Okay. Sam<br>says they were. Okay.<br>MS. BAILLIE: Yes.<br>CHAIRMAN O'BRIEN: All right. So we will<br>begin with our professional planner, Mr. Novak.<br>David?<br>MR. NOVAK: Mr. Chairman. Hello,<br>everybody. Just for the record, again, my name is<br>David Novak. That's spelled N-O-V-A-K. If you look  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | and why it is where it is, are you familiar with the<br>master planning for the Vaughn Drive extension?<br><b>A</b> Yes.<br>Q And the location of Road A, as it relates<br>to that future potential roadway improvement<br><b>A</b> It does.<br>Q is that in line where it would<br>logically be?<br><b>A</b> It does. And that goes back to what I<br>was explaining. The capacity of left turn, the<br>spacing, and the safety of the intersection. Where it<br>is is the optimal location.   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | our experts.<br>MS. BAILLIE: Remind you<br>MR. |--|--|--|---|
| 1  | when the governing body passed Resolution 2004-R096,   | 1  | design standards.   |
| 2  | which authorized the planning board at that time to  | 2  | Just had a few questions. I don't know  |
| 3  | determine whether this area, the Princeton Junction  | 3  | which expert would be the most appropriate to address   |
| 4  | area, constituted an area that needed redevelopment.   | 4  | them. But first and foremost, regarding U.H.A.C.,   |
| 5  | On November 2, 2005, the planning board  | 5  | something called the Uniformed Housing Affordability  |
| 6  | adopted the Princeton Junction redevelopment study   | 6  | Controls, set certain parameters on what affordable   |
| 7  | area determination of need resolution. So,   | 7  | units need to be constructed in relation to market  |
| 8  | essentially, the planning board found that this area   | 8  | rate units.   |
| 9  | did, in fact, meet the criteria set forth by the state   | 9  | So, Mr. Hoff, I don't know if that  |
| 10   | to declare the portion of the township as an area in   | 10   | question would best go to you? To somebody else?  |
| 11   | need of redevelopment.   | 11   | But will the development be meeting the   |
| 12   | On December 19, 2005, council approved   | 12   | U.H.A.C. controls regarding when affordable units will  |
| 13   | Resolution 2005-R285, which approved the site,   | 13   | be built?   |
| 14   | Princeton Junction area, as a redevelopment area.  | 14   | MR. HOFF: Yes.  |
| 15   | November 2006 the township initiates the   | 15   | CHAIRMAN O'BRIEN: So the question's   |
| 16   | drafting of the redevelopment plan. That leads to  | 16   | pertaining to all three developers?   |
| 17   | several public meetings, workshops, charrette, and   | 17   | MR. NOVAK: They would be for all three  |
| 18   | that's, essentially, a three-year process.   | 18   | developers. I believe it would be for all different   |
| 19   | By January 2009 the council refers the   | 19   | portions as well, yes.  |
| 20   | redevelopment plan to the planning board for their   | 20   | MR. HOFF: Yes. The redevelopment speaks   |
| 21   | review.  | 21   | to this. U.H.A.C. is complied with on a sectional   |
| 22   | And on February 23, 2009, council  | 22   | basis. So as if one of the projects were to move  |
| 23   | reviewed any of the comments the planning board had.   | 23   | forward quicker, it would deliver its proportionate   |
| 24   | And by March 2000 pardon me March  | 24   | share of affordable housing in accordance with  |
| 25   | 2009 the redevelopment plan was officially adopted.  | 25   | U.H.A.C., as would the other sections as well.  |

|--|--|--|---|
| 1  | Did you hear an explanation of that from   | 1  | you're about to give shall be the truth?  |
| 2  | the Altria witness?  | 2  | MR. MULLEN: I do.   |
| 3  | MR. NOVAK: I thought the Altria witness  | 3  | MS. BAILLIE: Thank you. Please state  |
| 4  | had touched upon that at the first meeting, that the   | 4  | your name.  |
| 5  | shared two-bedroom would be two individuals that are   | 5  | MR. MULLEN: It's James Mullen,  |
| 6  | not necessarily related to one another living  | 6  | M-U-L-L-E-N, and I'm the director of the land   |
| 7  | together, but could the Applicant confirm that?  | 7  | entitlements for Pulte Homes of New Jersey.   |
| 8  | SPEAKER: That's correct.   | 8  | And to answer your question, Mr. Novak,   |
| 9  | MR. CULPEPPER: That's correct.   | 9  | is that if the township will not pick it up, and so if  |
| 10   | MR. NOVAK: I'm hearing a smattering of,  | 10   | they don't have any accommodation for that, then we   |
| 11   | "that's correct."  | 11   | would use a private garbage hauler. And that would be   |
| 12   | MR. HOFF: That's Mr. Culpepper, he   | 12   | for all the townhouses and the condominium building.  |
| 13   | testified at the last hearing, confirming that that  | 13   | MR. SCHECTEL: And that would be for the   |
| 14   | is, indeed, correct.   | 14   | mixed-use building as well? That's Avalon? I'm  |
| 15   | CHAIRMAN O'BRIEN: Thank you, Rick.   | 15   | sorry.  |
| 16   | Any other questions for David by the   | 16   | MR. MULLEN: That's not Pulte.   |
| 17   | Board at this time?  | 17   | MR. HOFF: Ken, just identify yourself   |
| 18   | MR. SCHECTEL: I have a question.   | 18   | for the record again.   |
| 19   | David, in your report you indicated the  | 19   | MR. O'BRIEN: Mr. Kenneth O'Brien.   |
| 20   | testimony should be provided as to whether affordable  | 20   | And for the Avalon projects that they'll  |
| 21   | townhouse units without access to a garage will have   | 21   | have private pickup.  |
| 22   | any internal space to accommodate a bicycle. Was that  | 22   | MR. SCHECTEL: Thank you.  |
| 23   | satisfactorily answered?   | 23   | CHAIRMAN O'BRIEN: What about Altria? We   |
| 24   | MR. NOVAK: Okay. Yes. I believe the  | 24   | might as well cover all three.  |
| 25   | answer from the Applicant was yes, those affordable  | 25   | Front and center, please.   |

|  | Page 102  |  | Page 104  |
|--|---|--|---|
| 1  |   | 1  |   |
| 1  | requested, comment 101, Section A, the first bullet   | 1  | MR. LANGE: I do not. I have not been  |
| 2  | recommends a condition that the Applicant show  | 2  | involved with the site cleanup.   |
| 3  | existing and proposed utilities on the plans as a   | 3  | MR. HOFF: Yeah. We would obviously  |
| 4  | condition of approval, but as a temporary submission  | 4  | agree to any condition that the LSRP entered.   |
| 5  | waiver there was no objection.  | 5  | Whatever remedial action outcome would be appropriate.  |
| 6  | For the second  | 6  | MR. GUZIK: Okay. Well, the type of  |
| 7  | CHAIRMAN O'BRIEN: I'm sorry, Fran. I  | 7  | testimony I was interested in was hearing what's the  |
| 8  | missed the second part of your statement.   | 8  | proposed plan, as far as, would the cleanup be  |
| 9  | MR. GUZIK: I'm sorry?   | 9  | complete or would there be any remaining areas,   |
| 10   | CHAIRMAN O'BRIEN: I didn't hear what  | 10   | possibly deed restricted and capped on the property?  |
| 11   | your conclusion was.  | 11   | Would they be in the public roadway, on any of the  |
| 12   | MR. GUZIK: Oh. Just that it's a   | 12   | individual parcels proposed for development, or lands   |
| 13   | temporary submission waiver, but that, as part of   | 13   | left undeveloped?   |
| 14   | resolution compliance, those missing utilities be   | 14   | MR. HOFF: The current expectation that  |
| 15   | added to the drawings.  | 15   | we have is that there would be no deed restriction, no  |
| 16   | CHAIRMAN O'BRIEN: So it will be a   | 16   | deed notice that would be required on the property.   |
| 17   | condition?  | 17   | So that's what we're being directed by our  |
| 18   | MR. GUZIK: Yes.   | 18   | environmental professionals.  |
| 19   | CHAIRMAN O'BRIEN: Thank you.  | 19   | MR. GUZIK: Understood. Understood.  |
| 20   | MR. GUZIK: The next bullet is submission  | 20   | I don't know if any of the Board has any  |
| 21   | waiver request for submission of an environmental   | 21   | follow-up, but I'm fine. I would request additional   |
| 22   | impact statement. And because the majority of the   | 22   | information from the LSRP.  |
| 23   | site has previously been developed, and the fact that   | 23   | MR. HOFF: We'll be happy to provide   |
| 24   | they've already, as part of the project, delineated   | 24   | copies of anything that's produced.   |
| 25   | environmental constraints, I didn't have a problem  | 25   | CHAIRMAN O'BRIEN: So do you phrase a  |
|  |   | 1  |   |
|  | Page 103  |  | Page 105  |
| 1  | Page 103 with the request, but I did feel the Board should hear   | 1  | Page 105 condition that would protect us in regard to any   |
| 1<br>2   |   | 1<br>2   |   |
|  | with the request, but I did feel the Board should hear  |  | condition that would protect us in regard to any  |
| 2  | with the request, but I did feel the Board should hear testimony on the status of the contamination on site   | 2  | condition that would protect us in regard to any contamination that could be made a condition in the  |
| 2<br>3   | with the request, but I did feel the Board should hear<br>testimony on the status of the contamination on site<br>and any proposed cleanup of the same. And I don't   | 2<br>3   | condition that would protect us in regard to any contamination that could be made a condition in the resolution? A memorialization?   |
| 2<br>3<br>4  | with the request, but I did feel the Board should hear<br>testimony on the status of the contamination on site<br>and any proposed cleanup of the same. And I don't<br>believe that's been addressed.   | 2<br>3   | condition that would protect us in regard to any<br>contamination that could be made a condition in the<br>resolution? A memorialization?<br>MR. GUZIK: Well, not that it would be  |
| 2<br>3<br>4<br>5   | with the request, but I did feel the Board should hear<br>testimony on the status of the contamination on site<br>and any proposed cleanup of the same. And I don't<br>believe that's been addressed.<br>MR. HOFF: Isn't that under the direction   | 2<br>3<br>4<br>5   | condition that would protect us in regard to any<br>contamination that could be made a condition in the<br>resolution? A memorialization?<br>MR. GUZIK: Well, not that it would be<br>necessarily a protection for the township, because the  |
| 2<br>3<br>4<br>5<br>6  | with the request, but I did feel the Board should hear<br>testimony on the status of the contamination on site<br>and any proposed cleanup of the same. And I don't<br>believe that's been addressed.<br>MR. HOFF: Isn't that under the direction<br>of the LSRP? Jeromie's here. I mean, the cleanup's<br>ongoing by the direction of the LSRP. Generally I  | 2<br>3<br>4<br>5<br>6  | condition that would protect us in regard to any<br>contamination that could be made a condition in the<br>resolution? A memorialization?<br>MR. GUZIK: Well, not that it would be<br>necessarily a protection for the township, because the<br>LSRP, the retaining of that, is, really, DEP's  |
| 2<br>3<br>4<br>5<br>6<br>7   | with the request, but I did feel the Board should hear<br>testimony on the status of the contamination on site<br>and any proposed cleanup of the same. Pages 102 to 105

|    | Page 106   |    | Page 108   |
|----|--|----|--|
| 1  | there's going to be any areas that are deed            | 1  | there's some technical requirements for the            |
| 2  | restricted. Because normally there's use limitations   | 2  | subdivision maps and descriptions and conformance to   |
| 3  | associated with them. So if they're saying             | 3  | the Title Recordation Act trip on that word all the    |
|    |  | 4  | ·  |
| 4  | something's going to be a recreation area or left as   |    | time should be made a condition of approval.           |
| 5  | open space or a parking lot, would that be in          | 5  | Similarly, comment 103 regarding block                 |
| 6  | compliance with the proposed remediation plan that the | 6  | and lot numbers for the parcels to be provided at the  |
| 7  | LSRP put together?                                     | 7  | direction of my office.                                |
| 8  | MS. GEEVERS: All right. Well, shouldn't                | 8  | And 104, street names and numbering                    |
| 9  | we have that now so the Board's aware of what what     | 9  | assigned by my office in coordination with the         |
| 10 | the issues are?  | 10 | postmaster and emergency services should be a          |
| 11 | MR. HOFF: No. No.                                      | 11 | condition of approval.                                 |
| 12 | MR. GUZIK: Well, if something happens                  | 12 | Moving on to section two, the opening                  |
| 13 | through the process where something changes and it     | 13 | comments are very similar to the section one comments. |
| 14 | affects what the Board has approved tonight, then they | 14 | One is that deviates is their request for the          |
| 15 | could possibly have to come back to the Board for an   | 15 | signage details. And I defer to David on those for     |
| 16 | amended approval. I don't think there's a need to      | 16 | whatever's in his report. And, let's see.              |
| 17 | require. It's permitted at this time.                  | 17 | CHAIRMAN O'BRIEN: Well, have we gotten                 |
| 18 | CHAIRMAN O'BRIEN: So we're going to get                | 18 | complete signage details?                              |
| 19 | a copy of the report, and this will be a staff review  | 19 | MR. GUZIK: Honestly I don't know. I                    |
| 20 | of the report that it's satisfactory?                  | 20 | don't typically get involved with them.                |
| 21 | MR. GUZIK: Yes. And if there's anything                | 21 | MR. HOFF: No. The sign package will                    |
| 22 | in there that proposes something differently than is   | 22 | come later, Mr. Chairman.                              |
| 23 | represented on the plans, then, you know, we can bring | 23 | CHAIRMAN O'BRIEN: I'm sorry, Rick. I                   |
| 24 | it to Jerry's attention and the Applicant's attention. | 24 | didn't hear you.                                       |
| 25 | If we can't resolve it at the staff level, we'll bring | 25 | MR. HOFF: Sorry. The sign package would                |
|    | Page 107   |    | Page 109   |
| 1  | it back to the Board.                                  | 1  | come later.  |
| 2  | MR. SCHECTEL: Fran, do you know what the               | 2  | MR. NOVAK: For the record, this is David               |
| 3  | actual contamination is? What what is it?              | 3  | Novak. That was my understanding as well, the signage  |
| 4  | MR. GUZIK: At this present time, no.                   | 4  | package would come later, since the tenants are not    |
| 5  | MR. SCHECTEL: But is it a chemical                     | 5  | identified yet.  |
| 6  | contamination?   | 6  | CHAIRMAN O'BRIEN: So that submission of                |
| 7  | MR. GUZIK: Yeah. I believe it's                        | 7  | a signage package, subject to staff approval, would be |
| 8  | pesticide related.                                     | 8  | a condition of the resolution?                         |
| 9  | CHAIRMAN O'BRIEN: All right. Next item,                | 9  | MR. NOVAK: Presumably, yes. And if                     |
| 10 | Fran.  | 10 | there's any waivers that would be required, say if     |
| 11 | MR. GUZIK: Okay. So next item, sticking                | 11 | they have a situation, they would just come back to    |
| 12 | with submission waiver requests, so there's a waiver   | 12 | this Board for a waiver relief.                        |
| 13 | request for a traffic signage plan, which they've      | 13 | MR. GUZIK: That's right.                               |
| 14 | partially complied with. And, again, I don't have an   | 14 | CHAIRMAN O'BRIEN: That's agreeable?                    |
| 15 | objection to what they requested for proceeding before | 15 | MR. HOFF: Yes.   |
| 16 | the Board.   | 16 | CHAIRMAN O'BRIEN: Thank you.                           |
| 17 | But in conjunction with resolution                     | 17 | MR. GUZIK: Okay. So moving on in my                    |
| 18 | compliance and the later recommendation for a Title 39 | 18 | report, page six, comment 207, there's a request for a |
| 19 | endorsement plan, a full traffic signage and striping  | 19 | discussion of any proposed phasing for the projects in |
| 20 | plan, as well as identifying what restrictions and     | 20 | either construction or occupation. And phased          |
| 21 | prohibitions would be enforced for Title 39 would be   | 21 | construction would require development of supplemental |
| 22 | required through resolution compliance.                | 22 | plans for any potential interim conditions.            |
| 23 | CHAIRMAN O'BRIEN: Martina, you got that?               | 23 | So I know Anis had asked a similar                     |
| 24 | MS. BAILLIE: Yes.                                      | 24 | question at the prior hearing about discussion of      |
| 25 | MR. GUZIK: Similarly, comment 102,                     | 25 | proposed phasing. And that was deferred. So and        |

| Page 112 |
|----------|
|----------|

|                      | Page 110   |                | Page 112   |
|----------------------|--|----------------|--|
| 1                    | Jeromie  | 1              | it (indiscernible) the staff in knowing which of the   |
| 2                    | MR. LANGE: Yes?  | 2              | entities to deal with.   |
| 3                    | MR. HOFF: Project phasing.   | 3              | Okay. Let's see. Moving on to section  |
| 4                    | MR. LANGE: Yeah. That was addressed in   | 4              | three of the report, access and circulation, I believe   |
| 5                    | the redevelopment agreement. There is not any other  | 5              | a lot of these items have been discussed through Mr.   |
| 6                    | separate project phasing.  | 6              | Lange's testimony previously.  |
| 7                    | MR. GUZIK: Is there any representation   | 7              | CHAIRMAN O'BRIEN: Is 3.02 for the other  |
| 8                    | of that on the plans, or does there need to be with  | 8              | condition?   |
| 9                    | anything that's constructed and left in a "temporary   | 9              | MR. GUZIK: Yes. There's a couple of  |
| 10                   | situation" for a period of time?   | 10             | recommendations. So for in comment 3.02 there's  |
| 11                   | MR. LANGE: No. There's no there's  | 11             | recommended a condition that construction of any of  |
| 12                   | only a plan that's offering phasing, you know, per se.   | 12             | the site areas tributary to Basin F would be   |
| 13                   | But, obviously the things are in chronological order.  | 13             | prohibited to begin until Basin F is constructed and   |
| 14                   | So you typically would start downstream  | 14             | stabilized.  |
| 15                   | (indiscernible) sort of things like that, utilities  | 15             | Similarly, with comment 3.05, it's a   |
| 16                   | have to come in in a timely manner before the final  | 16             |  |
| 17                   | paving is put in.  | 10             | recommendation for provision of 10 scale detailed<br>enlargements of designs for the barrier-free parking                  |
| 18                   | But we're seeking approval with  | 18             | and building access areas.   |
| 19                   | everything at one time here. All the construction is   | 19             | I believe that's about all under section   |
| 20                   | anticipated to move forward at the same or similar   | 20             | three for access and circulation.  |
| 21                   | time, and it is, basically, going to be a sequencing   | 21             | MS. GEEVERS: What about the snow   |
| 22                   | exercise between the three developers to make sure   | 22             |  |
| 23                   | •  | 22             | storage? Are you satisfied with the snow storage and   |
| 24                   | their contractors are working in harmony. Avalon Bay   | 23<br>24       | removal plans?   |
| 25                   | would take the lead over that. They have in-house  | 24             | MR. GUZIK: Yeah. I didn't have any   |
| 20                   | construction management, so they will take the lead,   | 25             | comments on those, so they were fine to me.  |
| -                    | Page 111   | _              | Page 113   |
| 1                    | and the other developers will be (indiscernible)   | 1              | MS. BAILLIE: What about I'm sorry.   |
| 2                    | community.   | 2              | Were you done? What about 3.06, the (indiscernible)  |
| 3                    | MR. GUZIK: Okay. So I guess a  | 3              | access at the AI site?   |
| 4                    | subsequent question, based on that response, is: Is  | 4              | MR. GUZIK: Yeah. I believe that was  |
| 5                    | it clear on the plans which developer is responsible   | 5              | discussed at the first hearing. Jeromie mentioned  |
| 6                    | for which improvements? So it's known how the  | 6              | that, with any construction done, that they recognize  |
| 7                    | responsibilities will be monitored and any problems  | 7              | that the AI properties must be able to have access   |
| 8                    | raised, and who would be coordinated with, or is that  | 8              | throughout the construction.   |
| 9                    | something to be dealt with at the construction phase?  | 9              | MS. BAILLIE: Do you recommend a  |
| 10                   | MR. LANGE: That would be dealt with at   | 10             | condition?   |
| 11                   | the construction phase. But, again, Avalon Bay will  | 11             | MR. GUZIK: Sure. I don't think that's a  |
| 12                   | be doing the overall construction. They're the master  | 12             | problem, unless they have an objection.  |
| 13                   | redeveloper. So they will coordinate those activities  | 13             | So under section four, stormwater  |
| 14                   | and make sure, obviously, that those are coordinated   | 14             | management   |
| 15                   | with the township's construction officials and   | 15             | CHAIRMAN O'BRIEN: Excuse me, Fran. What  |
| 16                   | inspectors.  | 16             | about 3.07?  |
| 17                   | MR. GUZIK: Okay. It will come up later,  | 17             | MR. GUZIK: 3.07?   |
| 18                   | but while we're on this topic, I would request with  | 18             | CHAIRMAN O'BRIEN: With the roadways?   |
| 10                   | any construction cost estimates that are submitted for   | 19             | MR. GUZIK: Yeah. There was Jeromie   |
| 19                   | handing and increation for numbers of the due to be  | 00             |  |
| 20                   | bonding and inspection fee purposes, if they're to be  | 20             | had discussed that. He gave a pretty good summary  |
| 20<br>21             | chopped up amongst the different parties, where  | 21             | road-by-road of which standard was being met with the  |
| 20<br>21<br>22       | chopped up amongst the different parties, where<br>they're going to be submitting different fees to the  | 21<br>22       | road-by-road of which standard was being met with the proposed widths. I can look through my notes if you                  |
| 20<br>21<br>22<br>23 | chopped up amongst the different parties, where<br>they're going to be submitting different fees to the<br>township to address the entire thing, that it's clear | 21<br>22<br>23 | road-by-road of which standard was being met with the proposed widths. I can look through my notes if you have a question. |
| 20<br>21<br>22       | chopped up amongst the different parties, where<br>they're going to be submitting different fees to the  | 21<br>22       | road-by-road of which standard was being met with the proposed widths. I can look through my notes if you                  |

|  | Page 114   |  | Page 116  |
|--|--|--|---|
| 1  |  | 1  |   |
| 1<br>2   | CHAIRMAN O'BRIEN: Thank you.   | $\begin{vmatrix} 1 \\ 2 \end{vmatrix}$   | idea would be if these roadways and the areas to be   |
| 3  | MR. GUZIK: Section four, stormwater  | 3  | acquired has all been laid out, as set forth on this  |
| 4  | management. 4.02 there was a question about the  | 4  | map, negotiated since I don't want to get into<br>discussions with them because they're they're   |
| 5  | expected transfer of in the area of Washington Road<br>from the county that's going to be required for the   | 5  | settlement discussions of sort. But conversations   |
| 6  | stormwater basin, and a part of the areas also   | 6  | that we've been having with SRI we do not anticipate  |
| 7  | involved with the SRI property. But I know that's  | 7  | any issue with the acquisition of these parcels.  |
| 8  | currently being worked on, but I don't believe there's   | 8  | CHAIRMAN O'BRIEN: But it should be made   |
| 9  | been a conversation of what has to happen at the   | 9  | a condition?  |
| 10   | county level and whose responsibility it is for  | 10   | MR. HOFF: Well, it is, because if the   |
| 11   | initiating that action with Washington Road.   | 11   | project changes   |
| 12   | MR. HOFF: Yeah. The details of how the   | 12   | MR. MARATHE: Yeah. So as long as it   |
| 13   | SRI acquisition happens and the transfer of the  | 13   | happens, the project doesn't happen. So whether you   |
| 14   | relevant parcels is currently being negotiated amongst   | 14   | have condition or not, if they're not successful, this  |
| 15   | all parties.   | 15   | project doesn't happen.   |
| 16   | MR. GUZIK: Okay. How about with the  | 16   | CHAIRMAN O'BRIEN: I'll sleep better if  |
| 17   | county indicating that portion of  | 17   | it's a condition.   |
| 18   | MR. HOFF: We've had discussions with the   | 18   | MS. BAILLIE: So the condition would be  |
| 19   | county. It's going to be subject, likely, to a   | 19   | that Avalon acquired the SRI  |
| 20   | developer's agreement that talked about when that  | 20   | MR. HOFF: No. No. The condition is  |
| 21   | happens and in what sequence.  | 21   | that the project properties depicted in the site plan   |
| 22   | MR. GUZIK: That's a separate agreement   | 22   | are consistent with the site plan, because that's,  |
| 23   | with the county directly?  | 23   | really, what the condition is. And that's like any  |
| 24   | MR. HOFF: Likely. I doubt it would just  | 24   | other project you ever approve. If the property or  |
| 25   | be a situation where we just turn over the deeds.  | 25   | the project changes, you got to come back. So we're   |
|  | - 11-  |  |   |
|  | Page 115   |  | Page 117  |
| 1  | There's going to be some form of developer's   | 1  | Page 117<br>not doing anything differently than any other project.  |
| 1<br>2   | -  | 1<br>2   | _   |
|  | There's going to be some form of developer's   |  | not doing anything differently than any other project.  |
| 2<br>3<br>4  | There's going to be some form of developer's agreement, I would imagine. Again, we just received county approval in August. We'll start working out those details as soon as we acquire the property.  | 2<br>3<br>4  | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition   |
| 2<br>3<br>4<br>5   | There's going to be some form of developer's agreement, I would imagine. Again, we just received county approval in August. We'll start working out  | 2<br>3   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.   |
| 2<br>3<br>4<br>5<br>6  | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.  | 2<br>3<br>4<br>5<br>6  | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more   |
| 2<br>3<br>4<br>5<br>6<br>7   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind   | 2<br>3<br>4<br>5<br>6<br>7   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8  | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided   | 2<br>3<br>4<br>5<br>6<br>7<br>8  | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for<br>the Applicant's use? I mean, we're assuming that's   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).<br>MR. GUZIK: No. I understand. But I   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for<br>the Applicant's use? I mean, we're assuming that's<br>going to happen. But if it doesn't, this project   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).<br>MR. GUZIK: No. I understand. But I<br>don't know what the county's process is, and if  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for<br>the Applicant's use? I mean, we're assuming that's<br>going to happen. But if it doesn't, this project<br>doesn't go forward, or how is that going to work?  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).<br>MR. GUZIK: No. I understand. But I<br>don't know what the county's process is, and if<br>they're expecting them to do it and they're expecting   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for<br>the Applicant's use? I mean, we're assuming that's<br>going to happen. But if it doesn't, this project<br>doesn't go forward, or how is that going to work?<br>MR. GUZIK: Yeah. But I have to figure   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).<br>MR. GUZIK: No. I understand. But I<br>don't know what the county's process is, and if<br>they're expecting them to do it and they're expecting<br>you to do it.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for<br>the Applicant's use? I mean, we're assuming that's<br>going to happen. But if it doesn't, this project<br>doesn't go forward, or how is that going to work?<br>MR. GUZIK: Yeah. But I have to figure<br>out some way around it. And they'll be back to the   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).<br>MR. GUZIK: No. I understand. But I<br>don't know what the county's process is, and if<br>they're expecting them to do it and they're expecting<br>you to do it.<br>MR. HOFF: No. It's a fair question,   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | There's going to be some form of developer's<br>agreement, I would imagine. Again, we just received<br>county approval in August. We'll start working out<br>those details as soon as we acquire the property.<br>MR. GUZIK: Okay. Yeah, I'm fine with<br>that.<br>MS. GEEVERS: Francis, is that some kind<br>of condition that says, testimony to be provided<br>regarding the expected transfer of this property for<br>the Applicant's use? I mean, we're assuming that's<br>going to happen. But if it doesn't, this project<br>doesn't go forward, or how is that going to work?<br>MR. GUZIK: Yeah. But I have to figure<br>out some way around it. And they'll be back to the<br>Board for any change. That, in fact, what's currently  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | not doing anything differently than any other project.<br>MS. BAILLIE: Right. Well, that would<br>seem to be self-evident with the approval. So I don't<br>know if you want to be more specific about a condition<br>with respect to the SRI portion; I don't know.<br>MR. GUZIK: Well, I was really more<br>dealing with the Mercer County right-of-way of<br>Washington Road and what's going to be vacated.<br>SPEAKER: (Indiscernible).<br>MR. GUZIK: No. I understand. But I<br>don't know what the county's process is, and if<br>they're expecting them to do it and they're expecting<br>you to do it.<br>MR. | 20 about that at the last meeting. He said that's 20 was commissioned a study by the township using SWM   |
|   |
| 21 something that will be at the time that it was 21 Consulting of Ringoes, New Jersey, to do a review of   |
| 22 submitted it was still being worked on, but that with 22 this exact problem and to try to figure out what the  |
| 23resolution compliance that those relocations will be23problem is, why is it occurring, and what can be done   |
| 24 indicated.24 about it, if anything?  |
| 25CHAIRMAN O'BRIEN: Unfortunately, Martina25Unfortunately, as I said, the conclusion  |
| Page 119 Page 121   |
| 1 did not hear Jeromie's testimony, and I have a short 1 was, basically, as I just summarized, that we're the   |
| <ul> <li>2 memory, so I just like to make sure everything</li> <li>2 bathtub for the Millstone River's waters when they</li> </ul>  |
| <sup>3</sup> MR. GUZIK: Watch the videos, read the <sup>3</sup> reach flood condition. But that flood condition isn't   |
| 4 transcript. 4 always the dreaded hundred year storm or the one  |
| 5 All right. So moving on to page seven, 5 percent probability storm, however you want to refer   |
| 6 comment 4.03, there's a stormwater BMP maintenance 6 to it.   |
| 7 manual that's a requirement. So there were some 7 As part of the study that was done by SWM   |
| 8 relatively few minor deficiencies of the last version 8 Consulting, and this study is on the website, as well   |
| 9 of it that were submitted, and we recommended 9 as a couple of other studies for those who want to  |
| 10 condition that the Board have that approval of the 10 review it. But one of the things that they determined  |
| 11 document by the engineer's office as a requirement. 11 was that a lot of the roadways in this area, being  |
| 12 Similarly, comment 4.04, there's an 12 Fisher Place, Washington Road, Alexander Road, the  |
| 13 agreement they have to enter into with the township by 13 Alexander Park Development, and a lot of the yards and   |
| 14 ordinance that requires the installation and perpetual 14 the parking lots in this area experienced flooding   |
| <sup>15</sup> maintenance by the Applicant and any of the <sup>15</sup> with storms as low as the two-year storm or the   |
| 16Applicant's successor-in-interests (indiscernible)16five-year storm.  |
| 17stormwater management improvements proposed by the17And just to give you you know, I can  |
| 18developer as part of the project, which, of course,18mention years of storms. But, basically, in this   |
| <sup>19</sup> would exclude the basin that the County's going to <sup>19</sup> area, 100-year storm is 8.3 inches of rain falling in  |
| 20assume responsibility for.20a 24-hour period. A five-year storm is approximately  |
| 21CHAIRMAN O'BRIEN: Francis, under this21a little bit less than half of that; it's 4.2 inches   |
| 22heading, "Stormwater Management"22of rain.  |
| 23MR. GUZIK: Yes?23That's why, with some of these more  |
| 24 CHAIRMAN O'BRIEN: let me anticipate a 24 recent storms like Ida and Henri, even though we  |
| 25question that might be asked by many of the people,25didn't have that eight inches of rain, that was down   |

|  | Page 122   |  | Page 124   |
|--|--|--|--|
| 1  | more in the five-inch area, that's why those areas   | 1  | they have to reduce the amount of total suspended  |
| 2  | still experienced flooding, because that's how low of  | 2  | solids in the stormwater after development, and  |
| 3  | a rainfall, or how little rain, I guess, is a better   | 3  | they've complied with that requirement as well.  |
| 4  | way of saying it, that we need to get in order for the   | 4  | So they've met all the requirements of   |
| 5  | Millstone to back up enough to flood these areas.  | 5  | our local ordinance. They received DEP approval for  |
| 6  | So, realistically, there's short of  | 6  | the flood hazard area permit, and they've reviewed all   |
| 7  | Avalon not happening and turning Avalon property into  | 7  | those same requirements at the state level as well and   |
| 8  | a giant bathtub, taking SRI Properties and building a  | 8  | received their permits.  |
| 9  | big storage basin out of that, I'm not even sure if  | 9  | CHAIRMAN O'BRIEN: And Mr. Lange provided   |
| 10   | doing that would prevent flooding that occurs during   | 10   | testimony about underground basins. Is there any   |
| 11   | these events.  | 11   | concern about how they would be used or permitting   |
| 12   | A lot of it has to do with the drainage  | 12   | them to  |
| 13   | area upstream of us. There's approximately 78 square   | 13   | MR. GUZIK: No. That's one of the   |
| 14   | miles of lands in other townships that drain to the  | 14   | technologies that's available that's out there. What   |
| 15   | Millstone River at the point that it reaches the   | 15   | has happened recently with the green infrastructure  |
| 16   | Little Bear Brook, whereas Little Bear Brook itself is   | 16   | rules is that those types of facilities are going to   |
| 17   | only a three-acre I'm sorry three square mile  | 17   | become less common.  |
| 18   | drainage area.   | 18   | The development was submitted and under  |
| 19   | Did I say 78 acres or 78 square miles?   | 19   | review before the green infrastructure requirements  |
| 20   | If I said acres, I apologize.  | 20   | became into effect, which is why they have the types   |
| 21   | So it's really just a matter of the  | 21   | and numbers of facilities that they're proposing. So   |
| 22   | Millstone's the big bully and we're the little kid   | 22   | they are in compliance with the rules that were in   |
| 23   | with the lunch money.  | 23   | effect at the time that they made their submissions  |
| 24   | So I don't know if that helps answer your  | 24   | and reviews commenced.   |
| 25   | question or  | 25   | So that's, really, the only significant  |
|  | Page 123   |  | Page 125   |
|  |  |  |  |
| 1  | CHAIRMAN O'BRIEN: Is it your testimony   | 1  | change between them submitting when they did and if  |
| 2  | or please answer this question: Will approval of   | 2  | they submit it today. If they submit it today, there   |
| 2<br>3   | or please answer this question: Will approval of this application, as it currently exists, by the  | 2<br>3   | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and   |
| 2<br>3<br>4  | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation  | 2<br>3<br>4  | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.  |
| 2<br>3<br>4<br>5   | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation<br>with flooding in these areas?   | 2<br>3<br>4<br>5   | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.<br>But other than that, they meet those  |
| 2<br>3<br>4<br>5<br>6  | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation<br>with flooding in these areas?<br>MR. GUZIK: No, it will not. And if   | 2<br>3<br>4<br>5<br>6  | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.<br>But other than that, they meet those<br>three prongs of the stormwater ordinance; the runoff  |
| 2<br>3<br>4<br>5<br>6<br>7   | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation<br>with flooding in these areas?<br>MR. GUZIK: No, it will not. And if<br>anything, the improvements that they're doing would  | 2<br>3<br>4<br>5<br>6<br>7   | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.<br>But other than that, they meet those<br>three prongs of the stormwater ordinance; the runoff<br>quality control, the runoff quantity control, and the   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8  | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation<br>with flooding in these areas?<br>MR. GUZIK: No, it will not. And if<br>anything, the improvements that they're doing would<br>reduce the peak runoff from the site that currently   | 2<br>3<br>4<br>5<br>6<br>7<br>8  | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.<br>But other than that, they meet those<br>three prongs of the stormwater ordinance; the runoff<br>quality control, the runoff quantity control, and the<br>groundwater recharge requirements.   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation<br>with flooding in these areas?<br>MR. GUZIK: No, it will not. And if<br>anything, the improvements that they're doing would<br>reduce the peak runoff from the site that currently<br>comes off for the more frequent storm events. And  | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9   | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.<br>But other than that, they meet those<br>three prongs of the stormwater ordinance; the runoff<br>quality control, the runoff quantity control, and the<br>groundwater recharge requirements.<br>CHAIRMAN O'BRIEN: Thank you for your   |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | or please answer this question: Will approval of<br>this application, as it currently exists, by the<br>planning board worsen, exacerbate, hurt the situation<br>with flooding in these areas?<br>MR. GUZIK: No, it will not. And if<br>anything, the improvements that they're doing would<br>reduce the peak runoff from the site that currently<br>comes off for the more frequent storm events. And<br>that's based on the state and township stormwater   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | they submit it today. If they submit it today, there<br>would be a significantly more green infrastructure and<br>less underground basins the way they have it.<br>But other than that, they meet those<br>three prongs of the stormwater ordinance; the runoff<br>quality control, the runoff quantity control, and the<br>groundwater recharge requirements.<br>CHAIRMAN O'BRIEN: Thank you for your<br>patience in handling those questions.  |

I went back into their stormwater report,<br>and, basically, they have, in the back of the site<br>which with Route 1 is north, the south end of the<br>project closest to the transit parking lot, there's an<br>existing detention basin that's there today. So where<br>that basin outlets today is one of their analysis<br>points. The other analysis point they used was the |

|          | Page 126  |          | Page 128  |
|----------|---|----------|---|
| 1        | Road storm sewer system, they for the two-year              | 1        | of that. I can tell you it's not signed for the   |
| 2        | storm they have an existing runoff rate of 4.8. Peak        | 2        | 100-year storm, the existing storm sewer system, and  |
| 3        | runoff rate of 4.8. Cubic feet per second they're           | 3        | that's you know, it will be surcharged, basically.  |
| 4        | · · ·   | 4        |   |
|          | allowed to discharge 2.41, and their proposed               | 5        | And that's part there's two types of  |
| 5<br>6   | discharge is 1.6. So they're lower than they're allowed to. | 6        | flooding that happen on Washington Road and the county<br>route there. One is chronic flooding, which is more a |
|          |   | 7        | 2.  |
| 7        | For the 10-year storm their existing                        | 8        | result of an undersized storm sewer system on the   |
| 8        | runoff is 7.4 cubic feet per second. They're allowed        | 9        | existing roadway. And we're going to help that,   |
| 9        | to discharge 5.5, and their proposed is 3.9. So,            | 10       | because in the new sections of the roadway we are   |
| 10       | again, they're less than they're allowed to.                | 11       | getting brand new storm sewer system, which is  |
| 11       | For the 100-year storm their existing                       |          | designed for a 25-year storm, and a brand new   |
| 12       | peak discharge is 15.1 CFS. They're allowed to              | 12       | stormwater basin that has a sand bottom infiltration.   |
| 13       | discharge 12, approximately, and the proposed peak is       | 13       | So we're certainly going to help the  |
| 14       | 11. So, again, they're less than they're allowed.           | 14       | county situation. But the existing condition there,   |
| 15       | For that other analysis point, the one                      | 15       | it's not assigned to modern standards, so that's why  |
| 16       | that's on the south side of the property off of the         | 16       | you get that chronic flooding.  |
| 17       | parking lot near where the Vaughn Drive extension ends      | 17       | CHAIRMAN O'BRIEN: So that's Basin F to  |
| 18       | at the parking lot, and this in this area, because          | 18<br>19 | which you're referring, Jeromie?  |
| 19       | of the existing detention basin that's there, the           |          | MR. LANGE: Sorry, Gene. The audio is a  |
| 20       | existing development that's there, there's two-year         | 20<br>21 | little spotty here. I couldn't  |
| 21       | and 10-year runoff rates they're allowed to match.          |          | CHAIRMAN O'BRIEN: Is that Basin F, as in  |
| 22<br>23 | They don't actually have to apply those reductions.         | 22<br>23 | Francis, that you're referring to?  |
|          | So their two-year existing is 2.96 cubic                    |          | MR. LANGE: No. The Basin F is serving   |
| 24<br>25 | feet per second peak, and they're proposing 2.4, so         | 24<br>25 | the Pulte neighborhood. There is adjacent to Basin F  |
| 25       | slightly less than existing. The 10-year storm is 4.5       | 25       | and I don't know if you could put up the plan   |
|          | Page 127  |          | Page 129  |
| 1        | CFS, and they're proposing 4.4. So, again, a very           | 1        | again, but there's a separate basin dedicated to the  |
| 2        | slight reduction.   | 2        | county road improvements.   |
| 3        | The most significantly, though, is their                    | 3        | CHAIRMAN O'BRIEN: I thought that was F.   |
| 4        | 100-year discharge, which today is 66.8 cubic feet per      | 4        | MR. KARP: No. F is next to it. F is   |
| 5        | second. And mostly because of that basin overtops for       | 5        | the green part.   |
| 6        | the 100-year storm, so a lot more water comes out when      | 6        | MR. GUZIK: F is the green one, the  |
| 7        | it overtops, and they're reducing their proposed            | 7        | county one is the tan one in the exhibit on the   |
| 8        | discharge for that facility is down to 18.1 CFS.            | 8        | screen.   |
| 9        | So, again, for the hundred year it goes                     | 9        | MR. LANGE: Of course I'm not seeing   |
| 10       | from 66.8 down to 18.1. So a lot of that water will         | 10       | these on the screen, so I can't tell what's up. But   |
| 11       | be kept on site and then released more slowly over          | 11       | there it goes. Looks like okay.   |
| 12       | time so the peak is that much less.                         | 12       | Yeah. So the area being (Indiscernible)   |
| 13       | So but I did have a couple additional                       | 13       | right now, that tan crescent-shaped basin, that will  |
| 14       | questions, after hearing the testimony of the person.       | 14       | be a separate basin dedicated to the road   |
| 15       | Jeromie fell asleep during my rambling or he's              | 15       | improvements, that that will be a county basin they   |
| 16       | available?  | 16       | will manage. That was approved part of the county   |
| 17       | CHAIRMAN O'BRIEN: He's looking down on                      | 17       | approval that both I and Maurice testified to.  |
| 18       | you, Frank.   | 18       | CHAIRMAN O'BRIEN: Okay.   |
| 19       | MR. GUZIK: A lot of people do that.                         | 19       | MR. GUZIK: So my comment to the Board   |
| 20       | So with the proposed discharge into                         | 20       | is, if Mercer County is not requiring the developer to  |
| 21       | Washington Road storm sewer system, have you or Mercer      | 21       | review or do anything with the existing Washington  |
| 22       | County assessed the condition of the storm sewer line       | 22       | Road system, then that's something, Mayor, you and I  |
| 23       | in Washington from a point downstream of your point of      | 23       | will have to work on with the County on trying to   |
| 24       | connection to where it outlets to Little Bear Brook?        | 24       | budget for that work as part of their capital projects  |
| 25       | MR. LANGE: We have not done an analysis                     | 25       | in the future.  |

|   | Page 130   |   | Page 132  |
|---|--|---|---|
| 1   | CHAIRMAN O'BRIEN: So just to clarify,  | 1   | either a condition or some kind of deed restriction,  |
| 2   | Fran, we do not have jurisdiction over the area to   | 2   | something that would show up in writing that that's   |
| 3   | which you're referring?  | 3   | what's going to happen.   |
| 4   | MR. GUZIK: No. It's Mercer County  | 4   | MR. GUZIK: Sure. I agree that that  |
| 5   | infrastructure and Mercer County right-of-way. It's  | 5   | would be included in the agreements.  |
| 6   | their storm sewer system, Washington Road, that  | 6   | MR. HOFF: I mean, that would be   |
| 7   | discharges to Little Bear Brook.   | 7   | typically covered by the development agreement, I   |
| 8   | CHAIRMAN O'BRIEN: Thank you.   | 8   | think, already to the wouldn't that be covered by   |
| 9   | MR. GUZIK: So the other question I had   | 9   | your comment, 4.04? Doesn't the ordinance cover that  |
| 10  | was, with regard to the two underground detention  | 10  | when you talk about the stormwater responsibility?  |
| 11  | basins in Road A, which I believe service a portion  | 11  | MR. GUZIK: It does. And I guess that  |
| 12  | MR. LANGE: Sorry.  | 12  | that comment would have to be or that agreement   |
| 13  | MR. HOBERMAN: Slide 17.  | 13  | would have to be expanded on to get into detail on  |
| 14  | MR. LANGE: I'm losing audio here, so,  | 14  | this.   |
| 15  | -  | 15  |   |
| 16  | Rick, maybe you can repeat the question.<br>MR. HOFF: Sure.  | 16  | Because, again, it's unusual for the  |
| 17  |  | 17  | town, number one, to have a road with underground detention basins within it. But also that those   |
| 18  | MR. GUZIK: Yeah. So the two underground  | 18  |   |
|   | basins in Road A, they partially service proposed Road   |   | basins, again, would serve adjacent properties rather   |
| 19  | A and they partially service the residential   | 19<br>20  | than the roadway itself. So it's a new one for us.  |
| 20  | properties adjoining them and the parking areas.   |   | MR. HOFF: It's a fair point. Certainly  |
| 21  | How are the maintenance of those   | 21  | something that would be covered in the developer's  |
| 22  | facilities set up, especially in light of a request  | 22  | agreement, along with a number of other items post  |
| 23  | that the town assume ownership of Road A?  | 23  | approval that we would  |
| 24  | MR. LANGE: So there are two storm draft  | 24  | MR. GUZIK: Correct. So whether it's in  |
| 25  | systems that service those. So they would be yeah.   | 25  | the developer's agreement or the stormwater agreement,  |
|   | Page 131   |   | Page 133  |
| 1   | That's how you would access those. Who is actually   | 1   | or probably have to be touched on in both, that's   |
| -   |  |   |   |
| 2   | going to be responsible, I'm not entirely clear on   | 2   | fine. It should be included or addressed in both.   |
| 3   | that yet. But whether it's the township or if that   | 3   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a   |
| 3<br>4  | that yet. But whether it's the township or if that would be the developer that would maintain  | 3<br>4  | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement  |
| 3<br>4<br>5   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,  | 3   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those   |
| 3<br>4<br>5<br>6  | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked  | 3<br>4<br>5<br>6  | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads   |
| 3<br>4<br>5<br>6<br>7   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's   | 3<br>4<br>5<br>6<br>7   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for  |
| 3<br>4<br>5<br>6<br>7<br>8  | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.  | 3<br>4<br>5<br>6<br>7<br>8  | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell   | 3<br>4<br>5<br>6<br>7<br>8<br>9   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?  | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?<br>MS. BAILLIE: Yes.   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question<br>MR. GUZIK: Well, I'm curious on what the   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?<br>MS. BAILLIE: Yes.<br>MS. GEEVERS: Francis, on Road A  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question<br>MR. GUZIK: Well, I'm curious on what the<br>potential maintenance arrangements for the stormwater  | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?<br>MS. BAILLIE: Yes.<br>MS. GEEVERS: Francis, on Road A<br>MR. GUZIK: I'm sorry?   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question<br>MR. GUZIK: Well, I'm curious on what the<br>potential maintenance arrangements for the stormwater<br>management facilities in Road A would be if it's  | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?<br>MS. BAILLIE: Yes.<br>MS. GEEVERS: Francis, on Road A<br>MR. GUZIK: I'm sorry?<br>MS. GEEVERS: Have we determined Road A   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question<br>MR. GUZIK: Well, I'm curious on what the<br>potential maintenance arrangements for the stormwater<br>management facilities in Road A would be if it's<br>requested that the township assume responsibility for   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?<br>MS. BAILLIE: Yes.<br>MS. GEEVERS: Francis, on Road A<br>MR. GUZIK: I'm sorry?<br>MS. GEEVERS: Have we determined Road A<br>is a private road or the township or a township  |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16   | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question<br>MR. GUZIK: Well, I'm curious on what the<br>potential maintenance arrangements for the stormwater<br>management facilities in Road A would be if it's<br>requested that the township assume responsibility for<br>Road A after construction. But there's basins in   | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16   | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Just specify who's responsible for<br>maintenance.<br>CHAIRMAN O'BRIEN: So that's a yes,<br>right?<br>MS. BAILLIE: Yes.<br>MS. GEEVERS: Francis, on Road A<br>MR. GUZIK: I'm sorry?<br>MS. GEEVERS: Have we determined Road A<br>is a private road or the township or a township<br>road?   |
| 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                                     | that yet. But whether it's the township or if that<br>would be the developer that would maintain<br>MR. GUZIK: Yeah. Because, ultimately,<br>that would be my concern, that the town would be asked<br>to take over a road with a stormwater facility that's<br>serving a private interest.<br>CHAIRMAN O'BRIEN: Do we want Mr. Ladell<br>to respond to that?<br>MR. HOFF: I'm sorry. The question<br>MR. GUZIK: Well, I'm curious on what the<br>potential maintenance arrangements for the stormwater<br>management facilities in Road A would be if it's<br>requested that the township assume responsibility for<br>Road A after construction. But there's basins in<br>there that are, basically, serving, you know, private  | 3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17                                     | fine. It should be included or addressed in both.<br>MS. BAILLIE: So we could make it a<br>condition that that the redeveloper's agreement<br>will cover the maintenance responsibilities for those<br>underground basins that are underneath in public roads<br>(indiscernible). Pages 130 to 133

|  | Page 134  |  | Page 136   |
|--|---|--|--|
| 1  | take ownership of Road A, then they have to do that,  | 1  | Board have a question or want further clarification  |
| 2  | and you and council would have to decide, right?  | 2  | from our engineer on this subject? Otherwise we'll   |
| 3  | So isn't that how it works?   | 3  | presume that the waiver is granted that the Applicant  |
| 4  | MR. GUZIK: Yup.   | 4  | has requested, okay?   |
| 5  | CHAIRMAN O'BRIEN: Okay?   | 5  | MR. GUZIK: So the rest of the comments   |
| 6  | MS. GEEVERS: Yeah.  | 6  | under section seven are pretty much standard.  |
| 7  | MR. GUZIK: Okay. So moving on to  | 7  | Comment 7.02 is a recommendation for a   |
| 8  | section five, utilities, 5.01 there's a recommendation  | 8  | condition about providing metes and bounds   |
| 9  | that the Applicant file a request for sewer allocation  | 9  | descriptions for each parcel, and easement or  |
| 10   | to my office so that we can proceed with a reservation  | 10   | dedication proposed, and those instruments are subject   |
| 11   | and a recommendation for endorsement of the TWA   | 11   | to the review and approval of the Board attorney.  |
| 12   | application so the Board acts favorably on this   | 12   | Comment 7.03 is a recommendation of  |
| 13   | project.  | 13   | providing engineer cost estimates of probable  |
| 14   | Comment 5.02 is a recommendation for a  | 14   | construction cost for the project for use in   |
| 15   | condition that number and location of any fire  | 15   | determining required performance guarantees and  |
| 16   | hydrants required on the site is subject to review and  | 16   | inspection fees.   |
| 17   | approval of the fire official, if Chief Lynch has not   | 17   | And, again, per my prior request, if   |
| 18   | already approved them in his memorandum. If he has,   | 18   | they're going to be broken up amongst the different  |
| 19   | then that condition is moot.  | 19   | developers, it will be helpful if those estimates were   |
| 20   | Section six, about the site lighting. I   | 20   | broken up accordingly.   |
| 21   | read testimony on the first bullet. I have no   | 21   | And comment 7.04, outside agency   |
| 22   | objection to the slight exceedance of the average of  | 22   | approvals. There's a list of recommended other agency  |
| 23   | 8.5 foot candle proposed, compared to the .6  | 23   | approvals that be made a condition of any Board action   |
| 24   | requirement in residential areas. But the second  | 24   | on this project.   |
| 25   | CHAIRMAN O'BRIEN: So would that be a  | 25   | And I believe that's all I had for my  |
|  |   |  |  |
|  | Page 135  |  | Page 137   |
| 1  |   | 1  |  |
| 1<br>2   | waiver, Fran?   | 1<br>2   | Page 137<br>report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received  |
|  | waiver, Fran?<br>MR. GUZIK: Well, I guess that's a  |  | report, if the Board has any questions or comments.  |
| 2  | waiver, Fran?   | 2  | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received  |
| 2<br>3   | waiver, Fran?<br>MR. GUZIK: Well, I guess that's a<br>request for Martina, because there's no upper limit of  | 2<br>3   | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received<br>two maps today, you know, via e-mail. And I just want   |
| 2<br>3<br>4  | waiver, Fran?<br>MR. GUZIK: Well, I guess that's a<br>request for Martina, because there's no upper limit of<br>lighting levels in this ordinance.  | 2<br>3<br>4  | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received<br>two maps today, you know, via e-mail. And I just want<br>to double-check. The maximum impervious coverage, it   |
| 2<br>3<br>4<br>5   | waiver, Fran?<br>MR. GUZIK: Well, I guess that's a<br>request for Martina, because there's no upper limit of<br>lighting levels in this ordinance.<br>CHAIRMAN O'BRIEN: I thought the   | 2<br>3<br>4<br>5   | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received<br>two maps today, you know, via e-mail. And I just want<br>to double-check. The maximum impervious coverage, it<br>says 79.9. So is that the maximum for this project?  |
| 2<br>3<br>4<br>5<br>6  | waiver, Fran?<br>MR. GUZIK: Well, I guess that's a<br>request for Martina, because there's no upper limit of<br>lighting levels in this ordinance.<br>CHAIRMAN O'BRIEN: I thought the<br>explanation that was given by their witness, who is  | 2<br>3<br>4<br>5<br>6  | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received<br>two maps today, you know, via e-mail. And I just want<br>to double-check. The maximum impervious coverage, it<br>says 79.9. So is that the maximum for this project?<br>MR. GUZIK: That that's a good point.  |
| 2<br>3<br>4<br>5<br>6<br>7   | waiver, Fran?<br>MR. GUZIK: Well, I guess that's a<br>request for Martina, because there's no upper limit of<br>lighting levels in this ordinance.<br>CHAIRMAN O'BRIEN: I thought the<br>explanation that was given by their witness, who is<br>very logical, made sense.   | 2<br>3<br>4<br>5<br>6<br>7   | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received<br>two maps today, you know, via e-mail. And I just want<br>to double-check. The maximum impervious coverage, it<br>says 79.9. So is that the maximum for this project?<br>MR. GUZIK: That that's a good point.<br>Thank you for bringing that up, Linda.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8  | waiver, Fran?<br>MR. And those you don't</li> </ul>   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | report, if the Board has any questions or comments.<br>MS. GEEVERS: Francis, the Board received<br>two maps today, you know, via e-mail. And I just want<br>to double-check. The maximum impervious coverage, it<br>says 79.9. So is that the maximum for this project?<br>MR. GUZIK: That that's a good point.<br>Thank you for bringing that up, Linda.<br>So, Jeromie, if you're still with me,<br>there was a question and some correspondence that<br>happened after the first meeting regarding the<br>proposed improvement coverage, as indicated on the<br>plans, at approximately 90 percent, and that not<br>agreeing with the stormwater management report and the<br>impervious coverage used in the design of the<br>stormwater management features. I believe it had to<br>do with the improvement coverage calc. indicated on<br>the plans at 90 percent not using the total tract area<br>in the calculation. And that when you use the total<br>tract area in the calculation, it results in a maximum<br>coverage of 79.9 percent as opposed to the 90 percent<br>that's indicated?<br>MR. LANGE: That's correct.  |

|  | Page 138   |  | Page 140  |
|--|--|--|---|
| 1  | actual impervious coverage is actually about 71 and a  | 1  | covered this, but take drawing your attention to  |
| 2  | half percent, as the plan currently stands. So there   | 2  | your 2.05, cross access privileges for the residents  |
| 3  | is over two acres of additional impervious coverage  | 3  | at Avalon East and West buildings. Was that   |
| 4  | that was included in the stormwater modeling, but is   | 4  | satisfactorily covered by Mr. O'Brien or somebody else  |
| 5  | actually on the current plan.  | 5  | to your satisfaction?   |
| 6  | And the purpose for that is if there's   | 6  | MR. GUZIK: Yes. I did not write   |
| 7  | any minor changes or amenities or sidewalks, you know,   | 7  | actually, I think it was Mr. O'Brien at the last  |
| 8  | consultation (indiscernible) stormwater design. So   | 8  | meeting.  |
| 9  | the stormwater design and all that performance Mr.   | 9  | CHAIRMAN O'BRIEN: Well, he wasn't here.   |
| 10   | Guzik testified to, will actually, in reality, be even   | 10   | He testified tonight.   |
| 11   | better because it will probably not get all the way to   | 11   | MR. GUZIK: I had it crossed off I was   |
| 12   | that additional two acres of impervious coverage.  | 12   | satisfied with his testimony.   |
| 13   | MR. GUZIK: Yeah. I don't have to   | 13   | CHAIRMAN O'BRIEN: My last question,   |
| 14   | that last point I don't have a problem with that   | 14   | 2.06, about the types of senior living.   |
| 15   | being, like, an asterisk and a footnote to the zoning  | 15   | MR. GUZIK: Yes. That that testimony   |
| 16   | data table. I think David Novak would agree to that.   | 16   | was addressed by their architect.   |
| 17   | And he's nodding his head yes. So that would be fine.  | 17   | CHAIRMAN O'BRIEN: That covers my items.   |
| 18   | If you indicate that the drawings as   | 18   | Allen, do you have anything for Francis?  |
| 19   | shown are slightly less, but you're requesting an  | 19   | MR. SCHECTEL: No, I don't.  |
| 20   | approval up to the 79.9 percent, that's fine with me.  | 20   | MR. HOBERMAN: I'm okay.   |
| 21   | MR. LANGE: Actually, I think that's an   | 21   | CHAIRMAN O'BRIEN: Anything else, Linda?   |
| 22   | excellent idea. And we'll agree to do that as a  | 22   | MS. GEEVERS: Just one other question.   |
| 23   | condition of any approval where we'll we're  | 23   | If there's any flooding once all of this is built on  |
| 24<br>25   | requesting (indiscernible) and we'll know with the   | 24<br>25   | Washington Road and it's near that roundabout, how do   |
| 25   | current plan, current (indiscernible) that way it can  | 25   | people get in and out or emergency vehicles? How is   |
|  |  |  |   |
|  | Page 139   |  | Page 141  |
| 1  | be tracked as changes are made to make sure we stay  | 1  | that going to work? Is there a  |
| 2  | be tracked as changes are made to make sure we stay within the allotment that was planned into the   | 2  | that going to work? Is there a<br>MR. GUZIK: Unfortunately, I can't hear  |

That was to answer a couple of the<br>Mayor's questions to me. And I think he thought it   | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20                         | that going to work? Is there a<br>MR. GUZIK: Unfortunately, I can't hear<br>you, Linda.<br>MS. GEEVERS: Cutting through the parking<br>lot to Alexander Road? Is this one way in, one way<br>out, or are they going to be if Washington Road is<br>flooded and they can't get out, do they go on Road A?<br>MR. GUZIK: Yeah. We've had discussions,<br>Chief Lynch and I, and probably modeled similarly to<br>what the county has on Quakerbridge Road at Quaker<br>Road where there's that advisory signage with the<br>flashing lights and a gate that closes. As we get<br>into this, either at the township's expense or through<br>a county emergency mitigation plan, as a mitigation<br>plan grant, would look to incorporate some advisory<br>signage probably prior to the roundabout as you come<br>from Route 64 advising you that the road's flooded,<br>and then there being an actual gate more in the area<br>of the Road A intersection so that you could still get<br>to Road A, but not go past it.  |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21             | be tracked as changes are made to make sure we stay<br>within the allotment that was planned into the<br>stormwater design.<br>MR. GUZIK: Okay. And thank you again,<br>Linda, for bringing that up.<br>MS. GEEVERS: Also can we make these<br>exhibits? Maybe these should be marked?<br>CHAIRMAN O'BRIEN: They're not exhibits.<br>They haven't been entered into by him.<br>MS. GEEVERS: I know. |--|---|--|--|
| 1  | anybody who's savvy can cut through across the dinky  | 1  | MR. L'AMOREAUX: And there's an echo in   |
| 2  | line and cut through the transit parking lot to get to  | 2  | here.  |
| 3  | Alexander Road. Or they would travel through the  | 3  | If someone gets in the left-turn lane and  |
| 4  | roundabout, back to Route 64 bridge to make use of the  | 4  | then realizes that they can't turn left because of the   |
| 5  | roads on the other side of the train tracks.  | 5  | prohibition, what do they do? They might be trapped;   |
| 6  | MS. GEEVERS: Okay.  | 6  | I don't know.  |
| 7  | CHAIRMAN O'BRIEN: Saju, anything for  | 7  | It would just be something that I would  |
| 8  | Francis?  | 8  | I would I would like to approach the County with   |
| 9  | MR. JOSEPH: No.   | 9  | that with that thought and see what they think.  |
| 10   | CHAIRMAN O'BRIEN: Mayor?  | 10   | Because  |
| 11   | MR. MARATHE: No, thanks.  | 11   | CHAIRMAN O'BRIEN: With what end in mind?   |
| 12   | CHAIRMAN O'BRIEN: Mike?   | 12   | MR. L'AMOREAUX: They might not they  |
| 13   | MR. KARP: No.   | 13   |  |
|  |   | 14   | might not do the prohibition, or we might stripe it as   |
| 14   | CHAIRMAN O'BRIEN: All right.  | 15   | one lane out instead of two.   |
| 15   | MR. GUZIK: Thank you.   |  | MR. MARATHE: Jeff, prohibition is good.  |
| 16   | CHAIRMAN O'BRIEN: Thanks, Francis.  | 16   | We need that prohibition. That will reduce lot of  |
| 17   | We normally target adjournment for 10:00,   | 17   | accidents.   |
| 18   | but we are expecting that we are going to be here till  | 18   | MR. L'AMOREAUX: Okay.  |
| 19   | close to 11:00 tonight, in order to try and complete  | 19   | MR. MARATHE: And I seen that kind of   |
| 20   | this application by next week. So with that in our  | 20   | thing in Plainsboro all the time.  |
| 21   | normal order, we will move on to Jeff L'Amoreaux, our   | 21   | MR. L'AMOREAUX: Okay. Okay.  |
| 22   | traffic engineer.   | 22   | CHAIRMAN O'BRIEN: And it would really be   |
| 23   | Jeff, do you want to enjoy the table?   | 23   | penalizing people who want to make a right turn to   |
| 24   | MR. L'AMOREAUX: I don't know if I'll be   | 24   | restrict this to one egress lane, wouldn't it?   |
| 25   | able to hear you, but I'll give it a try.   | 25   | MR. L'AMOREAUX: Yes. Yes.  |
|  | Page 143  |  | Page 145   |
|  |   |  |  |
| 1  | CHAIRMAN O'BRIEN: All right. That's a   | 1  | CHAIRMAN O'BRIEN: So come back to Mr.  |

|  | Page 146  |  | Page 148  |
|--|---|--|---|
| 1  | MR. RACHED: Thank you, Jeff. This is  | 1  | item that you stumbled onto?  |
| 2  | not any different from any part-time provision. You   | 2  | ,<br>MR. L'AMOREAUX: It's my understanding  |
| 3  | see it all over the country. What we could do is put  | 3  | that the Applicant is relying on on-street parking to   |
| 4  | just one sign in advance that says, no left turn at   | 4  | fulfill part of their parking obligation. And if I  |
| 5  | these hours so people don't set themselves up in that   | 5  | was not mistaken, on Road B, that's where that's  |
| 6  | lane. That's all. That should do it.  | 6  | where it was going to be.   |
| 7  | CHAIRMAN O'BRIEN: Maurice   | 7  | I also understand that they may be  |
| 8  | MR. SCHECTEL: Excuse me. Where you  | 8  | looking for the township to take over Road B as a   |
| 9  | would place that sign? You wouldn't place it you  | 9  | public roadway.   |
| 10   | would place it at the intersection, but then it would   | 10   | My question to the Board is: If that's  |
| 11   | be too late.  | 11   | true, and the Applicant can weigh in on this, is the  |
| 12   | MR. RACHED: No.   | 12   | Board comfortable with parking fulfilling a   |
| 13   | MR. L'AMOREAUX: You might do it ahead.  | 13   | development requirement being on a public roadway?  |
| 14   | You might do it ahead, like, up at the intersection of  | 14   | Am I reading that right?  |
| 15   | Road C, you know, so that way people don't get into   | 15   | CHAIRMAN O'BRIEN: What's the what is  |
| 16   | the left lane to begin with.  | 16   | the difference in the parking? I think there's a  |
| 17   | CHAIRMAN O'BRIEN: Road C or Road B?   | 17   | significant difference, isn't there? What's required  |
| 18   | MR. L'AMOREAUX: Whichever one is closer   | 18   | and what they're providing?   |
| 19   | to Washington Road.   | 19   | MR. HOFF: We can address that.  |
| 20   | CHAIRMAN O'BRIEN: After one passes the  | 20   | MR. MARATHE: Yes. We have not   |
| 21   | intersection with Road B, which would be a conspicuous  | 21   | committed. They are pushing, but we're not committed  |
| 22   | sign, which maybe the signage needs to be a little  | 22   | to taking on Road B. That's a private road inside the   |
| 23   | bigger than the standard size or  | 23   | development.  |
| 24   | MR. L'AMOREAUX: I think that the  | 24   | MR. L'AMOREAUX: Okay.   |
| 25   | given the slower speeds, that the standard size would   | 25   | CHAIRMAN O'BRIEN: And I was mistaken.   |
|  | Page 147  |  | Page 149  |
|  | -   |  |   |
| 1  | probably be okay.   | 1  | You were right. It's Road C that feeds into Road A  |
| 1<br>2   | probably be okay.<br>CHAIRMAN O'BRIEN: All right.   | 1<br>2   | You were right. It's Road C that feeds into Road A close to the intersection with Washington Road. So   |
|  | probably be okay.<br>CHAIRMAN O'BRIEN: All right.<br>MR. SCHECTEL: So then, Jeff, anybody   |  | You were right. It's Road C that feeds into Road A close to the intersection with Washington Road. So for the record I want to clarify it. I should have  |
| 2<br>3<br>4  | probably be okay.<br>CHAIRMAN O'BRIEN: All right.<br>MR. SCHECTEL: So then, Jeff, anybody<br>wanting to make the left-hand turn would go down Road  | 2<br>3<br>4  | You were right. It's Road C that feeds into Road A close to the intersection with Washington Road. So for the record I want to clarify it. I should have said agreed with you for Road C.   |
| 2<br>3<br>4<br>5   | probably be okay.<br>CHAIRMAN O'BRIEN: All right.<br>MR. SCHECTEL: So then, Jeff, anybody<br>wanting to make the left-hand turn would go down Road<br>B and then come into the traffic circle?  | 2<br>3<br>4<br>5   | You were right. It's Road C that feeds into Road A close to the intersection with Washington Road. So for the record I want to clarify it. I should have said agreed with you for Road C.<br>MR. L'AMOREAUX: Okay. Go ahead.  |
| 2<br>3<br>4<br>5<br>6  | probably be okay.<br>CHAIRMAN O'BRIEN: All right.<br>MR. SCHECTEL: So then, Jeff, anybody<br>wanting to make the left-hand turn would go down Road<br>B and then come into the traffic circle?<br>MR. L'AMOREAUX: They could. |  | Page 150   |  | Page 152  |
|--|--|--|---|
| 1  | over the tracks.   | 1  | Transit to get back to us, we'd love to hear from   |
| 2  | But if you put it at the end of Road A,  | 2  | them, because we've been talking to them about trying   |
| 3  | it would just be that much more convenient, and it may   | 3  | to get easements, as we testified to during the first   |
| 4  | have a more beneficial effect.   | 4  | hearing (indiscernible) three years.  |
| 5  | CHAIRMAN O'BRIEN: So you're suggesting   | 5  | MR. L'AMOREAUX: So that's the issue?  |
| 6  | another crossover of the dinky line tracks?  | 6  | MR. HOFF: Yeah. They're just not  |
| 7  | MR. L'AMOREAUX: At some point, yes. But  | 7  | particularly responsive. I mean, it's not for lack of   |
| 8  | we can do something about it relatively easily,  | 8  | effort.   |
| 9  | because we would use the same crossing. We would just  | 9  | MR. SCHECTEL: It's not surprising.  |
| 10   | go down through the parking lot.   | 10   | CHAIRMAN O'BRIEN: Do we know somebody at  |
| 11   | MR. SCHECTEL: So I guess the question I  | 11   | the County that could impose on New Jersey Transit to   |
| 12   | have is I mean, I know it's expensive to put in a  | 12   | be more responsive?   |
| 13   | rail crossing with the flashing lights, the stop.  | 13   | MR. L'AMOREAUX: Yeah. I could give Matt   |
| 14   | MR. MARATHE: Can you move closer to the  | 14   | Lawson a call and see if we can get them to talk.   |
| 15   | mike?  | 15   | CHAIRMAN O'BRIEN: And after you make  |
| 16   | MR. SCHECTEL: Yes. I just said, I know   | 16   | that call, let me know. I'll follow-up, because I   |
| 17   | it's expensive to put in another crossing with the   | 17   | know Matt also.   |
| 18   | signal lights with the flashing bells, the lights, the   | 18   | MR. L'AMOREAUX: So if so so, Rich,  |
| 19   | whole nine yards.  | 19   | if we can bust this loose with New Jersey Transit,  |
| 20   | So my thought is that maybe Road A should  | 20   | could you hook up?  |
| 21   | have been curved down and the cul-de-sac road should   | 21   | MR. HOFF: Well  |
| 22   | have been videned. That would be the logical way you   | 22   | MR. L'AMOREAUX: Would you hook through?   |
| 23   | would, you know, come in. You'd utilize the existing   | 23   | MR. HOFF: If New Jersey Transit allows  |
| 24   | crossing, the existing signal lights crossing. But   | 24   |   |
| 25   | you're indicating that there's a need for a second   | 25   | MR. L'AMOREAUX: Okay. Okay. We're   |
| 25   | Page 151   | 23   | Page 153  |
|  |  |  | 1490 100  |
| 1  | MR L'AMORFALIX. No there isn't a need  | 1  | going to try Okay   |
| 1  | MR. L'AMOREAUX: No, there isn't a need for a second. What I'm saving is is that at the   | 1  | going to try. Okay.   |
| 2  | for a second. What I'm saying is, is that at the   | 2  | MR. MARATHE: Jeff, that's a good point.   |
| 2<br>3   | for a second. What I'm saying is, is that at the western end on the planned western end of Road A  | 2<br>3   | MR. MARATHE: Jeff, that's a good point.<br>We do need that connection there.  |
| 2<br>3<br>4  | for a second. What I'm saying is, is that at the western end on the planned western end of Road A that there is a I don't believe that they're   | 2<br>3<br>4  | MR. MARATHE: Jeff, that's a good point.<br>We do need that connection there.<br>MS. GEEVERS: Do you have a map for a  |
| 2<br>3<br>4<br>5   | for a second. |--|---|--|--|
| 1  | numbers, I think. I know he has those numbers.  | 1  | MR. MARATHE: But can you go to the   |
| 2  | MR. L'AMOREAUX: Putting you on the spot.  | 2  | parking lot from that cul-de-sac?  |
| 3  | MR. O'BRIEN: Ken O'Brien. I can speak   | 3  | CHAIRMAN O'BRIEN: Not the way it's on  |
| 4  | for the Avalon garages. In the West garage there's 50   | 4  | the plan.  |
| 5  | EV charging spaces. And EV and in the East garage   | 5  | MR. MARATHE: Then you can drive to the   |
| 6  | there are 36 EV charging spaces proposed.   | 6  | parking lot? You go straight, you go to Alexander  |
| 7  | MR. L'AMOREAUX: How about anyplace else?  | 7  | Road.  |
| 8  | The apartments or townhomes?  | 8  | Come down. Come down. Come down. That  |
| 9  | MR. HOFF: I believe the testimony was   | 9  | circle, see that show that car? Can that car drive   |
| 10   | that they'd be offered in the townhomes for anybody   | 10   | straight?  |
| 11   | wishing to have them installed.   | 11   | MR. LADELL: No.  |
| 12   | MR. L'AMOREAUX: Okay. Thanks. Thanks.   | 12   | MR. HOFF: Emergency.   |
| 13   | I appreciate you bearing with me. I just wanted to  | 13   | MR. MARATHE: Why are you showing opening   |
| 14   | get that out there.   | 14   | there then?  |
| 15   | Members of the Board, I have nothing  | 15   | MR. HOBERMAN: Emergency. Emergency   |
| 16   | further, unless you have questions for me.  | 16   | access.  |
| 17   | MR. MARATHE: Just one second.   | 17   | MR. L'AMOREAUX: As I recall, Mr. Mayor,  |
| 18   | MS. GEEVERS: Charging stations in the   | 18   | it was an emergency access offering by the Applicant.  |
| 19   | senior living facility? Some of those people could  | 19   | It wasn't permitted it wasn't proposed to be a   |
| 20<br>21   | have cars. Is there any charging stations there?  | 20<br>21   | through connection.  |
| 22   | MR. L'AMOREAUX: I don't I don't   | 22   | MR. HOBERMAN: Slide five shows this very clearly.  |
| 23   | believe they do.<br>MR. O'BRIEN: Yes. This is Ken O'Brien   | 23   | MR. MARATHE: Yes. Slide five, exactly.   |
| 24   | again. Yes, they have EV charging spaces in the   | 24   | That's what I'm looking at.  |
| 25   | garage. Some of those that count in the West garage   | 25   | MR. SCHECTEL: So, Jeff, following up on  |
|  | garage. Some of those that count in the west garage   |  |  |
|  | Page 155  |  | Page 157   |

Would that be more logical?<br>CHAIRMAN O'BRIEN: The plan already shows<br>the removal of six parking spaces that is adjacent to<br>that cul-de-sac.<br>MR. SCHECTEL: The cul-de-sac. I think<br>you'd also be losing spaces up at the top.<br>MR. MARATHE: I mean, that removes a                            |
| 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | are dedicated for the senior living spaces.<br>MS. GEEVERS: So they're going to have<br>the seniors are going to have to which garage?<br>MR. O'BRIEN: The West garage has<br>dedicated senior living spaces, and some of those are<br>EV dedicated. So the 50 EV EV spaces in the West<br>garage, some of those are for the senior project.<br>MR. MARATHE: I have one question. Can<br>you make that diagram a little bigger? That circle,<br>is that just a walking path or the circle shows<br>connected to the parking lot, near Basin A. If you go<br>down Basin A, that road.<br>MR. L'AMOREAUX: There in the lower left?<br>MR. MARATHE: Yeah.<br>MR. L'AMOREAUX: Everybody remembers,<br>right?<br>MR. MARATHE: It shows connected. I just<br>assumed that you could drive there. Just a walking<br>path?<br>MR. L'AMOREAUX: No. It's a service<br>area.<br>MR. HOFF: It's a service area. | 2<br>3<br>4<br>5<br>6<br>7<br>8<br>9<br>10<br>11<br>12<br>13<br>14<br>15<br>16<br>17<br>18<br>19<br>20<br>21<br>22       | <ul> <li>what the Mayor was saying<br/>CHAIRMAN O'BRIEN: Wait. Wait. Wait.</li> <li>If it doesn't pertain to the cul-de-sac hang on for<br/>just a minute.</li> <li>MR. SCHECTEL: It does pertain to it.<br/>CHAIRMAN O'BRIEN: Okay. Go ahead.<br/>MR. SCHECTEL: Following up with what the</li> <li>Mayor was suggesting, I mean, I think it's a good<br/>idea. Why why have the lot I'm sorry. Why have</li> <li>Road A connect into this portion of the parking lot so<br/>people will be thinking, screw the that lot, and<br/>you'd be taking up nine spaces, I believe, up at the<br/>top, when you could just, let's say, widen possible<br/>the that road leading to the cul-de-sac, and then<br/>getting rid of the cul-de-sac and just making the<br/>connection across to where you actually have the<br/>railroad crossing. Would that be more logical?<br/>CHAIRMAN O'BRIEN: The plan already shows<br/>the removal of six parking spaces that is adjacent to<br/>that cul-de-sac.</li> <li>MR. SCHECTEL: The cul-de-sac. I think<br/>you'd also be losing spaces up at the top.</li> </ul> |

|  | Page 158  |  | Page 160   |
|--|---|--|--|
| 1  | MR. HOFF: Yeah. But that you're   | 1  | MR. SCHECTEL: Sorry.   |
| 2  | talking about an access drive to get behind the senior  | 2  | I just felt it might be a little bit a   |
| 3  | building to provide access to, you know, effectively  | 3  | better alternative, rather than having people snaking  |
| 4  |   | 4  | more through that parking lot.   |
| 5  | MR. MARATHE: Anyplace you provide access  | 5  | And in terms of it being private   |
| 6  | to the parking lot, and then you can go to Alexander  | 6  | property, it's supposed to be a public road. A is a  |
| 7  | Road.   | 7  | public road. At this point it's going through private  |
| 8  | MR. LADELL: That's not what we want.  | 8  | property, but it will be a public road. So it's,   |
| 9  | MR. HOFF: We're not encouraging that.   | 9  | basically, an extension of A, if you look at it that   |
| 10   | MR. LADELL: We don't want that.   | 10   | way.   |
| 11   | MR. KARP: You're going to get commuters   | 11   | MR. HOBERMAN: I mean, my thought would   |
| 12   | parking in this building.   | 12   | be to keep let's keep this circulation plan element  |
| 13   | MR. HOFF: It's the access, that's it.   | 13   | that the eventual Vaughn Road extension does connect   |
| 14   | SPEAKER: Why?   | 14   | between Washington and Alexander. And I realize that,  |
| 15   | SPEAKER: Who's answering?   | 15   | with the way the plan presented to us, that that   |
| 16   | MR. L'AMOREAUX: Let me  | 16   | suggestion for the Vaughn Road extension would be more   |
| 17   | MR. MARATHE: I don't know why.  | 17   | north than the current connection where the railroad   |
| 18   | SPEAKER: It's one way in and out.   | 18   | over the railroad tracks is now.   |
| 19   | MR. MARATHE: No. That's dangerous, one  | 19   | So, you know, we just I'd say there  |
| 20   | way in and out.   | 20   | would have to be some alteration, you know, in the   |
| 21   | SPEAKER: Why?   | 21   | circulation plan element to accommodate Road A   |
| 22   | MR. MARATHE: And then if I live in  | 22   | becoming part of the Vaughn Drive extension. It's an   |
| 23   | building Avalon West, if I want to go to the train  | 23   | eventuality, and that would keep it off private  |
| 24   | station, I have to go all the way around, come to   | 24   | property.  |
| 25   | Washington Road, and then go to Station Drive. Going  | 25   | MR. L'AMOREAUX: Mr. Chairman, that's all   |
|  |   |  |  |
|  | Page 159  |  | Page 161   |

|  | Page 162   |  | Page 164   |
|--|--|--|--|
| 1  | the conditions would be to prompt the requirement for  | 1  | evening, and thank you to the Applicant.   |
|  | a stop sign at the location I'm describing?  | 2  | CHAIRMAN O'BRIEN: Dan, can you do it in  |
| 3  | MR. L'AMOREAUX: Sure. Yeah. I can  | 3  | less than 15 minutes?  |
| 4  | touch on it. Basically, what happens is you need to  | 4  | MR. DOBROMILSKY: I'll try.   |
|  | have a certain volume of traffic per hour on one road,   | 5  | CHAIRMAN O'BRIEN: Tell them who you are.   |
|  | say Road A in this case. And a certain minimum   | 6  | MR. DOBROMILSKY: Dan Dobromilsky,  |
|  | minimum volume of traffic on the intersecting road,  | 7  | landscape architect for the township.  |
|  | which would be Road B in the AI driveway.  | 8  | Good evening, everyone. I had a report   |
| 9  | CHAIRMAN O'BRIEN: Road C.  | 9  | dated August 18, 2021. There were five points in that  |
| 10   | MR. L'AMOREAUX: Road C, thank you, in  | 10   | report. The first point was regarding the master plan  |
| 11   | the AI driveway.   | 11   | green belt line. I think there was testimony about   |
| 12   | And in my experience the volumes of  | 12   | the environmentally constrained areas in the upper   |
| 13   | traffic that you need to meet those requirements are   | 13   | left side of the plan shows green. And I believe the   |
|  | usually much higher, as in the hundreds per hour, in   | 14   | Applicant indicated that the ownership of that   |
|  | order to satisfy the warrant criteria in the MUTCD   | 15   | property will remain with the property owner or  |
|  | that Mr. Rached mentioned. So, truly, meeting a  | 16   | management company with conservation easements to the  |
|  | four-way or three-way stop configuration based on  | 17   | township and the state due to the environmental  |
|  | volume is, I found, to be surprisingly hard to do.   | 18   | constraints, but they would retain the responsibility  |
| 19   | My recommendation, if I could, should the  | 19   | to manage or maintain the property. Mostly, just if  |
| 20   | Board choose to go this way  | 20   | anything occurs on the property, it becomes hazardous,   |
| 21   | CHAIRMAN O'BRIEN: Go which way?  | 21   | it would have to be dealt with.  |
| 22   | MR. L'AMOREAUX: With with the with   | 22   | Moving on to comment number two, I   |
| 23   | the cross with the cross street and connection to  | 23   | believe there was good testimony about the removal of  |
| 24   | AI or not, would be to watch it operate. And then if   | 24   | existing trees and the planting of new trees to  |
| 25   | we have an issue generally you can see an issue  | 25   | mitigate the impacts of that removal. And I've   |
| -  | Page 163   |  | Page 165   |
| 1 1  | pefore it becomes a bona fide problem. And you can   | 1  | indicated that there's no impact upon the community  |
|  | and you can go out there and take the measurements and   | 2  | forest as a result of this project as a whole. The   |
|  | go ahead. And I don't think that that's going to   | 3  | forest as a whole.   |
|  | happen.  | 4  | In comment number three, indicating that   |
| 5  | CHAIRMAN O'BRIEN: Well, unless the   | 5  | the landscape architectural design that was presented  |
| 6 t  | cownship agrees to assume ownership of Road A, there   | 6  | tonight meets the requirements of the township code  |
|  | s no down the road further consideration, unless AI  | 7  | standards, and will greatly enhance the esthetics and  |
|  | Technologies chooses to sue the owner of this tract  | 8  | function of the new neighborhood of the community.   |
|  | 5  |  |  |
|  | over this situation. I was just trying to anticipate   | 9  | - ,  |

|          | Page 166  |          | Page 168  |
|----------|---|----------|---|
| 1        | they're proposing a playground of about 2,000 square                                      | 1        | And in terms of the type of development   |
| 2        | feet, plus the spray pool and turf area that they show                                    | 2        | occurs, it's more urban than suburban. And the  |
| 3        | in the promenade.   | 3        | recreational needs differ for that type of community.   |
| 4        | Regarding play lots or tot lots, the code   | 4        | So for that, what you heard in the testimony was they   |
| 5        | requires one for every 400 persons. They're proposing                                     | 5        | were doing things a bit different. And some of the  |
| 6        | one for 1,500 persons. So it's below that standard.                                       | 6        | things that they were proposing, the promenade, in the  |
| 7        | The size of the tot lot, we would typically request                                       | 7        | code for the redevelopment area there's a requirement   |
| 8        | two. One for younger children and one for older   | 8        | that that be 50,000 square feet of outdoor civic space  |
| 9        | children. As I indicated, they're proposing one. It                                       | 9        | for seating, dining, and it includes seating, dining,   |
| 10       | seems oriented towards younger children. The minimum                                      | 10       | a lawn panel, and gathering space. The area of the  |
| 11       | for that would be 2,000 square feet for the younger                                       | 11       | promenade measures 78,000 square feet. But that   |
| 12       | children and 5,000 square feet for the older children.                                    | 12       | includes approximately 25,000 square feet of the  |
| 13       | What they're proposing approaches or meets the  | 13       | roads, which you heard could be or not closed down.   |
| 14       | standard for the younger children, and they have not                                      | 14       | So they do meet that standard.  |
| 15       | provided a typical tot lot for older children.  | 15       | Regarding areas, there are several areas  |
| 16       | For the elements in the tot lot, we   | 16       | of outdoor, like, cafe seating associated with some of  |
| 17       | typically request a swing, a slide, play element, such                                    | 17       | the retail uses. And we have no requirement for that  |
| 18       | as benches. They have not proposed swings. The tot  | 18       | specifically. They measure about 9,600 square feet.   |
| 19       | lot is mainly for younger children.   | 19       | There's at least two of those. They have a number of  |
| 20       | When it comes to tennis courts, we have a   | 20       | areas that will be devoted to outdoor seating, dining,  |
| 21       | standard of one tennis court for every 100 dwelling                                       | 21       | barbecue islands, lounge seating, a dog run, a hammock  |
| 22       | units. There are no tennis courts proposed. There   | 22       | grove, game tables, a boulder garden. And this is all   |
| 23       | are 868 units, as you've heard.   | 23       | in addition to the promenade area that they provided a  |
| 24       | For the swimming pool, for a development  | 24       | lot of testimony tonight about.   |
| 25       | greater than 200 dwelling units, we would have a  | 25       | There was also the areas of the   |
|          | Page 167  |          | Page 169  |
| 1        | standard for an 1,800 square foot swimming pool. The                                      | 1        | courtyard, pools and terraces that they did tonight.  |
| 2        | swimming pool that they've proposed measures about 16                                     | 2        | Those areas measure approximately 30,000 square feet.   |
| 3        | or 1,700 square feet. So it's just slightly below   | 3        | That does not include the roof deck that I think was  |
| 4        | that standard. They do have an extensive area of pool                                     | 4        | alluded to in the design.   |
| 5        | and lounge deck space surrounding that pool. There is                                     | 5        | So the senior portion of the development  |
| 6        | a requirement for a community building for anything                                       | 6        | there was no specific requirement for outdoor space in  |
| 7        | over 150 dwelling units, and I think they've indicated                                    | 7        | our code. They're proposing approximately 10,000  |
| 8        | that there are a number of indoor   | 8        | square feet of outdoor space associated with that.  |
| 9        | recreational-oriented spaces or civic spaces  | 9        | So they do have over three acres of   |
| 10       | associated with the development that should address                                       | 10       | outdoor space provided. But the facilities that   |
| 11<br>12 | that, I believe.  | 11       | they're proposing differ from what we would typically   |
| 13       | With that said, these standards are   | 12<br>13 | require in association with this.   |
| 14       | really designed for the typical suburban development                                      |          | So I think, as they've indicated in their   |
| 15       | that occurs in this township. And this, I think we would all agree, is a unique proposal. | 14<br>15 | testimony, they're relying upon their experience in building this type of product in this type of |
| 16       | First off, it's a redevelopment and it  | 16       | situation, and what this clientele will have as demand  |
| 17       | represents, as I indicated in my comment number five,                                     | 17       | for recreation space. I mean, in short it seems like  |
| 18       | the redevelopment of lands and facilities that are  | 18       | it's more oriented towards adult population. Not  |
| 19       | antiquated and inefficient inefficient, and they're                                       | 19       | senior, but adult population and less towards children  |
| 20       | offering to build a diverse multi-generational  | 20       | and more towards people that are pedestrian oriented  |
| 21       | mixed-use neighborhood with pedestrian-oriented design                                    | 21       | rather than vehicle oriented.   |
| 22       | in close proximity to a major transit station, which                                      | 22       | And I think that's what the Board has to  |
| 23       | is something that this town has been trying to do for                                     | 23       | consider is, is that appropriate or not? I would  |
|          |   |          |   |
| 24       | a very long time, as you all are aware. And with that                                     | 24       | think that they have the experience doing this, and   |

|                                  | Page 170   |                                  | Page 172  |
|----------------------------------|--|----------------------------------|---|
| 1                                | very attractive neighborhood to finally get this type  | 1                                | transit village, you know, oriented development.  |
| 2                                | of development adjacent to the train station, as we've   | 2                                | That's what's going to happen.  |
| 3                                | wanted to do for a very long time.   | 3                                | CHAIRMAN O'BRIEN: I think   |
| 4                                | CHAIRMAN O'BRIEN: Dan, is the absence of   | 4                                | MS. GEEVERS: And, you know, the kids  |
| 5                                | a play area for older children something that requires   | 5                                | need to go somewhere. I know I've gotten complaints   |
| 6                                | Board's granting of a waiver?  | 6                                | from the development off of Old Bear Brook Road there   |
| 7                                | MR. DOBROMILSKY: I mean, I think I   | 7                                | with all the newer, you know, apartments and  |
| 8                                | think there should be a waiver of 200-36 for the   | 8                                | everything that went in there, the kids are playing in  |
| 9                                | entire development, basically, is what we should do.   | 9                                | the parking lots and stuff.   |
| 10                               | We should just say that their the recreation   | 10                               | So this is West Windsor. That's what  |
| 11                               | improvements differ from what 200-36 requires, and   | 11                               | happens. They want to live here because the education   |
| 12                               | that there is a waiver from that section as a whole  | 12                               | that their kids are going to get. So we can't just  |
| 13                               | for this development in order to do that.  | 13                               | think that's not going to happen. Every developer   |
| 14                               | CHAIRMAN O'BRIEN: Does the Applicant   | 14                               | comes in and they're, you know, going for the   |
| 15                               | have any objection if the Board considers granting a   | 15                               | millennial's and all this kind of stuff. Fine. But  |
| 16                               | waiver for section 36?   | 16                               | the reality is that we will get school children here.   |
| 17                               | MR. HOFF: No objection. The only thing   | 17                               | There's no question in my mind. And the school  |
| 18                               | we might add is it was kind of our reading of the  | 18                               | district has the statistics to figure out a   |
| 19                               | redevelopment plan that sort of the promenade and some   | 1                                | percentage. Sometimes it's like .53 for an apartment  |
| 20                               | of the details within the redevelopment plan captured  | 20                               | for, you know, child. Maybe it's a little bit less.   |
| 21                               | the recreational intent for the project. So and  | 21                               | CHAIRMAN O'BRIEN: I think we acknowledge  |
| 22                               | the redevelopment plan would typically supersede any   | 22                               | that children are going to come.  |
| 23                               | ordinances to the contrary.  | 23                               | MS. GEEVERS: They're coming.  |
| 24                               | So don't know if it applies, but bells   | 24                               | CHAIRMAN O'BRIEN: What's your point?  |
| 25                               | and suspenders, if the Board is inclined to grant a  | 25                               | MS. GEEVERS: And where are they going to  |
|                                  |  |                                  |   |
|                                  | Page 171   |                                  | Page 173  |
| 1                                | waiver, that's fine.   | 1                                | go? Where are they going to play?   |
| 2                                | But we think probably the terms of the   | 2                                | MR. MARATHE: Linda  |
| 3                                | redevelopment plan and the specific elements of that   | 3                                | MS. GEEVERS: I mean, they have to go  |
| 4                                | redevelopment plan with the promenade would control  | 4                                | somewhere. They're going to be running all over the   |
| 5                                | here.  | 5                                | promenade here because they need to get outside,  |
| 6                                | But to the Chairman's point, you're  | 6                                | especially in Covid, you know. So with the schools  |
| 7                                | inclined to grant a waiver to just to cover that base,   | 7                                | and everything. So I'm just saying, maybe some of   |
| 8                                | certainly have no objection.   | 8                                | this when I see these waterfalls, they're really  |
| 9                                | CHAIRMAN O'BRIEN: Martina, do you have   | 9                                | going to be up and running June, July, and August,  |
| 10                               | any recommendation as to what action we might want to  | 10                               | part of September. It looks all pretty, but they're   |
| 11                               | take?  | 11                               | not going to be swimming the rest of the year or  |
| 12                               | MS. BAILLIE: I agree with Mr. Hoff's   | 12                               | jumping in their bathing suits through the water. So  |
| 13                               | analysis that general in general the redevelopment   | 13                               | I'm just concerned about that. You know, what are   |
| 14                               | plan would supersede.  | 14                               | they going to do?   |
| 15                               | CHAIRMAN O'BRIEN: So we need to take no  | 15                               | MR. SCHECTEL: My opinion, I really think  |
| 16                               | action?  | 16                               | that at least an additional tot lot or a play area for  |
|                                  |  | 17                               | older children should be established there. I can't   |
| 17                               | MS. BAILLIE: In my view you wouldn't.  |                                  |   |
| 18                               | CHAIRMAN O'BRIEN: Thank you.   | 18                               | believe that they can't find room to put in additional  |
| 18<br>19                         | CHAIRMAN O'BRIEN: Thank you.<br>MS. BAILLIE: It's up to the Board.   | 18<br>19                         | equipment for that age group, at least to balance it  |
| 18<br>19<br>20                   | CHAIRMAN O'BRIEN: Thank you.<br>MS. BAILLIE: It's up to the Board.<br>CHAIRMAN O'BRIEN: Any questions for Dan  | 18<br>19<br>20                   | equipment for that age group, at least to balance it out.   |
| 18<br>19<br>20<br>21             | CHAIRMAN O'BRIEN: Thank you.<br>MS. BAILLIE: It's up to the Board.<br>CHAIRMAN O'BRIEN: Any questions for Dan<br>by members of the Board?  | 18<br>19<br>20<br>21             | equipment for that age group, at least to balance it<br>out.<br>MR. DOBROMILSKY: I think what I've  |
| 18<br>19<br>20<br>21<br>22       | CHAIRMAN O'BRIEN: Thank you.<br>MS. BAILLIE: It's up to the Board.<br>CHAIRMAN O'BRIEN: Any questions for Dan<br>by members of the Board?<br>MS. GEEVERS: Well, the reality is is  | 18<br>19<br>20<br>21<br>22       | equipment for that age group, at least to balance it<br>out.<br>MR. DOBROMILSKY: I think what I've<br>indicated is they do have space. It's just how is it  |
| 18<br>19<br>20<br>21<br>22<br>23 | CHAIRMAN O'BRIEN: Thank you.<br>MS. BAILLIE: It's up to the Board.<br>CHAIRMAN O'BRIEN: Any questions for Dan<br>by members of the Board?<br>MS. GEEVERS: Well, the reality is is<br>that you are going to get children down there because | 18<br>19<br>20<br>21<br>22<br>23 | equipment for that age group, at least to balance it<br>out.<br>MR. DOBROMILSKY: I think what I've<br>indicated is they do have space. It's just how is it<br>designed and what is it dedicated to? |
| 18<br>19<br>20<br>21<br>22       | CHAIRMAN O'BRIEN: Thank you.<br>MS. BAILLIE: It's up to the Board.<br>CHAIRMAN O'BRIEN: Any questions for Dan<br>by members of the Board?<br>MS. DOBROMILSKY: I think what I've<br>indicated is they do have space. It's just how is it  |

|  | Page 174   |  | Page 176   |
|--|--|--|--|
| 1  | MR. DOBROMILSKY: I mean, what they're  | 1  | that's the difference. And I think you're being asked  |
| 2  | indicating to you is what they're proposing is what  | 2  | to to either rely upon their experience or not.  |
| 3  | they think their clientele will demand. And I think  | 3  | MS. GEEVERS: Well, a lot of developers   |
| 4  | that's the question is: Do we do we suggest  | 4  | will say you get no kids by the train station. I   |
| 5  | that they should do something different, or do we  | 5  | think years ago we were saying about .28 students per  |
| 6  | suggest that they be given the flexibility that they   | 6  | unit. So it is lower than maybe elsewhere in town,   |
| 7  | may have to adjust it if they find different than what   | 7  | but it wasn't zero. It wasn't anywhere near zero.  |
| 8  | they anticipate?   | 8  | So I'm just saying I'm just saying,  |
| 9  | MR. MARATHE: Gene, I just have a   | 9  | the kids, they're going to come. I just I just   |
| 10   | comment. I mean, Linda, we spent hours talking about   | 10   | MR. HOBERMAN: I agree with Dan's   |
| 11   | (indiscernible) kid or not. Here they're making it   | 11   | approach on this, that it's got a more urban dynamic   |
| 12   | kid unfriendly. That's exactly what you want, and now  | 12   | to it. And so that's why it might not need all the   |
| 13   | you're complaining about them making it kid  | 13   | amenities, recreational amenities requirements, that   |
| 14   | unfriendly. And I know (indiscernible) can say after   | 14   | we've had previously. And also, you know, it's near  |
| 15   | me, but people will decide if they want to come there  | 15   | to the arboretum, that big green space there, West   |
| 16   | or not. If I have three kids and there's no swings,  | 16   | Windsor Community Park, and Duck Pond Park, which, I   |
| 17   | I'm not going to rent there. That's just the bottom  | 17   | think, can meet the recreational needs.  |
| 18   | line.  | 18   | CHAIRMAN O'BRIEN: Board members have   |
| 19   | So if it's kid unfriendly, that's good   | 19   | anything else for Dan?   |
| 20   | for me. I mean, that's what you spent hours talking  | 20   | MR. KARP: I agree with Dan. And kids   |
| 21   | about, a simple lot in the redevelopment. So don't   | 21   | will come. But if there's no playground, there's   |
| 22   | force them to make it more kid friendly.   | 22   | great parks in town. They'll find a park or they'll  |
| 23   | MS. GEEVERS: Generally I would say that,   | 23   | do what I do; they're throw a ball against the wall.   |
| 24   | but the reality, because is the school district is so  | 24   | CHAIRMAN O'BRIEN: Spoken like a true New   |
| 25   | good   | 25   | Yorker.  |
|  |  |  |  |
|  | Page 175   |  | Page 177   |
